NATIONAL MUSIC CONSERVATORY IS FEDERATION'S AIM

(Associated Press Leased Wire.) PORTLAND, Ore., June 11.—The National Federation of Music Clubs, in biennial convention here, today went on record favoring action by congress upon the Bacon bill, which provides for appointment of a commission to examine the feasibility of establishing a national conservatory of music. The action was taken after a report by Mrs. Frances E. Clark of Camden, N. J., chairman of the legislative committee. Mrs. Clark in her report urged the importance of such state organization within the federation working to bring about musical credit in school work, and for the establishment of state supervisors of music in all states. She announced that the music clubs had already served notice at Washington that in the event of the

establishment of a department of education, they will begin steps to bring about installation of a bureau of music. She said the music clubs are co-operating with the National Education Association and 25 other bodies to bring about passage of the National Education bill. Mrs. Henry Schurman, chairman of the endowment and special membership committee, reported a gain of about \$12,750 in the endowment fund in the last two years and urged each state organization to devote more energy to increasing this fund.

This Pretty Girl Who Defies Age Discloses Great Beauty Secret

Says It's Nothing More Than Old Fashioned Ordinary Buttermilk in the Form of a Wonderful Cream. Is Guaranteed by All Good Drug and Department Stores.

The first application of Howard's Buttermilk Cream will astonish you. It creates beauty almost like magic. The most wonderful thing about it is the fact that whilst it turns the dull, most lifeless complexion to radiant beauty and makes red or rough hands or arms snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin. No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, freckles, crows feet or lines around the mouth, ugly finger nails, or just a simple roughness of the face, hands or arms caused by wind or

sun, you will find that any or all of these troubles will quickly disappear with the use of Howard's Buttermilk Cream. To prove this to your complete satisfaction, get a small quantity today at your favorite toilet goods counter with the understanding that they will freely return the purchase money should you be dissatisfied. FEARED WATCHMAN VICTIM OF THUGS

(Associated Press Leased Wire.) YAKIMA, Wash., June 11.—After punching the warehouse clock at 1 o'clock this morning, D. J. Wynkoop, former deputy marshal of Nome and night watchman of the Big Y. cold storage plant here, dropped from sight, leaving the back door to the warehouse open and all the lights on. A half eaten lunch adds strength to the belief of Yakima officers that Wynkoop was taken from the buildings though there were no signs of any struggle. Wynkoop had frequently spoken of difficulties of vagrants who wished to sleep in the warehouse.

"HYPNOTIC" STUNT ROTARY LUNCHEON

The program at today's meeting of the Rotary club was under the direction of the fellowship committee, Charley McElhinny and Foster Stinner putting over a "hypnotic" stunt that proved interesting and bewildering to the audience. As a prelude to their endeavor Ole Johnson made a short talk, and Jimmie Hutchings and Jimmie McClintock furnished the "cold deck" whereby Charley McElhinny and Foster Stinner made good.

Two birthdays were fittingly remembered by President Booth when he presented gifts to Joe Denn and Fred Chapman, both having birthdays falling in June. Each of the recipients were required to give a brief summary of his first endeavor to earn money and required to tell how he spent it. The meeting proved very interesting and enjoyable for all present.

SECURITY PACT NO LURE TO AMERICA

WASHINGTON, June 11.—The American government, through the medium of the state department, took occasion today to reiterate informally that it would not be a party to the proposed European security pact nor responsible for it in any way. The pronouncement was made to throw cold water on published reports that the United States might be asked to act as custodian of the commitments contained in the pact. It was said no such proposal had been made here and none was expected in view of the well known attitude of Washington.

U. S. GUNBOAT FIRED ON WHILE ON SUPPLY TRIP

(Continued from page 1.) tung wing of the attacking force. The Yunnanese leaders agree the Kwangtungies are competent to handle government affairs and the defending forces would be willing to support them. Public opinion favors the retention of the Yunnanese forces in charge of the government at Canton. The Associated Press correspondent was approached with a request today to interview Yang-Hai-Min of the attacking forces stationed at Shabo, six miles outside of the city. The interview will be held later.

Yang Hai-Min, Yunnanese commander, told The Associated Press correspondent today that Soviet Russia had offered the Yunnanese \$10,000,000 and 60,000 rifles with appropriate ammunition, provided a certain agreement was signed.

General Yang said the offer was refused. He did not say what the proposed agreement contained.

Fighting still continued today although a shortage of ammunition on both sides was reported. The site of the battle was unchanged despite the fact that the leaders of both Yunnanese, who hold the city, and the Cantonese, who are attacking the city from the island of Hamao, had expressed themselves as willing to remove the fighting to some point outside the urban limits.

The Yunnanese reported the arrest in Canton of four bolshevik Russians. The statement that the Yunnanese would not tolerate the principles of the bolshevik was added to the announcement. Heavy fighting resulted last night from an attempt of Yunnanese soldiers to remove a cargo of rice from the steamer wharf. A detachment of the Chinese Chamber of Commerce again applied to leaders on both sides today pleading for removal of the fighting outside of the city.

