Swim and Keep Well

During the hot weather what could be better than a cool plunge in the clean waters of our beautiful Umpqua? Take the whole family and learn to swim. It may save your life some time. Everyone ought to be able to swim a little—just enough to keep afloat would help in case of accident. We have nice clean dressing rooms and bathing suits, and towels for a nominal fee. Why go a long distance away when you have this wonderful place right at home. We will not be responsible for accidents, so if you cannot swim do not go in the deep water.

PETITIONS FOR RATE INCREASES TO BE CONSIDERED

(Associated Press Local Wire.)

WASHINGTON, July 14.—Taking cognizance of petitions of western railroads for rate increases, the Interstate Commerce Commission today ordered special inquiry into the agricultural and transportation situation in the west.

The hearings will begin at Chicago September 1, before Chairman Atchafson of the commission.

Petitions for increases were filed as briefs in answer to the commission's inquiry under the Hoch-Smith congressional resolution which directed a revision of the general rate structure if the commission found such a step necessary.

The commission declared it should first confer with the western districts for the reasons:

"To determine what products of agriculture including livestock are affected by depression.

"To determine whether any rates, fares or charges, either on particular classes or kinds of commodities are classes of traffic in particular sections or between particular localities in the western district or otherwise lawfully used or required to be increased and also to what extent in order to compensate for such rate reductions, if any, as may be found proper.

"To determine whether any rates, fares or charges may lawfully be authorized to be increased in order to effect such increases in the revenues of western carriers as may be found proper."

State commissions are cooperating in the inquiry, but the public invited representatives of all other interests to participate. Carriers were notified to be ready to go on at the first hearing submitting their statistics of operations, showing earnings and traffic since 1923.

See Pat for building, repairing and moving houses. Also have some fine property for sale. Phone 57-V.

OREGON GRAIN CROP HARD HIT BY JUNE WEATHER

All Oregon spring planted grain crops suffered from weather conditions during June, says F. L. Kent, statistician, United States Department of Agriculture.

The fore part of the month was cool, with considerable rain, which put the crops in poor condition to withstand the heat of the latter part of the month. All June heat records of the Portland weather bureau were broken on June 25, when the mercury reached 101 at Portland, with correspondingly high temperatures all over the state, reaching 101 and 102 at some points.

Wheat: The large acreage of spring wheat due to the severe winter killing of the fall seeding, gave promise a month ago, of a yield nearly equal to a normal yield of winter wheat. But the dry weather began to affect the crop in some localities, as early as the first of June. A letter from E. E. Stephens, of the Sherman county experiment station, under date of July 8th reads in part as follows:

"In Sherman county we had a fine prospect for a big crop about the middle of June. After the hot spell from the 13th to the 27th our crops did not look so good, and the continued dry weather has materially reduced our prospective yield. Much of the wheat on the shallower soils will make nothing and the damage in some localities on deeper soils has been quite material. It is difficult to exactly determine the extent of damage, but I think it is greater than most farmers realize. Fields that look good from a distance, when examined closely show that the grain will be badly shrunken and the yield probably low. There is lots of fairly good wheat in the county, however, and we shall have lots more wheat than we had last year. I think our average yield will be about two bushels higher than our average spring wheat yield, or in the neighborhood of 18 or 17 bushels per acre. In the southern end

Not Temporary Relief—But CURE

PILES or other Rectal or Colon ailments should not be experimented with. They should and can be permanently CURED by my non-surgical method.

Send today for my FREE BOOK containing scores of voluntary testimonials from patients, some of whom had suffered 25 years and had tried every kind of drug and treatment. Read it and you will better understand why I can give a Written Guarantee to CURE your Piles or return your fee.

HEAT WAVE TAKES MANY LIVES; SNOW FALLS IN VIRGINIA

(Associated Press Local Wire.)

CHICAGO, July 14.—While many areas of the country continued to suffer under a tenacious heat wave, the weather man varied his offerings yesterday in a rather surprising manner with a short fall of snow at Blacksburg, Va. The white showers followed a thunderstorm and lasted five minutes.

The weather freak brought no comfort, however, to the parched summerlands of the middle-west and the Rocky Mountain region where thermometers were apparently unable to overstep the century mark. Phoenix, Ariz., a veteran in temperature climbing again led the country yesterday, 112 against 104 for North Platte, Neb., the mid-western high point. Temperatures ranging from 90 to 100 were noted throughout the humid area.

The death toll continued to mount, 14 additional fatalities from heat being reported. In addition, five persons were killed, by lightning and three were drowned. Twenty or more were prostrated.

Storms brought some respite around Omaha and Sioux City. The corn crop in Kansas was badly hit and forest fires were causing apprehension in Oregon.

Heat with gas.

