(Associated Press Leased Wire.)

WASHINGTON, June 11.—President Coolidge has suggested to the shipping board that it delegate completely to the fleet corporation the authority for negotiating sales of ships and lines, reserving to itself final approval or rejection of contracts.

While no action has been taken by the board, indications are that when Chairman O'Connor returns next week from a trip to Florida, the board has been sharply divided in considering many sales, the most recent case being on June 5, the day the president wrote his letter when it rejected proposals for the sale of freight ships and lines in the North Atlantic.

The prosecutor did not have regard for the pre-statement objections of the defense and detailed the manner of Mrs. McClintock's death. He said Mrs. McClintock was elated when he heard the news and remarked that he would "come out of it with his pockets filled."

Crowe said Shepherd had drawn up a will for Mrs. McClintock, but did not know that shortly before she died she had made a new will. Shepherd was referred to as a police court hanger-on at Indianapolis where Crowe said, he practiced without a license.

The prosecutor detailed the associations of the Shepherds with Mrs. McClintock after she obtained the \$1,000,000 estate from her husband, saying the friendship between Mrs. McClintock and Mrs. Shepherd dated back to school days in Kansas. After the Shepherds came to Chicago for a visit, which lengthened to a life time, the prosecutor, Shepherd planned and schemed to obtain her fortune.

The mind of the McClintock boy was poisoned against Alexander Reichmann, made co-guardian with Mrs. Shepherd under Mrs. McClintock's will, said Crowe, as part of the Shepherd plan to obtain domination over the child and retain it until he was 21 and then force him to make a will in Shepherd's favor. A plan that worked out as formulated.

"Unethical," was the prosecutor's term for Shepherd in having drawn up the will of his foster son. He also termed it of doubtful value. Crowe referred to the intended marriage of young McClintock and Miss Pope as an obstacle to the Shepherd plan which had to be removed so that the Shepherd plan of 17 years could attain fruition.

"If Billy had married and gotten into different environment, the will Shepherd had drawn up on the day the boy became 21 would have been null and void," said Crowe. The allegation that Shepherd then took up seriously the study of bacteriology was Crowe's next accusation, followed by the detail of the youth's final illness. The prosecutor pounded the railing about the jury box and his voice rose.

Shepherd, white with prison pallor, seemed paler but once he turned and smiled at Mrs. Shepherd. The prosecutor ended his opening statement in one hour, concluding with a discussion of young McClintock's last illness after he said Shepherd had learned at the National University of Sciences how to slay the youth and had obtained the necessary germs from Charles C. Falman for a promise of \$100,000 from the McClintock estate.

Defense Counsel Stewart sought to have Judge Lynch instruct the jury to disregard Mr. Crowe's remarks identifying Shepherd as an Indianapolis police court shyster, both Shepherds as panhandlers, a reference to Shepherd as following "like Mary's little lamb," and accusing the defendant of lying, but the court ruled Stewart should have made his objections at the time of the utterances. The defense asked the exceptions to the ruling and language be noted.

It was the subject of lobby comment that Prosecutor Crowe had refrained from asking the death penalty although the state battled three weeks to obtain a jury willing to inflict the death penalty "in a proper case."

"I ask you to return such a verdict as the evidence may warrant," said the state's attorney.

are arranged through either the fleet corporation or the ship sales committee are required to go to the board for final approval.

If the board delegates its authority as suggested before the end of the month, it is expected that the sale of two hundred ships already authorized for scrapping will be conducted by the fleet corporation.

This sale is expected to bring into the market Henry Ford, Chairman O'Connor, on his own initiative, recently visited Mr. Ford and discussed not only the possibility of sale of ships for scrapping, but for operation. Under the change suggested, such activities by individual board members would no longer be possible.

DEFENSE LOSES VITAL POINT IN SHEPHERD CASE

"panhandlers," who had lived off Mrs. McClintock for years before her mysterious death and since had lived off her estate.

Shepherd, the prosecutor described as a man who never had earned more than \$15 a week.

An extensive study of chemistry was ascribed to the defendant by the prosecutor who referred to study in the Indianapolis, Ind., high school, a western drug store owned by Mrs. Shepherd's father and in a private laboratory hidden in a secret closet at the McClintock home in Kenilworth, a North Shore suburb of Chicago.

The prosecutor did not have regard for the pre-statement objections of the defense and detailed the manner of Mrs. McClintock's death. He said Mrs. McClintock was elated when he heard the news and remarked that he would "come out of it with his pockets filled."
