## KLAMATH LABORER STABBED TO DEATH OVER A CARD GAME

(Associated Press Local Wire.)  
KLAMATH FALLS, Ore., Aug. 18.—Florentine Navarro, 25, employed in a railroad section crew, died in a local hospital this afternoon from knife wounds sustained in a shack at Altona early this morning.  
The fight is believed to have culminated in an all-night card game. An ambulance was rushed to Altona at 6:20 this morning. Navarro was found lying unconscious on the floor of the shack, which showed no other evidences of a fight. A deep and jagged knife wound extended from the lower part of his right shoulder down the length of his arm to below his elbow.  
Circumstances surrounding the fight and cutting affray are shrouded in mystery. Sheriff Hawkins admitted this afternoon that he had made no investigation of the murderous assault.  
"I don't intend to do anything unless somebody files a complaint," he said.  
A. J. Lytle, hospital manager, notified the sheriff of the stabbing affray as soon as he returned to the city with the stricken man. The sheriff admitted that he had been so notified but said it was not "official."  
So far as is known here as at Altona, the assailant has fled the country, as no effort is being made to learn his identity or to apprehend him.

**THEATRES**  
Liberty Theatre.  
For those who love animals and also enjoy good, clean photoplay entertainment, a special treat is in store today and tomorrow at the Liberty Theatre, when Thunder, the Marvel Dog, will be seen in his latest and greatest photoplay entitled "The Silent Pal." As the title implies the story is based on the never ending friendship of a faithful dog for his human master and friend. The action for the picture is laid in New York City and the Northwestern States of Oregon and Northern California. Briefly, the picture tells of a college boy who is expelled through the false testimony of a jealous rival. His friends desert him and a forlorn little pup is the means of saving him from suicide. By chance David comes upon a paper which tells the location of a mining claim. He and the dog go West to take up their claim and once more Fate throws Phillips, his old enemy across his path. This time David has a silent pal to fight with him and by the remarkable intelligence of his dog, Thunder, he is able to win his way to fortune and the love of a beautiful girl.  
"The Silent Pal" is chock full of action from start to finish and the remarkable feats of Thunder, the famous police dog star, will astonish even the most blasé movie goer.

## Majestic Theatre.

"The City That Never Sleeps," Paramount's drama of New York, opens this evening at the Majestic Theatre for a two-day run. Adapted by Walter Woods and Anthony Cadwelan from Lanny Scott's absorbing story "Mother O'Day," and produced by James Cruze with an all-star cast, this photoplay has all the advance earmarks of being a motion picture de luxe.

Stories dealing with New York life are no longer novelties, but this one is radically different from the ordinary story of that type.

To begin with, the picture shows us the sharp contrast in New York night life as it was in 1910, in pre-Volstead days, and as it is today on hectic Broadway. More, the picture asks the interesting question: Is the modern younger generation better off than their older brothers, and what are the reasons therefor?

Stories who were brought up in the Bowery atmosphere, with its cheap saloons? Here is food for serious thought! And you can bet your bottom dollar that Cruze has extracted every bit of entertainment the story provides.

## JEWISH CONGRESS IN VIENNA LEADS TO BLOODY RIOTS

(Associated Press Local Wire.)  
VIENNA, Aug. 18.—The police of Vienna will protect the world Zionist congress, now holding its fourteenth session here, Deputy Police Chief Tausch said today following the anti-Semitic rioting last night, in which two persons were killed and between 50 and 60 injured.  
The trouble broke out last night and fierce fighting ensued in the Frohbelplatz between the police and members of the Hakenkreuzer or Swastika organization. An anti-Semitic protest meeting, called as a demonstration against the holding of the Zionist congress here, had been forbidden by the police, but the organizers pleaded the city, urging resistance. Processions moved through the streets, headed by men carrying crosses and including bands of girls, white with banners proclaiming Vienna a Christian city.  
The Jews left the streets at an early hour and the stores and cafes put up their shutters. Rioters clashed with the police guarding the meeting place of the congress. Numbers of policemen were dragged from their horses and trampled under foot.  
The police in turn slashed at the rioters with their swords driving back the crowds besieging them. Many women were knocked down and trampled in the melee.  
The second band of demonstrators rushed the bridges leading to the Jewish districts, but these were amply protected and the attackers were forced to content

Reprinted from the First Balloon Tire Announcements  
"You ride on a cushion of air."  
"Ruts and bumps are smoothed out."  
"The car and its occupants are protected from jolts and jars."  
"Shocks are absorbed before they reach axles and springs."  
"On uneven roads where ordinary tires bounce, these flexible low-air pressure tires roll over the bumps, permitting better average speed."  
"Save repairs."

## Low-Air Pressure is the Answer

HERE is a list of balloon tire advantages taken from the first balloon tire announcements.  
These were the things that car owners wanted. The things that made them demand balloon tires. Read them and then ask yourself how you can get them except in a tire that can be run at low enough air pressure to provide a soft air cushion between the car and the road.  
Some car owners have been sold the balloon principle and then handed the name only.  
Just a big, round, fat tire with the name "Balloon" on it will not necessarily give low-air pressure riding comfort.  
The original ideal of the industry was a flexible side wall, low-pressure tire.  
Yet today some "balloon" tires must be run at too high pressure for ideal cushioning, as they wear out too fast when they are run soft.  
It is important to you as a car owner to remember this fact.  
The United States Royal Balloon is spoken of as the "Balloon Tire Principle at its Best," because it can be run at low-air pressure without injury.  
It is built of Latex-treated Web Cord which provides the necessary strength and flexibility.  
It has the U. S. Low-Pressure Tread which wears slowly and evenly and eliminates early, uneven and unsightly wear.  
Specify U. S. Royal Balloon Cords and be sure of true low-pressure cushioning.

The disorders continued until after midnight. The police reported 16 arrests. Concealed weapons were found on many of those detained.  
Most of the injured received hospital treatment were suffering from sabre lacerations. Of the two fatal cases, one suffered a fractured skull and the other was trampled to death. During the demonstrations, the rioters called
