MARKETS

SAN FRANCISCO, Aug. 20.—(United States Bureau Agricultural Economics)—Prices on young Leghorn broilers continued to climb under light receipts and good demand today. PORTLAND, Ore., Aug. 20.—Wheat growers, not only in this state but throughout the entire country, are jubilant over the price outlook. The coveted \$1.50 price has not only been obtained but future options are well above the \$1.50 level on the Chicago Grain Exchange with the market showing a strong undertone.

In the Pacific Northwest, the winter wheat harvest is nearing completion. Threshing is well advanced and the grain hauled to warehouses. Very little is actually being sold. Some was contracted earlier in the season and a few of the farmers are accepting \$1.50 offered by Portland millers for club and local northern spring, tide water delivery. The bulk of the growers, however, are inclined to hold. They are busy with their harvest and in no hurry to sell at present levels.

Local millers are paying \$1.50 to as high as \$1.56 for Montana dark, northern spring, Portland delivery. This is high in protein, ranging better than 12 per cent.

Receipts eggs are bid higher on the local exchange with 30c net posted for the day. Buyers are paying country shippers 29 1/2 to 30c for delivered receipts. Graded stocks are steady and unchanged.

Cube butter market is easier, especially on ordinary make. On the exchange prime firsts are 2 cents lower at 46 cents, while standards and extras hold steady and unchanged from Wednesday. Prints, too, are selling steadily at the 53c level.

Slight improvement shown in the live poultry market. Light hens now quoted at 14 to 15c with heavies at 22 to 23 cents. Springs bringing 21 to 25c. Poultry receipts not as plentiful as they were a week ago.

No actual change is indicated in the country meat situation. Receipts continue light with hardly enough arrivals on the street to establish a definite market. The few choice light hogs coming in readily sell at 19 to 20c, while choice light veal hold around 17c.

With picking under way in the valley hog yards, the market has been established at 20 cents on fuggles. Between 700 and 800 bales have already changed hands at that price. Some clusters also sold at 13 cents, but most growers holding and storing for a better price. The Oregon crop will fall short of last year's yield.

PORTLAND, Ore., Aug. 20.—Wheat: hard white, blue stem baart 11.50; soft white 11.57; western white 11.56; hard winter, northern spring 11.55; western red 11.53; B. B. B. hard white 11.61.

Howard's Buttermilk Cream Best for Freckles, Sunburn and Tan

Old Time Recipe of Buttermilk Cream in a New Way—A Gentle Massage with Fingers Before Retiring is All That is Necessary.

The old-time application of Buttermilk and Cream to whiten and preserve the skin and remove harsh little wrinkles and ugly sallowness is grandmother's recipe and women throughout the country are again using it to ensure a beautiful complexion and snow-white hands and arms.

Buttermilk, however, is not always obtainable, but a specialist has at last perfected a method of concentrating buttermilk and combining it with a perfect cream, which you can buy in small quantities ready to use at any first class drug store by simply asking for "Howard's" Buttermilk Cream.

There is no secret about it nor is there any doubt about the result—it's just a common ordinary buttermilk in the form of a wonder-

ful cream gently massaged with the finger tips around the corners of the eyes and mouth. To get the best effect, be sure to follow the simple directions. All good druggists guarantee a noticeable improvement after the first application or they will refund the money.