FUNERAL FANNIE COBB-KNIGHT TO BE HELD WEDNESDAY

The funeral of the late Mrs. A. R. Knight, formerly Fannie Cobb, will be held in Roseburg tomorrow morning. The body will be brought here on the morning train, and the funeral will be conducted by the Roseburg Undertaking company at the M. E. Church, South. Rev. Stewart O'Dell officiating. Interment will follow in the Masonic cemetery. Mrs. Knight spent practically all of her life here before her marriage, after which she has been residing in Portland. She was a sister of W. L. and T. C. Cobb of this city, and also of Mrs. L. A. Dillard.

Heat with gas.

REVALUATION OF FRANC TO PROVE COSTLY TO FRENCH

PARIS, July 14.—The holders of French government and city bonds and other French obligations payable in paper will contribute, in addition to the taxes they pay, something between 50,000,000,000 and 100,000,000,000 francs to the financial settlement of the franc. The franc is stabilized and revalorized as now contemplated by the minister of finance at a rate somewhere between 25 and 40 percent of the gold value. This will be the permanent shrinkage in the purchasing value of the paper franc from what it will be no appeal.

The present, servant, clerk, retired merchant, retired officer whose savings are, as a rule, invested in government securities will be no worse off than they are today, but their loan will be devalued.

M. Caillaux refuses to fix any specific rate at which he hopes to stabilize the franc, but the "average Frenchman" has finally become convinced that the Minister's warning to the French people that "the hour of financial penance is at hand" is fraught with dire consequences to their pockets about 60,000,000,000 francs; that is to say, the purchasing power of the franc being reduced to a fourth of its face value, the income from the bonds would suffer a permanent depreciation of 75 percent. All the information obtainable in official circles, however, indicates that the revalorization of the franc will be undertaken only after a serious effort has been made to improve its exchange value to approximately 50 to the pound and 14 to the dollar. These rates are recognized in French financial and economic circles as representing the real value of the paper franc. In that case the 277,000,000,000 francs of government obligations would be worth \$2,900,000,000 francs gold.

The net shrinkage with a franc at 14 to the dollar would be 185 billion; at 20 to the dollar, it would be 214 billion, on the face value of the bonds. The franc was already depreciated, however, when the most of these bonds were subscribed. It has been estimated that the subscribers put up the equivalent of 60 centimes gold or 60 per cent of the face value so that the real shrinkage, compared with the value when purchased, would be around 60,000,000,000 francs in one case and 86,000,000,000 in the other.

In the most favorable hypothesis the present, servant, retired officer or clerk will contribute to payment for the war twenty times more than has been received from Germany on reparations account and thirty times more than the "average Frenchman" expects Germany will ever pay.

The principal victims of the revalorization are awaiting their fate with the resignation of the helpless. The penants, who are generally supposed to be the wealthiest lenders in such an operation, and who thus far have paid little in the way of direct taxes, are guaranteed in a way by the readjustment of prices.

OFFICERS BROKE UP CRAP GAME BUT PLAYERS GOT AWAY

Chief of Police Ketch and Officers Vaughn last night interrupted a very interesting crap game which was in progress in the alleyway in the rear of the Crown paid hotel. The two officers slipped into the game and were in the center of the ring before the followers of the "mystic tubes" realized the presence of the representatives of the law. As the officers sniped the "galloping dominoes" and the "shuffled cards" and by the time the evidence had been noticed the participants had reached side hiding on an arcade way north. The officers obtained \$100 and \$50 in money as a result of the raid.

Beeswell Hotel for good eats.

WAITRESSES BATTLE

Constitutional questions presented in a local restaurant last night when two waitresses decided in their own minds that they would rather work for a man than for a woman. After washing a pair of dishes and damaging fixtures, the two combatants were pulled apart by spectators, considerably the worse for wear and wet.

BOARD OF CONTROL VOTES GUARANTEE TO STATE FARMERS

SALEM, Ore., July 14.—The state board of control yesterday voted to guarantee to farmers in the flooded area of eastern and central Oregon harvest expenses not to exceed \$2.50 an acre. The money probably will be advanced

by the banks of the respective communities. The state, to repayment, will demand that it receive communities. The state, to insure repayment, will demand that it receive preferred consideration for its claims covering the loans. Indications are, according to the board, that the farmers will repay every dollar of the loans previously made for the purchase of seed wheat under the relief act of the 1925 legislature.

EUGENE ACCEPTED BY STATE ELKS FOR CONVENTION

(Associated Press Local Wire.)

PORTLAND, July 14.—The Oregon state association of Elks in session here yesterday accepted the invitation of the Rev. Frederick J. Jennings to hold the 1926 convention in Eugene.

E. M. Page, was elected president of the association without opposition. Other officers elected were: David Kuratli, of Tillamook, first vice president; Connie Grabb of Baker, second vice president; William Briggs of Ashland, third vice president; Herbert Bosterad of Marshfield, treasurer; the Rev. Frederick J. Jennings, of Eugene, chaplain; Gilbert Hedges of Oregon City, R. Alexander of Pendleton, and William Liljeqvist of McMinnville, trustees. Frank D. Cohan of Portland, was re-appointed executive secretary.
