

NEW HORSES TO BE ENTERED IN OAKLAND RACES

Fast Contests Promised for Two Day Celebration on July 3-4

PURSES ARE LARGE

Excellent Prizes and Fast Track Are Drawing Interest of Prominent Horse Owners.

The racing program to be given in connection with the Fourth of July celebration at Oakland, July 3 and 4, will be the biggest held in Douglas County in recent years, it was reported today, following the arrival of a number of other outside horses. Approximately fifty horses will be entered in the various races of the two days, and some exceptionally fast animals will appear.

The large purses being offered in the different events, coupled with the fact that Oakland now has one of the fastest full half mile tracks in the northwest, is drawing the attention of great numbers of horse owners.

Practically all of the outside horses entered are from the Northwest circuit, being scheduled to appear at race meets and fairs throughout the Northwest until late fall. Some have been running at Tia Junina during the winter months. All are in fine condition, and have been working out at Oakland for several weeks.

Ray Murphy, prominent race horse owner of Ashland, brought in a string of fast horses this morning, and is working them out preparatory to the celebration races. These horses are off the circuit and have been chalking up some fast records during the past weeks. Cummings, Cacheta and Joe Knight, are others who have been working out their horses during the past few days, and it is promised that race fans will be shown some real turf contests and exhibitions.

In addition to the outside horses, there are a number of local animals to be entered. Some of the residents of Oakland and vicinity have been working out local favorites, and it is also promised that there will be some new horses on the track to give spectators some thrills.

Oakland is promising one of the best celebrations ever held in the county, and has made extensive preparations to handle a crowd which will doubtless be a record breaker. The event has been arranged by the Oakland Gobbler, the hospitality club of that city, and they have spared no expense to make it the biggest and best Oakland or Douglas County has ever known.

Camp cots and beds at Zigler-Poe Hdw. Co.

HOT WEATHER HAD GOOD EFFECT ON RIPENING CROPS

PORTLAND, July 1.—In general the hot weather of last week had a beneficial effect on ripening crops, the weekly report issued to-

NEED ASSURANCE OF FOOD SUPPLY

PASCO, Wash., July 1.—Need for assurance of a future food supply for the increasing population of the United States was emphasized by Dr. E. O. Holland, president of Washington State College, in an answer here today before the annual meeting of the Columbia Basin Irrigation League. While the tendency at present is away from increased agricultural production, Dr. Holland said, this condition is due to temporary causes that already are passing away.

"It would be unfortunate if the 1,880,000 acres of fertile soil under the Columbia Basin project were under cultivation today," he said. "It would be equally unfortunate for this vast tract of fertile land not to be available when the rapidly increasing population requires foodstuffs to enable it to meet its needs. It is recognized by everyone that much of the land placed under cultivation as a result of the demand for foodstuffs and the increased prices of foods during and immediately following the war will soon be abandoned and will be used again for pasture."

"It has been said that there is now nearly as much land being abandoned and going back either to the jungle forest or to pasture, as is yearly added by irrigation and drainage," Dr. Holland continued. "This means that poor lands are being exchanged for more profitable lands. In other words the farmers are abandoning worn out locations for better lands upon which to build their homes and raise their families. In the end, the most fertile soils in the country are the ones that will be cultivated continually, for they will be the most profitable."

DOG DEVELOPS A MEAN DISPOSITION
SWAMPSCOTT, Mass., July 1.—Paul Fry, President Coolidge's Airdale dog, has developed a mean disposition and Mr. Coolidge decided today he would make a better mascot for the Marines than a pet for the summer White House. He was turned over to Lieutenant Edgar Allen Poe.

YOUNG BANDIT FATALLY SHOT BY PATROLMAN

(Continued from page 1.)

ence section. Enroute he held up a policeman and took his gun from him. The youth then ran into a residence and hid in the bath room where he was captured shortly afterward by Patrolman Williams, who fired through the door at the fugitive.

Sheriff Thompson said Thomas had confessed but gave no reason for his attempt to rob the bank. Thomas has relatives living near Monmouth, Oregon. As he is not expected to live no charges have been preferred against him.

