- Ice Cream Pudding Tea Coffee Milk

Regular 25c Dinner, known from Coast to Coast, served as Usual.

We inspect, kill and age all our beef in our own storage plant.

PARHAPS YOU'RE TWINS SAYS PROF.

CHICAGO, July 3.—If one feels cordial one minute and grouchy the next, he is twins, says Professor H. K. Newman, University of Chicago zoologist.

Most persons are alternative Dr. Jekylls and Mr. Hyde-twins that have been combined in the process of development, but who still retain separate nervous systems, he believes.

Identical twins, or those that look exactly alike, coming from the same cell, are really right and left hand components of a single individual, Professor Newman points out.

"In one third of the cases of twins that have been under scientific observation, one of the twins has been right handed and the other left handed," he continues. "The fact that some of you are left-handed and that others part your hair on the right side may indicate that you are one of a set of twins, the other of which had died before you were born. The normal individual is he who has been joined together successfully."

"Twining is a pathological and not a normal condition. We think that it occurs when embryonic development has been arrested in some way. The whole question of twins sheds new light on the controversy between heredity and environment and shows up beyond doubt that the heredity factor is the most important one."

Cook with gas.

SECTION OF TOWN THREATENED BY FIRE

The entire southeast end of town was threatened with destruction yesterday when a grass fire swept over the hill on the edge of town. The fire started in tall grass, and fanned by a stiff wind, burned up to the edge of the city, where a number of the members of the fire department, a crowd of the residents and a group of Boy Scouts engaged in a hard battle, finally turning the flames back away from the city.

Besides the fire department, valuable work was done by a group of Boy Scouts, including Lindon Hoff-

Hall's Catarrh Medicine

is a Combined Treatment, both local and internal, and has been successful in the treatment of Catarrh for over forty years. Sold by all druggists. F. J. CHENEY & CO., Toledo, Ohio

MOVIE MEN TO COVER DEDICATION OF COPCO UNIT 2.

Word has just been received from Portland that the Oregonian will send a camera man to cover the big Copco 2 dedication, which takes place at Copco, California on next Sunday. This will mean that two separate motion pictures will be taken of this new power development arrangement having already been made by The California Oregon Power Company to take a special film of the event. It is expected that much favorable publicity for South-west Oregon and New York California will result from the extensive showing of these films. One particular item which will no doubt attract great interest throughout the country, is the large steel pipe in the works 16 feet in diameter and over 1000 feet long which connects the two tunnels.

ARTISANS INITIATE CLASS AND INSTALL THE NEW OFFICERS

Unopposed Assembly, United Artisans, held a very enjoyable evening, July 2. A large class was initiated into the mysteries of Artisan-ship, after which the newly elected officers were installed. The officers are: Past Master, Artisan Helen Whitaker; Master, Artisan, Max Pingle; Superintendent, Inez Clark; Inspector, Henry Snyder; Senior Conductor, Mabel Maxwell; Junior Conductor, Peter Pingle; Master of Ceremonies, H. Carnes; Warden, Mrs. Carnes; Instructor, Myrtle Boddy; Secretary, Belle Stephenson and Treasurer, Mildred McClelland. The officers were installed by Past Master Artisan, O. A. Hatten of Oregon Assembly No. 1, of Portland. Under the heading of good of the order, District Manager Frank McFarland gave an interesting talk and commended the local assembly for their splendid progress in the past few months, and reminded them that they were assisting their friends to become affiliated with one of the few fraternal societies writing legal reserve insurance. The local assembly will blossom forth in the very near future with a young ladies drill team that will participate in the Artisan events that will be held at various points in the state this winter. One of the pleasant surprises at the meeting Thursday evening was the beautiful decoration of the hall by some of the loyal lady Artisans. The evening was concluded by refreshments, after which an enjoyable hour was spent in dancing.

MILLE LINGLEN VICTOR.

(Associated Press Special Wire.) WIMBLEDON, Engl., July 2.—Miss Suzanne Linglen, of France, won her sixth Wimbledon women's tennis championship today, defeating the English girl champion, Joan Fry, 6-2, 6-0, in the finals of the all-England tournament.

The claim was made by some parties that the fire was started by Thomas Kearney, a boy scout, but out of fairness to the boy it has been requested that it be stated that he was not in that vicinity at the time, being at the river between the swinging bridge and Mosher street at the time the fire started.

WHITE PINE BLISTER RUST TO BE FOUGHT.

SALEM, Ore., July 2.—L. N. Gooding, assistant pathologist, of Corvallis, which is in charge of the white pine blister rust campaign in Oregon, accompanied by K. McClelland and A. Grassyvsky, of Berkeley, Cal., are in Salem today securing information from the state foresters office relative to the extent, ownership and location of the white pine stand in Polk county near Black Rock. The three men expect to go into the Black Rock country Monday and establish camp in the vicinity of the white pine stand. They will be engaged in making an intensive reconnaissance of two sections of the best white pine stand in that territory in order to determine the amount and location of ribes, a dangerous host plant of the blister rust.

