FOREIGN TRADE OF KOREA SHOWS A HEALTHY INCREASE

TOKYO, Aug. 24.—(A. P.)—Following up last year's advantage of nearly a 20,000,000 yen export surplus, the trend in Korea's foreign trade continued to show remarkable improvement during the first five months of the year. Statistics show that Korea shipped abroad and to the mainland merchandise valued at 142,000,000 yen as against imports of 139,000,000 yen. The favorable condition is reflected in the trend of the money and finance markets where plenty of credit is available for legitimate requirements. The statement of the clearing house banks in the principal business centers of the territory shows deposits are ever on the gain, standing at 130,000,000 yen at the end of May, an increase of more than 15,000,000 yen over a year ago. A study of the details discloses that, while there was a slight decline in current deposits, there were notable increases in fixed accounts, which were larger by more than 7,000,000 yen than a year ago.
