MEMBER COLLEGE FACULTY IS VICTIM OF FOUL MURDER BAYON ROUGE, La., June 8.—With members of the student body under close surveillance, police today renewed their search for the slayer of Professor Oscar B. Turner, instructor in astronomy at Louisiana State University, who died from gashes on the forehead and throat, evidently inflicted with a heavy blood-stained fire axe which was lying nearby. Return of the examination papers under circumstances almost as mysterious as those surrounding the crime, have included authorities to conclude that the slayer was a student.