CARLTON JULY 1—Joyce Thompson, who was shot by Vancouver officers today during an attempted bank robbery, is the son of Mr. and Mrs. J. T. Thomason, farmers residing three quarters of a mile north of this place. His mother is in Portland today attending the convention of Oregon Pioneers.

The father had not heard of his son's trouble until advised by the Portland Telegram. He declared that his son had never been in trouble before and had always been a hard working lad. The youth had been employed in Portland for some time by Phillip Sutter, a horse dealer at the North Portland stockyards.

The father said his son was at home during the week end, leaving Monday morning for Portland.

VANCOUVER, Wash., July 1.—A masked, armed man about 25 years of age entered the United States National Bank here early today and after locking eight employees in a back room attempted without success to force Joseph Landstorf, cashier, to open the safe. Falling in his efforts to rob the bank the youth commandeered a high powered motor car and compelled its driver at the point of a gun to drive him from the city. He went north.

When James T. Geoghegan, an employe of the bank came to work about 8 a. m. he was confronted outside the door of the bank by the would-be robber. Geoghegan was ordered to let the man in, which he did. The bandit then locked the bank employe in a rear room. As seven other employes entered the bank they were ordered to the back room and locked in.

At 8:10 a. m. Joseph Landstorf, cashier, entered the bank and was ordered to open the safe. Landstorf told the intruder that the safe had a time lock and could not be opened until 9 o'clock. Then the youth ran from the bank and left town. Authorities have taken up the chase and are uncertain as to what may have happened to Ed Van Deyen, owner of the commandeered car.

In the excitement no adequate description of the fugitive was obtained other than that he appeared to be about 25 years of age.

WOODCRAFT NOT TO CONSOLIDATE

PORTLAND, July 1.—Neighbors of Woodcraft will not consolidate with the Woodmen of the World, the grand board of managers decided last night at the session of grand circle convention. An effort had been made to have the two bodies consolidated so that the male neighbors could not retain membership. Under the plan all men of Woodcraft would have become members of Woodmen of the World, re-establishing the business connection that existed prior to 1910, when the neighbors formed an independent order.

Grand officers and grand board of managers will be installed tonight and it is believed the sessions will close. Mrs. Minnie Hines has been re-elected as grand guarantor for another four years, and she will be surrounded by practically her old board.

TWENTY-EIGHT JUNE WEDDING LICENSES GRANTED BY CLERK

Dan Cupid failed to break any records during the month of June just past, according to the records in the office of County Clerk I. B. Riddle. Twenty-eight marriage licenses were issued during the month, which although two better than last year, is below the average of one each day, which was chalked up in several former years. It has been expected that there would be a greater number of licenses than usual, owing to the fact that the recent legislature amended the law so that licenses may be issued to any person who pass the medical examination, regardless of residence. Formerly licenses could be issued only in the county where the young lady was a resident.

VACATIONISTS ARE URGED TO WATCH RULE

SALEM, Ore., July 1.—State forester F. A. Elliott in a statement today calls the attention of vacationists, who expect to spend July 4 in the woods to the provisions of the forest laws which makes it unlawful to throw away any lighted material on any forest land, private road, public highway or railroad right of way within the state. The minimum fine is \$25.

Mr. Elliott also cautions campers about camp fires. Each year the protection forces have been called out during the observance of the fourth to fight fires caused through careless campers leaving their fires. A week of bad fire weather has just passed, leaving the forests in a dry and very inflammable condition.

TWO BANDITS GET AWAY WITH VALUABLE LOOT

CHICAGO, July 1.—Two robbers bound Fred J. Gottlieb, a jeweler, and two others in his sales room on the fourth floor of the Be public building in the heart of the central business district today and escaped with jewelry and bonds reported to be valued at \$150,000. The loot consisted principally of unset diamonds.

NEW ENGLAND ELECTS FIRST CONGRESSWOMAN

LOWELL, Mass., July 1.—New England has elected its first congresswoman, Mrs. Edith Nourse Rogers, republican, by a vote of more than 2 to 1, she receiving 23,354 votes in the fifth congressional district election to 9,251 for her democratic opponent, former governor and former representative Eugene N. Foss of Boston, once a candidate for the democratic presidential nomination.

