SETTLEMENT OF CHINA TROUBLE THOUGHT NEAR

Dispatches Indicate Basis of Discussion Has Been Reached.

POLICEMAN MOBBED

British Motorcycle Officer Is Beaten in Attempt to Disperse Crowd of Malcontents.

(Associated Press Leased Wire)

WASHINGTON, June 17.—Hopes of officials here that the Chinese strike situation would be smoothed out without harm to foreigners, have been heightened by dispatches from Shanghai that settlement of the trouble is near.

Word that envoys from the legations at Peking and Shanghai officials had reached a basis for discussion of a settlement plan, was welcomed here where concern has been manifested over the possibility that American lives would be endangered in the student activities.

Although a Peking dispatch reported plans for a special demonstration of students on June 26, it was hoped that no further serious developments would occur to more directly involve this government.

Another reassuring note was seen in an earlier report to the state department from Charge d'Affaires Mayer at Peking, who was visited by representatives of the striking student groups in Shanghai. They asked the Charge for American assistance in obtaining a just solution of their troubles and were assured by Mr. Mayer that all the powers concerned were seeking that end.

Reports of possible warfare for control of the Chinese government also continue to receive attention here. Chang Tse-Lin of Manchuria and Feng Yu-Hsiang, opposing leaders in North China, have quartered their troops in or near Peking and some observers predict that an open class may occur. General Chang has teamed toward the foreign interests which are being opposed by the striking students, while there are indications that General Feng is receiving assistance from Soviet Russia.

Washington interests in the Chi-

nese difficulties were advised last night by Chairman Borah of the senate foreign relations committee who declared in favor of withdrawal of "extra-territorial right in China, "as speedily as practicable" in a cabled reply to an American in troubled zone, Senator Borah warned that the United States was in no way responsible for the situation and he saw no reason why this government should be drawn into controversies of other powers or of China or its people.

SHANGHAI, June 17.—P. S. Gavin, a British citizen and a motorcycle policeman for the Shanghai international settlement, was mobbed by Chinese here tonight. He was seriously hurt, but his injuries are not believed fatal.

Gavin had just left the Harbin road sub-station, at the extreme northern boundary of the settlement, when he encountered a throng on the nearby East Kaashing road, which is within the settlement boundaries. The Chinese were being harangued by a student.

The motorcycle policeman interrupted the speaker and ordered the crowd to disperse. He was answered with threats. Gavin then ordered a Chinese constable to return to the police sub-station, only a short distance away and obtain help. When the men summoned by the constable arrived they found Gavin lying in the street, disarmed and his motorcycle gone. He was removed at once to a hospital where examination showed his skull fractured.

The Gavin incident occurred about six o'clock. Up to 11 o'clock tonight there had been no other disturbances.

CANTON, June 17.—The threatened general strike of all Chinese workers today was set definitely to begin June 26.

The situation today, both as regards anti-foreign agitation and troubles among different factions of the Chinese, was quiet, but the foreigners expected further trouble.

General Ngai Hong-Ping, one of the leaders in the present Canton government, was said to have retired from active participation in its affairs because of a disagreement with his associates over allotment of government posts. Proclamations were issued today forbidding gambling and trading in opium. The two occupations were observed as usual, despite the proclamations.

Members of the family declined to add to the announcement, but it was understood after a turn for the better he had taken to his bed again and had found considerable difficulty in breathing due to development of bronchial asthma.

The statement from his office said: "Senator La Follette's physician stated today that although his condition was somewhat more serious than before, he was more than holding his own and that there was every hope for his ultimate recovery."

SALEM, Ore., June 17.—Because he finds ambitious and complex the so-called "peddlers license law," enacted by the 1925 legislature, assessing a fee against "motor vehicle not common carriers," but "used for commercial purposes in the business of selling and delivering goods, wares, merchandise," etc., Secretary of State Kozer has asked Attorney-General Van Winkle for an interpretation of the act.

The law applies to vehicles operated "not exclusively within the boundaries of incorporated cities and towns of the state of Oregon or within five miles beyond the boundaries of such cities and towns."