WOODS HERE FOR MATCH WITH LOCAL GRAPPLER JULY 4

Looking 100 per cent fit from the tip of his cauliflower ears to his shoes, "Sailor Jack" Woods, 175-pound bonerusher, who grapples with Paul Amort at Oakland tomorrow night, registered at the Grand Hotel today and later favored the local ring fans with a gentlemanly modified sample of the grip with which he expects to wrest victory from the local 160-pounder.

COMBINATION TEAM WINS SHUT-OUT GAME.

The Baptist-De Molay team of the Twilight League, won a shut-out game against the Odd Fellows last night, the score being 3 to 0. Two old baseball veterans, "Jack" Miller, catcher and Ted Athanas, pitcher, were the mainstay of the team to their victory. The first five innings were very close, the score being 2 to 0. Nichols and shortstop Finley on record, were nailing everything hit to the infield, and made some sensational plays. Several doubles featured the game. Not one of the runners on the lodge team reached third base during the entire game. Although Mathews, the De Molay pitcher, obtained only a few strike-outs, the heavy-hitting Odd Fellows were unable to land safely, and the pitcher was given a tight support. Against the Odd Fellows twirler, weakened in the fifth, and was hit hard, several runs helped scored. The combination team added to their score in the 6th and in the final frame Toole relieved August, but the boys gathered one more run.

JOHN SAWYERS OF SCOTTSBURG DIES AT DAUGHTER'S HOME

Jacob Anderson Sawyers was born at Stevensville, Ohio, on July 27, 1847, and passed away at Coquille at the home of his daughter, Mrs. Violet Herman, on June 28, 1925, aged 77 years, 11 months, 8 days. He had spent several years in crossing the plains with his parents, moving to Oregon by team. The family first settled at Lyons Prairie, near Scottsburg, later moving to the home place near Elkton. On Jan. 10, 1890, he was united in

marriage with Miss Lucy A. Goodner of Drain. To this union was born ten children, five boys and five girls. Those now living are Eliza L. Coe, Arizona; John H. Sawyers, Elkton; Mary E. Grubbe, Elkton; Alex H. Sawyers, Elkton; Isaac T. Sawyers, Allegheny and Violet Rosemond Coquille. Besides the wife and mother, and these sons and daughters, Mr. Sawyers leaves twenty grandchildren to mourn his death. The deceased was a member of the M. E. church at Elkton, and the I. O. O. F. lodge at Gardiner. Mr. Sawyers and family removed from near Elkton to Allegheny in 1902, where they spent four years, after which they went to Scottsburg, where the family home has since been maintained. Interment took place on June 30, at the Scottsburg cemetery.

to a Thoughtful man

What more practical gift could you give your wife than a shorter and easier washday? Such a gift is the Maytag Gyrofoam Washer. Not only is it a means to shorter washdays and spick-span washings, but it's the way to greater ease and more complete satisfaction with the world that's done. Because of its astonishing speed, 144-fashions thoroughness and unusual ease women have termed the Maytag "the Miracle of Monday." It washes twice as many garments per hour as other washers—so clean that even cuffs, collars and wristbands require no handrubbing—so careful that makers of dainty, filmy undergarments recommend it as superior to hand washing for such garments.

- No more practical gift could a thoughtful man choose—and she needs it more than you imagine. Get her a Maytag.
- 1 Washes faster.
 - 2 Washes clearer.
 - 3 Largest hourly capacity in the world.
 - 4 Most compact washer made—takes floor space only 25 inches square.
 - 5 Cast aluminum tub—can't warp, rot, swell, split or corrode.
 - 6 Easily adjusted to your height.
 - 7 Clothes can be put in or taken out with the washer running.
 - 8 Tub cleans itself.
 - 9 All metal wringer. Self adjusting. Instant tension release.
- 9 Outstanding Maytag Features.
- 9 Reasons for World Leadership.

Churchill Hardware Co.

The Winchester Store

In Today—Mr. and Mrs. W. E. Ott and family, of this city, will leave this evening by auto for Bandon to spend business affairs. He resides east of this city. Mrs. Ott will remain at the coast for a month.

Our Free Employment SERVICE

Is thorough and effective in its operation for our telegraph graduates. Telegraphy, as we teach it, leaves nothing out; every detail is given minute attention so that students graduating are well able to fill the positions we get for them. Classes are conducted at night only, so that all who wish may find time to take this course. The rates are reasonable and you may enroll any evening by calling or writing to,

EVERYBODY'S EXCHANGE

Its Efficiency Never Varies!

Improvements embodied in the General Petroleum Corporation's process of refining makes possible exceptionally close adherence to the scientifically-determined specifications by which GENERAL is made. But, in addition to the precision followed in refining, GENERAL is tested four times for your protection—first, before leaving the refinery; second, before being pumped into tank steamers; third, before being discharged at the Linnton Road plant in Portland, and, fourth, before being delivered to your dealer. GENERAL always is good. It never varies.

Remember: GENERAL Gasoline assures YOU—MAXIMUM MILEAGE CLEAN COMBUSTION FULL POWER EASY STARTING