Mrs. Rogers succeeds her husband, John Jacob Rogers, who died last March after making a distinguished record. She received a larger portion of the total vote than her husband did last November. Mrs. Rogers was born in Saco, Maine, 40 years ago, the daughter of Franklin Nourse, manufacturer and capitalist. She married John Jacob Rogers in 1907, helped him in his law practice and when he became a congressman, she herself ate the life of Washington as his helper.

It was Mrs. Rogers' war service that endeared her to her husband's constituency. She visited the sick and wounded soldiers and was appointed by President Harding to visit and inspect the soldiers' hospitals in this country and France. Mrs. Rogers is the sixth woman to be elected to congress.

COOK WITH GAS

FIRE UNDER CONTROL IN FREMONT FOREST.

BEND, Ore., July 1.—Yesterday's fire reported in the Fremont National Forest, eight miles from Fremont, was controlled by state fire fighters yesterday, according to reports of the Deschutes National Forest headquarters here. All of the eight fires here reported out or well under control.

UNDERWOOD NOT TO BE A CANDIDATE

BIRMINGHAM, Ala., July 1.—Senator Oscar W. Underwood will not be a candidate for re-election to the senate when his present term expires.

REORGANIZATION OF NATURALIZATION WORK

PORTLAND, July 1.—As a part of a country-wide reorganization of the naturalization service Portland has been made headquarters of a district comprising Oregon, Southwestern Washington, Southwestern Idaho and Northern California. V. W. Tomlinson, formerly head naturalization of examiner in the Portland office has been made director of the district.

RUSSIA SUFFERS FROM DEVASTATING FLOODS.

WARSAW, July 1.—Devastating floods have followed the worst rainy spell experienced in a generation in Galicia and Silesia. The Vistula and all mountain streams are out of their banks. Cracow is in danger. Some villages have been submerged and loss of life is feared. Fifteen children crossing a bridge over the Dnieper River near Nemopol were washed away and all perished.

OAKLAND MAN BURIED.

James Crouch, brother of S. B. Crouch, of this city, and prominent resident of Oakland, was buried today, death having resulted yesterday afternoon from a stroke of paralysis. Mr. Crouch has been in poor health for several years, having suffered three light strokes previously. He has been a lifelong resident of Oakland, where he was in business for a great many years.

SEEKS SEAT MADE VACANT BY LA FOLLETTE

EAU CLAIRE, Wis., July 1.—With the issuance of a statement that he would be a candidate for the senatorial seat left vacant by the death of Senator Robert M. La Follette, Roy P. Wilcox, of Eau Claire, president of the Wisconsin Bar Association stood today as the first person to announce he would contend for the seat.

Mr. Wilcox's statement declares: "A new deal in Wisconsin politics is demanded, which shall be in hearty accord with President Coolidge's program for reduced taxation and efficient constitutional government."

WAITERS TO WEALTHY BOYS TAKE A DAY OFF

NEW YORK, July 1.—Playing the part of the kings, presidents and millionaires whom they had served in past years, 25 old time waiters of the millionaire waiters' club, have climaxed their second annual outing with a \$30 a plate dinner.

Each started the day about noon yesterday with a perfumed bath. Each found a limousine with a chauffeur at the door and motored through Long Island, visiting exclusive country clubs. The dinner started with caviar, proceeded through eight courses and ended with \$1 cigars. They had as guests the "mayors" of central business and Grand streets and 100 other prominent east siders.

CRAWFORD FUNERAL TO BE HELD THURSDAY

The funeral of the late A. M. Crawford, former resident of Roseburg, and attorney-general of the state for three terms, will be held on Thursday morning at 10 o'clock from Finley's chapel in Portland. It is expected that several Roseburg people, friends and acquaintances of the deceased, will attend the services.