SHANGHAI, June 11.—About 1,500 Manchurian troops under General Chang Hsueh-Liang, son of General Chang Tso-Lin, Manchurian war lord, were today moving from Nanking to Shanghai, ostensibly to maintain order on the borders of the foreign settlement and to strengthen Chang Tso-Lin's grip on the Shanghai region.

The Chinese strike situation became acute on the river front here today when coastal steamers and plying the salines leaving this class of shipping virtually paralyzed. Twenty eight vessels are tied up for want of Chinese crews. In the business and residential districts, however, the strike situation continued to improve today, despite the desperate effort of agitators who were busy canvassing for the strike. The distribution of printed matter advocating the strike continued today.

Hope for the final termination of the strikes centered today upon the expected announcement of reopening of native banks and instructions from the Chamber of Commerce to its members to reopen business establishments.

PEKING, June 11.—The Chinese foreign office, in a note today to the foreign diplomatic corps, rejected the latter's argument that foreign police at Shanghai only acted defensively in firing upon Chinese demonstrators there recently. The foreign office note declared that the authorities of the foreign concessions at Shanghai should proceed at once to raise the state of alert existing there and should re-embark all foreign marines, disarm volunteers and police at Shanghai and liberate all prisoners. It also said all institutions that have been closed or occupied by foreign forces should be restored to their normal condition, so that order might be restored as soon as possible. This action, the note said, would facilitate the negotiations regarding the Shanghai situation which the Peking government desires to undertake.

The note declared it was impossible to admit that responsibility for the deplorable occurrences at Shanghai rested upon the Chinese demonstrators. The secretary of the Chinese Chamber of Commerce announced today that a committee of 21 had been appointed to assist in mediation between the municipal council and the official body of the strikers, known as the general union of education, labor and commerce. The chamber was most anxious, he said, for an early settlement as Chinese business was hard hit. The chamber is receiving many thousands of dollars from Peking, Tientsin, the South Sea Islands and Mexico to assist in feeding the idle workers.

Chinese students charged with being involved in recent disturbances here were today ordered by the mixed courts at the conclusion of their trial to furnish bonds guaranteeing their good behavior. The note declared the measures taken by foreign police to break up a "peaceable demonstration" at Shanghai, were in the first instance ill advised and that police at the Tientsin station, where Chinese demonstrators assembled May 29, fired upon the crowd without "necessary warning" and began the police were in "imminent danger."

The note requested the foreign consulates to communicate present instructions to consular authorities at Shanghai to not interfere with the foreign office suggestions above outlined.

WASHINGTON, June 11.—Consul-General Cunningham resorted to the state department today that there was "no cause for alarm for the safety of American lives and concerns" at present in the Shanghai region. There had been "great improvement" in general conditions, he said, although the strike was "not subsiding perceptibly."

ply to the Peking government's demand for withdrawal of foreign landing parties at Shanghai is expected here to await a report from the commission of investigation to Shanghai by the Peking diplomatic corps.

The note relates to what happened at Shanghai on May 30 when the present trouble there began. Edwin S. Cunningham, American consul-general there, reported that in order to fire was given the police after the demonstrating students had become "a threatening mob, assaulting two foreign police constables and threatening the lives of foreigners."

So far as known the Washington government has received nothing official which challenges the accuracy of this report.

The action of the command of the American gunboat Pampanga in returning promptly the fire directed at his vessel while he escorted a launch is in line with the policy the Washington government has directed its officers to follow in similar cases in Chinese ports and rivers during the several years of continuously disturbed conditions in China. It has been made plain that such firing would draw the immediate return fire of American craft regardless of what faction of Chinese might be involved.

In view of the fact that no casualties were reported in the Pampanga incident, and the difficulty in fixing responsibility for the attack, the exchange of fire is not expected here to lead to any serious international consequences.

The consul said that the committee in Shanghai in charge of food control, said the supply was ample. He reported that Admiral MacVey, commanding the American forces and the senior naval officer in the Shanghai region, had informed him that local civic authorities and military in the river ports had the situation under control and gave ample assurances of protection for foreigners. This had made

the landing of naval guards unnecessary except in isolated cases and practically all of these had already been withdrawn.

The Shanghai strike has extended to British and Japanese coast and river steamers, but the consul-general pointed out that it was not as serious a situation as would otherwise have been caused in view of the fact that there was no freight available for the vessels at Shanghai.

AL SMITH TO TAKE EDITORIAL JOB IS UNVERIFIED TALE

SYRACUSE, N. Y., June 11.—Governor Alfred E. Smith will refuse to run for governor or United States Senator and retire from politics at the end of his present term, according to an Albany dispatch published by the Syracuse Herald today.

The Herald says it is understood that the governor has received and will accept an offer of \$50,000 a year from the New York World to write on political and humanitarian topics. According to the Herald's story, the governor has informed his closest friends that he is determined to get out of politics at the end of his present term and recoup his fortune which is said to have dwindled greatly.

ALBANY, N. Y., June 11.—Governor Smith today, through his secretary, said he knew nothing about a reported agreement between himself and the New York World, whereby he would accept an offer of \$50,000 a year to write for that publication. He refused to comment on the report.
