

Builds Million-Dollar Track as Memorial to Horse

The thoroughbred racing world is interested in the opening of a new million-dollar race track by John H. McMillen at North Randall, near Cleveland. The first meet is being held from July 20 to Aug. 8. McMillen built the track as a memorial to Flintstone, his favorite horse, which had to be destroyed when it broke a leg in a race at Pimlico track, Md., in 1924, after a brilliant career. McMillen plans to stage a derby rivaling the famous old Kentucky classic in 1926 on the new track, which takes rank with the leading eastern courses. Photos show the track and grandstand, front of the luxurious club house, McMillen and Flintstone, his beloved horse.

EVIDENCE BEGINS IN MURDER TRIAL OF DENTIST YOUNG

(Associated Press Leased Wire.) LOS ANGELES, Aug. 21.—Mrs. Dorothy Mahan, formerly Dorothy Leopold, office assistant to Dr. Thomas Young, a dentist, on trial on a charge of murdering his wife and entombing her body beneath a slab of concrete in a elstern, testified here today that the dentist produced documents giving him the power of attorney to administer his wealthy wife's estate shortly after the alleged crime was committed. Mrs. Mahan declared she was ill at a beach cabin on February 21 last, the date of the alleged murder. A few days later, she said, Dr. Young came to the cabin and requested her to witness a signature of Mrs. Grace Grogan Young, former widow of Patrick Grogan, millionaire "olive king," which was attached to a "power of attorney" document. She complied with his request. Then, she said, Dr. Young told her that his wife had disappeared after a quarrel, but that he had received a letter from her stating that she was in New York. Mrs. Mahan said the letter was written on her private stationery which she kept in Dr. Young's downtown office. During the morning session the state called William Unruh, the workman who dug the elstern which was later Mrs. Young's tomb. He said Dr. Young did not want concrete in the bottom of the pit and it was left open. That was four weeks before the woman's disappearance. In an argument the state disclosed the evidence was intended to show that the dentist, "planned the murder weeks in advance."

FOREST FIRE NEAR PASADENA GIVING MEN HARD BATTLE

(Associated Press Leased Wire.) PASADENA, Cal., Aug. 21.—Five thousand acres have been burned over by the big Tujunga canyon brush fire which since Tuesday has raged uncontrolled in the mountains back of Pasadena. Back firing last night and early today on an eight mile front is believed by forest rangers to have saved the Arroyo Seco and Pasadena's watershed. Two casualties were reported today when Harold Knott, 19, was taken to his home at Sierra Nevada with a severe cut on the arm, having been struck by an axe, and Charles Hazen, of Los Angeles, fell over a steep embankment and was brought here for treatment of injuries. Three miles of dense brush and some trees were reported swept clean by the flames last night, fanned by ocean breezes. Fire breaks were being constructed today, and fire fighters expected to confine the flames to the back country and save the watershed areas. The 25 men reported trapped yesterday in Davao canyon fought their way out last night, a number of them being slightly burned.

PASADENA, Cal., Aug. 21.—The brush fire which has burned over more than 4,000 acres in the big Tujunga canyon today, continued sweeping beyond control in the mountains north of Pasadena. Completion of a 42-foot fire break in the ridge between the big Tujunga canyon and the Arroyo Seco early today was expected to keep the flames out of the Pasadena watershed. A force of approximately 700 fire fighters at work early today combating the blaze will be augmented later in the day by other contingents, federal forest officials announced.

WENATCHEE, Wash., Aug. 21.—Nine forest fires were strated by yesterday's electrical storm at the head of Lake Clelum, the local forestry office was advised today.

TODAY'S BASEBALL

NEW YORK, Aug. 21.—Rain today caused the postponement of the opening of the all-important series between the Pittsburgh Pirates and the New York Giants, who were to have played a double header. Two games will be played tomorrow. It appeared probable early this afternoon that rain would postpone nearly all of the scheduled games in both leagues.

FALL SHIPMENT OF CATTLE LESS; LOTS OF FEED IN OREGON

WASHINGTON, Aug. 21.—The department of agriculture estimated today that 250,000 fewer cattle will be marketed from the range country this fall than last fall with the principal reduction

In the southwest. The number for market is placed at 4,977,000 head compared with 4,322,000 last fall and 4,208,000 in the fall of 1923. Excellent feed supplies in Idaho, Oregon, Washington and Utah will result in more cattle for market this winter than last year, with most of these cattle moving to coast market. A shorter hay and beet crop in Colorado indicates a reduction in cattle feeding. "Early indications are that the feeder cattle demand will be strong. During July prices on feeders and stockers steers shipped from Chicago were higher than during July, 1924. Recent sales of heavy, well finished cattle have shown top prices."

OREGON PARENTS WILL DIG DEEPER FOR SCHOOL BOOKS

(Associated Press Leased Wire.) SALEM, Ore., Aug. 21.—Text books that will be used in the public schools of the state during the next two years will be considerably higher in price than the old books. It was indicated at the meeting of the state text book commission in session here today. The morning session was given over to a discussion of books and prices and the hearing of arguments by some forty book salesmen who are being allotted five minutes each to discuss the merits of their books. Indications were that adoptions will not be made before late afternoon with the possibility that the session will carry over until tomorrow. The opening of bids and preliminary organizations occupied the entire day Thursday. Tentative selections were made of the subjects that will be adopted for the two and four-year periods, but these were being revised today as the commission got down to the work of considering the books available in each subject.

SALEM, Ore., Aug. 21.—Predictions that few changes would be made in the text books in use in the schools of the state were made here this noon by members of the state text book commission meeting here to solve the problem arising from the refusal of book publishers to furnish books except at an advance in price. After thoroughly canvassing the books and prices offered by all

companies bidding for the text book contracts, members of the commission said that a comparison of the prices revealed that it would be cheaper to retain the old text books, even at the advance in prices of from 10 to 50 per cent asked, than to substitute an entire new set of texts. It is likely, members of the commission intimated, that some substitutions may be made, as they feel that a saving can be effected by substituting modified texts in some subjects.

Formal action to re-establish the texts now in use in the schools as a standard for at least another year is expected this afternoon.

HARVEY SCOTT'S WIDOW LEFT \$503,000 ESTATE

(Associated Press Leased Wire.) PORTLAND, Ore., Aug. 21.—An estate valued at \$503,130.82 was left by Margaret N. Scott, widow of the late Harvey W. Scott, editor of the Oregonian, according to the inventory and appraisal filed in circuit court by the appraisers, M. G. Campbell, A. C. Callan and R. L. Metzger.

Mrs. Scott's will, dated November 29, 1924, designated her sons, Leslie M. Scott, Ambrose H. Scott, as executors to serve without bonds. Leslie M. Scott, Ambrose Scott, Judith S. Fields, a daughter, and John H. Scott, step son, share equally in most of the holdings of Mrs. Scott, under the will.

JACKSONVILLE-MEDFORD RAILROAD HEARING.
SALEM, Ore., Aug. 22.—The state public service commission has set September 9 as the date for the hearing of the petition for permission to abandon its line between Medford and Jacksonville. The hearing will be held at Medford.