COLE-MOORE WEDDING

Dewey A. Cole a resident of Coles Valley, and Ella Belle Mohr, of Millwood, were quietly married on Saturday evening by Justice of the Peace George Jones. The wedding was performed at the magistrate's office and was attended by only the necessary witnesses. Mr. and Mrs. Cole will make their home near Empava, where the groom is engaged in farming.

Mexican Arrested

Eusebio Guinones, a Mexican laborer, was arrested today by Officer Vaughn, charged with being intoxicated. The Mexican apparently had been imbibing freely of canned beer, a can of the beer producing gelatine being found on his person, while a bottle of almost pure alcohol extracted from the mixture was also taken from him. No arraignment will be made until his condition improves and an interpreter can be found.

New Ford economy

—now made possible by this Eastern economy oil for Fords

MANY Ford owners complain of the cost of operating their cars. Frequent repairs, low gasoline and oil mileage, costly chatter, excess carbon—all these pile up expense and defeat economy.

Yet the car itself is not to blame. The Ford can be, should be in fact, the most economical of all cars to operate.

Correct lubrication is the most important factor in economical Ford operation. This is because the Ford has a unique lubricating system.

The special Ford system of lubrication

The engine and transmission of your Ford are combined in one housing. Both are lubricated by one oil—the same oil.

Ordinary motor oils are not designed to do both these jobs. They may lubricate the engine perfectly but fail as a lubricant for the transmission. This

failure results in jerky chatter—destructive vibration—when you start, stop and reverse your Ford.

You can now eliminate this costly transmission chatter, and, at the same time, lubricate your Ford engine perfectly by using Veedol Forzol. It gives these eight economies in operation.

The Eight Economies of Veedol Forzol

- 1—10 to 25% gasoline saving
- 2—10 to 25% saving in oil
- 3—10 to 25% less carbon
- 4—Eliminates costly chatter
- 5—Resists heat and friction
- 6—Increased ability to coast
- 7—Resists fuel dilution
- 8—Reduces repair bills

Drive around to the nearest dealer or authorized Ford Agent who sells Veedol Forzol. The orange and black Veedol Forzol signs are everywhere. Have the old oil drained from your crankcase and refill with Veedol Forzol. Be sure to ask for it by name.

TIDE WATER OIL SALES CORPORATION

SAN FRANCISCO 414 Brannan St.	LOS ANGELES 4842 Long Beach Ave.	OAKLAND 5701 Green St.

VEEDOL FORZOL

The Eastern Economy Oil for Fords

It costs less than 1 cent a quart to ship Veedol Forzol to the Pacific Coast. When you buy Veedol Forzol, you pay for quality—not freight.

Other makes of cars should use other Veedol oils. The Veedol Chart specifies the correct Veedol oil for your car. Ask your dealer.

MARKETS

PORTLAND, July 1.—Extreme hot weather a few days ago was almost disastrous to the soft fruit crop and the already short yield was further reduced. Now market prices are reflecting the moderate offerings and working lighter.

Today good strawberries are worth \$3 a crate wholesale and are very scarce at that level. They brought \$2.50 to \$2.75 on the early growers' market.

Lumpberries, usually plentiful this late in the season are in moderate supply and prices are holding around \$2 a crate.

Raspberries and blackberries are also showing a good steady market with prices ranging from \$2.50 to \$2.75 in the former and \$2.25 on the latter.

There is an easier tone in the local egg market with extras and firsts posted a cent lower on the exchange at 25 and 24 cents respectively. Other grades are unchanged.

Cube extras are a half cent lower in the local butter market, at 45 cents on the exchange. All other grades held steady but the undertone of the market is not so strong. Cream receipts are still short.

No change is shown in country dressed meats. Veal receipts were liberal along the street today but

prices were maintained at 12 1/2 to 13 cents for tops. Choices light steady.

Old ducks and light springs are dragging in the local poultry market.

Cantaloupe market continues an extreme affair with brokers holding the meager arrivals strong at 19 cents.

Mr. and Mrs. Alva Walker, and Miss Hartman, of Sutherlin, were early visitors in Roseburg this morning, motoring over while it was cool to do their shopping.

Mrs. Nancy K. Lawrence, of Riddle, spent the morning in Roseburg shopping.
