FARMERS HAVE GOOD OUTLOOK THIS YEAR

Good financial prospects for farmers this year are seen by the United States Department of Agriculture which says in its July report on the agricultural situation that "wheat strengthening livestock markets and fair feed crops, plus fair returns from wheat and cotton, farmers would come out of 1925 better than they have in most of the years since 1915."

Such can happen between now and the harvest of fall crops, it is pointed out, but "taken as a whole, still far from prosperous, America has had a very large part in the past decade, and is still caring for many thousands of their orphan children. These children are being taught farming and useful trades, and are graduated from the American schools as fast as they reach the age of 15 or 16, to become useful citizens and the backbone of the new Armenia."

The central fact in the present outlook is that while production will be ample to meet consumption needs, agriculture will not be in the market this fall with any large surplus of the major products.

"Wheat harvest is in full swing," the report continues, "The grain ripened prematurely over much of the western part of the belt, and harvest is early. Thrashings so far have turned out unsatisfactory yields, but the grain is of fairly good quality. It appears evident that the winter wheat crop is decidedly short of last year's crop; so much so that the chief concern throughout the wheat growing world is how the shrinkage in this country will balance up against better crops abroad. The spring wheat region from Minnesota to Montana has high hopes in spite of some local floods in the east and minor setbacks elsewhere."

"The outlook in the corn belt is apparently good. Hogs are relatively high priced and show a decline of 11 per cent in the number of spring pigs compared to last year. Corn prices are not so high as to prohibit feeding, and every thing points to a profitable feeding season ahead. It is in price conditions like this year, when price ratios furnish a stimulus to feeding, that the corn belt can usually hope for some degree of prosperity."

The department's price index of 30 farm products is placed at 147 for June compared with 146 in May, the five-year period 1909-14 being used as a base of 100. Present tendencies in the general business situation point to little change in prices of non-agricultural commodities, and consequently no marked change in the purchasing power of farm products need be expected for June. The farm purchasing power figure for May has been 99, the same as in April.

ELKS MEET TONIGHT TO ARRANGE ATTENDANCE PORTLAND CONVENTION

A meeting of the Elks Lodge will be held tonight for the special purpose of arranging for the city's representation at the national convention to be held July 12 to 18. It is hoped that Roseburg will be well represented, and the members of the lodge expect to make a good showing. The lodge members have secured new uniforms and are planning on taking the American Legion drum corps as an added advertisement. It has not yet been definitely decided whether or not the drum corps can be obtained for the trip and final arrangements in this regard will be made tonight.

ARMENIANS ARE FAST RECOVERING FROM WAR WRECK

NEW YORK, July 9.—That America is ruled by a czar, is the firm belief of the natives of Georgia, a young Russian state on the Black Sea, according to Carl L. Rankin, a young American engineer, who has just returned from two years spent in the Russian Caucasus as a member of the American Near East relief organization. "Many of the natives asked me

to tell them about the 'American czar,' Mr. Coolidge," said Rankin. "The idea that the United States had an autocratic government with a ruler possessing all the powers of an Oriental despot, had been firmly implanted in their minds by propagandists."

"When I explained something about our governmental system, they were astonished, asserting that my story was unbelievable."

Mr. Rankin's principal work in the Near East was the restoration of ruined buildings that had been ravaged during the wars of the past 12 years. Most of his activities were in Armenia, which has been pillaged and looted 20 times in the past decade by contending armies of Turks, Kurds, or various Russian factions.

"The Armenians have now begun the restoration of their country," he explains. "But they are still far from prosperous. America has had a very large part in the past decade, and is still caring for many thousands of their orphan children. These children are being taught farming and useful trades, and are graduated from the American schools as fast as they reach the age of 15 or 16, to become useful citizens and the backbone of the new Armenia."

