but the last few miles are less fun!

A glorious day's outing—but when the car turns for home all the fun is gone for one of the family.

There's dinner to get for a late and hungry crowd. And the stove, of course, is cold!

Kindling and fuel to bring in. Never mind the floor now—it'll have to be swept later. So many things to be done, and the fire to be watched!

In eighteen hundred other homes near at hand, there isn't any kitchen-fire problem today—or any day. Electric ranges are in these homes. A cooking heat is ready at the turn of a hand.

Economical, clean, convenient and more efficient, electrical cooking is the choice of every housewife. And if it is only a matter of time, why not now? A wide selection of models to fit any kitchen, and terms to meet your wishes, at the nearest dealer's.

SENATOR BORAH TALKS AGAINST A WORLD COURT

Plays Attempt to Establish Judicial Despotism Under League Cover.

SEES GRAVE DANGER

Believes in Court in General but Declares Present System Is Not a Safe One.

BOISE, Idaho, July 30.—A more ambitious and presumptuous effort to establish judicial despotism was never conceived than the international court operating under the league of nations, which America is being urged to join, Senator Borah told Boise laborers at a meeting at the labor temple here last night. The chairman of the foreign relations committee of the senate said he felt so strongly on the matter that "if I had to enter my resignation in the senate or vote for this court as it now stands, it wouldn't take me one minute to resign."

"I believe this court is dangerous. The men urging it are not telling you the truth about it. If they were I would leave it to the people for a vote without opening my mouth."

"I do not want thought that I am opposed to the world court in general. I have been advocating a court for several years. A world court could be created which would be safe for us to join, and which would help promote the cause of peace. I do intend to bring up changes in the present plan when it comes before the senate—I mean the plan of joining the league's court with the Harding-Hughes reservation. Labor feels that courts should not make their own laws. Some courts now establish principles of law out of the statutes. It is planned to create a court to render decisions while operating under law."

In the proposed court, you do not arrange the judges, you cannot recall them; you cannot appeal from their decisions. This is practically judicial despotism. Here would be eleven men, the judicial body of the world, who may render decisions with no law to govern them. A more ambitious and presumptuous effort to establish judicial despotism was never conceived."

SHEEP TO BE SHIPPED FROM MYRTLE POINT TODAY

George Ward and E. F. Roner, accompanied by Frank Nelson, of the Nelson Meat Company of San Jose, California, left this afternoon for Myrtle Point and Powers, where they will ship out 1500 lambs. The two local sheep buyers have been buying lambs in Coos and Curry counties for several weeks, and have collected the animals at the two points for shipment, and have sold them all to Mr. Nelson. Six double-deck cars will be required for the shipment.
