## CHARRED BODY OF GIRL FOUND UNDER BURNED STRAW

(Associated Press Local Wire.)  
WATERTOWN, S. D., July 14.—Hattie Healey, 17, Garden City, S. D., girl, whose charred body was found last night in a burned straw stack near that place was slain at her own request by William Meek, 21, and Robert Lappier, State's Attorney H. H. Hanson announced here today that Meek and Lappier told him, following their arrest yesterday that they met the girl in Garden City Sunday night and drove her into the country where she begged them to end her life. The alleged confession declared that Lappier struck Miss Healey over the head with a tire iron and that both youths then choked her with her scarf.  
Placing the body in a strawstack, the state's attorney said the alleged confession declared, the youths drove to Bradley to attend a motion picture show. Later, Hanson said, they returned and set fire to the strawstack to obliterate traces of the crime. Hanson said that he would prefer charges of murder in the first degree against Meek and Lappier.  
Hats off! To the News-Review classified columns. They are the starting point of many people's success and prosperity.

### ENDEAVORING TO QUIET TITLE LAND

A number of suits have been filed in the circuit court by The California Oregon Power Company in an effort to quiet title to several parcels of land. These suits are the outgrowth of a careful study of the deeds which the company purchased from the Douglas County Light and Water Company a short time ago. The title to the local power company has changed hands three times in recent years, and in the various changes a number of technical errors have crept into the deeds to right of way and other land holdings. These are being corrected by means of court proceedings. Attorneys Rice and O'Connell are representing the company in its legal transactions.

HUNTER—To Mr. and Mrs. James C. Hunter, at their home, 326 West Oak street, Sunday, July 12, a girl.

### PSYCHOLOGIST AVERS LYING IS NEEDFUL TO CIVILIZATION

HONOLULU, July 14.—Falseness is an necessary to the maintenance of civilization, in the opinion of Dr. Herbert Goodard, psychologist of the University of Ohio as expressed in a talk recently before a large gathering at the Nuuanu Y. M. C. A.  
"People could not live together if the world adhered to the principle of 'the truth, the whole truth and nothing but the truth,' he added.

"We could not have a group of people, consequently no cities, towns or communities, if we told the truth all the time. We must tell lies. We have to be honest, but at times it is necessary for us to lie for the welfare of the community."