"Their country is at last in peace, and there are no signs of new outbreaks. There are great hopes of their developing an important textile industry, thanks to the introduction of American methods in the production of cotton. American aid in stock raising and agriculture has increased the product of these industries by more than 100 per cent. While nominally under Moscow, the Armenians have been granted a large degree of autonomy, their local government being conducted along republican lines. They have their own church, which is very influential, and the religious revival of the past two years in Armenia is having a wholesome effect on the life of the country."

W. B. STRAWN AND MARGRETTA MERRILL ARE WED IN EUGENE

A pretty, quiet wedding was performed at Eugene yesterday when William B. Strawn, manager of the J. C. Penney store, and Miss Margretta Merrill, daughter of Mr. and Mrs. C. Merrill of this city, were united in marriage. The ceremony took place at high noon at St. Mary's Episcopal church. The Rev. Frederick G. Jennings, pastor of the Eugene church, officiated. The wedding was attended only by Miss Catherine Merrill, sister of the bride, and Mr. E. H. Keimery of this city. The bride was attired in a beautiful, hand-embroidered silk gown, and wore a lavender eye hat and black beaded slippers. Immediately following the ceremony a delightful wedding dinner was enjoyed at the Hotel DeBour, after which Mr. and Mrs. Strawn left on an automobile tour to British Columbia.

Mr. Strawn is the manager and part owner of the J. C. Penney company store in this city, and also has an interest in two other of the company's chain stores. He has been in business in Roseburg for a number of years and is very well known in this city.

The bride is the charming daughter of Mr. and Mrs. C. Merrill and is a graduate of the class of 1914 of the Roseburg high school. She has been serving as cashier in the local Penney store for several years. Mr. and Mrs. Strawn will return to Roseburg in about two weeks to make their home here.

BABY BURNED BY ELECTRIC IRON CORD PLACED IN MOUTH

The small daughter of Mr. and Mrs. E. G. Thomas, of South Pine street, was fatally burned this morning, when she picked up an electric cord, attached to an iron, and stuck it in her mouth. The iron was thin, and the electricity inflamed the mouth.

The little girl, who is only a year and a half old, was playing on the floor. Her mother had been ironing with an electric iron, and the cord was hanging within the child's reach. The little youngster, childlike, took hold of the cord and put it in her mouth. The moisture broke down the thin insulation, and the electricity shot through into the baby's tongue, burning it deeply and most painfully. She was taken to the office of Dr. C. H. Wade, who treated the injuries and did everything possible to relieve the pain.

HEAD OF BRITISH AIR FORCE WOULD ABOLISH AERIAL WAR

OXFORD, England, July 9.—An attempt is being made to organize an Air Force Officer's Training Corps in Oxford, about the lines of the existing University O. T. C. There are several objections to be overcome, among them the university prohibition of flying by non-graduates. The anti-military spirit which characterized the under-graduates who had been through the World War is slowly passing away as a new generation comes into residence and the military training courses are becoming popular again.

Sir Hugh Trenchard, in a recent speech at Cambridge, intimated his hearers that there is no objection against air warfare, that it can also only be destroyed by the enemy without presenting the danger of carrying on a like program of destruction. If he had his way, he said, he would abolish air warfare. This admission from an officer so high in placed, has dampened the ardor of many aviation enthusiasts.

WOMEN BORN 1873 TO 1881

Now is the Critical Time. Lydia E. Pinkham's Vegetable Compound will Help You Safely Through

Convey, Ohio. "During the Change of life I was weak and run-down and could hardly do my work. By reading your advertisement I found out about Lydia E. Pinkham's Vegetable Compound. I bought a bottle and it has straightened me right out and made me feel like a new woman. By the time I had taken eight bottles I was well and without trouble. I recommended it to my daughter-in-law after her second baby was born and it did her a wonderful lot of good. I told her to try it and if it didn't help her I would pay for it, and before she had taken one bottle she said to me, 'You won't have to pay for it! It is helping me wonderfully!' And she took three bottles of it. You can use my testimony if you wish."—Mrs. ELIZABETH ANDERSON, Convey, Ohio.
