BOARD REGENTS MAKES CHANGES IN U. OF O. STAFF

Recent Demotions Discussed by Board in Meeting Held Yesterday.

HOLD CLOSED SESSION

Newspapermen Barred From Session—Meeting With Faculty Committee Is Refused.

EUGENE, Ore., June 16.—Several changes in the faculty personnel of the University of Oregon were made by the board of regents of the institution meeting here late yesterday afternoon, in open session and then the regents went into another executive session, to discuss recent demotions brought about at their last meeting.

Newspapermen present at the meeting were barred from the room, when Dr. James H. Gilbert, representing the faculty committee of the University in the matter of re-opening the demotion cases, asked that a committee of the board of regents meet the faculty committee. This the board refused, on the grounds that the matter must be settled so that arrangements may be made in the faculty before the opening of the fall term. The faculty committee was not ready to meet the board yesterday, it was said.

The cases referred to by Mr. Gilbert were those of Ferguson Reddie, head of the dramatics department, and members of his staff; Professor H. C. Howe, head of the English department, demoted to professorship at a reduction in salary; Timothy Cloran, demoted from head of the department of romance languages to professorship; dismissal of Professor Ernest Bates and Kirby Miller in the department of philosophy.

It was stated after the meeting by Dr. Gilbert that the faculty committee would meet again to decide on its next step.

When the matter of executive session was brought up, a motion was made by Mr. George T. Geringer of Portland that all newspapermen be barred. There was no second to the motion, as Governor Pierce, Superintendent Churehill and Sam Koser, secretary of state, declared that the meeting should be open. It was finally agreed to go into executive session when matters of a confidential nature came up.

Dean H. Walker was appointed dean of men for a year, according to a report given out after the meeting. Mr. Walker is now student advisor and director of student loan funds. He will replace Dean John Strain, recently made dean emeritus of men.

No action was taken on electing new heads for the departments of English romance languages and zoology. Dean Colin V. Dymont was empowered to look for suitable men for the positions which were vacant, and to embark for Europe and to make recommendations to the board.

The salary of Karl Outback, secretary to the president, was increased. The plans of the associated students to issue a three-year bond issue of approximately \$500,000 to delay the cost of building new bleachers on Hayward field and a basketball pavilion, the principal and interest to come from the increased student fee of \$5 a term, was tentatively approved by the board. Approximately \$40,000 yearly will go into student body coffers from the added fee which undergraduates approved in the spring. Graduate Manager Benefield told the board.

The following new appointments and other faculty changes were approved: J. Stanley Gray, now on the English staff of the University of Minnesota, to become assistant professor, with work in public speaking, debating and oratory; Robert B. Horn, instructor to fill the vacancy occasioned by the resignation of Oscar Brown, instructor in written and spoken English. Mr. Brown will enter the practice of law.

The status of Professor Mary Watson Barnes and Alton Hanson Ernst of the English faculty was changed from one-third to one-half time.

Gustave Muller, who holds the doctor of philosophy degree from the University of Berne, Switzerland, was appointed instructor in philosophy to succeed Kerby Miller, who was not re-elected.

Dr. Kimball Yonka, member of the psychology faculty, was transferred three-fourths time to the school of sociology. Authorization was made to fill the place of Dr. Raymond H. Wheeler, who resigned to become head of the department of psychology at the University of Kansas. Thomas D. Cuthbert, teaching fellow in psychology, becomes instructor in the department.

Dr. Harry B. Tyocum, assistant professor of zoology was promoted to associate professor and Oscar W. Richards, teaching fellow in the same department, becomes an instructor.

Dr. B. W. Debusk, professor of education, was granted leave of absence to organize a research bureau in the Portland public schools next year.

Raymond D. Lawrence, Oregon graduate and Portland news-

paper man, was elected instructor in the school of Journalism.

To fill vacancies, Dr. Fred M. Miller, La Fayette College and Dr. Wilson Stegeman, Rush Medical School, M. D., become, respectively, university physician and assistant university physician.

Ernestine Troemel, Wisconsin graduate, and Earl E. (Spike) Leslie, Oregon graduate and ex-athletic coach at the Eugene high school, become instructors of physical education to fill vacancies.

Professor James H. Gilbert, head of the department of economics and member of the faculty since 1907, was appointed by the board of regents today, acting dean of the college of literature, science and arts of the University to replace Dean Colin V. Dymont, who has received a leave of absence of one year.

Four members of the English department tendered resignations, which were accepted. Clarence D. Thorpe is leaving to accept a professorship at the University of Michigan and Oscar Brown has taken a position in Kansas. The other two instructors leaving are E. W. Merrill and Ralph Roeber.

GANG'S BUSINESS IS DISCLOSED BY WELL-KEPT BOOKS

CHICAGO, June 16.—Six leather-bound books which, according to the police, form a complete revelation of the operations of one of Chicago's largest liquor rings, have come in possession of authorities through the drive on the city's gangsters.

In a raid in the headquarters of the Genesee brothers, one of whom Mike Genesee was slain in Saturday's street fight between gang members and the police, the police found the records of liquor receipts and shipments, names of shippers and the prices received and the prices paid for the ring's products. There were even receipts for gas bills paid, one revealing that some "cookers" of mash used as much as \$100 worth of gas a month.

The papers also revealed, authorities said, the identity of a fourth person connected with the gang who participated in Saturday's fight.

State's Attorney Crowe characterized the documents as enough ammunition to send to the penitentiary or drive one of the city's every one of the Genesee gang, from the four Genesees who are left, down to their lowliest imported distiller or shotgun man.

Howard Eby, head of the immigration bureau in Chicago, disclosed that Mike Genesee had been considered last week in connection with the activities of Vincenzo Azzarello, a Genesee agent arrested in Tampa, Fla.

Azzarello was said to have seven immigrants with him, believed to have been smuggled into the country by way of the Bermudas. Eby said the Genesees were importing men from southern Italy and Sicily, "delivered in Chicago for \$500 a head."

NATRON TUNNEL EXPECTED OPEN FRIDAY, REPORT

(Associated Press Local Wire.)

BEND, Ore., June 16.—Daylight is expected to be seen through the tunnel on the Natron cut-off, sometime Friday, according to telephone reports from Stewart and Welch, contractors in charge of the workmen by and for the workers will be held at each end of the tunnel Sunday.

The tunnel, when daylight is cut through will be little more than big enough for workmen to get through, according to the reports to W. J. Perry, timber forester for the Deschutes National Forest, who returned this morning from several days at Odell Lake. He has been in charge of the timber being cut from the national forests for the tunnel timbers and tunnel "packing."

Six pumps are being run on the west side of the tunnel construction, pumping out the water. Since the tunnel grade is to the west, no pumps are needed on the east side and as soon as the tunnel is cut through the water from this side can be disposed of with less expense by gravity through the west entrance, according to information given out in Bend.

All the tunnel timbers and cord wood used are according to Perry, this included two and a half million feet of Douglas fir in the Deschutes National Forest used for timbering the tunnel and 1600 cords of hemlock half from the Deschutes and half from the Cascade National Forests. The timber sales were all handled through the Deschutes Forestry office in Bend.
