BABY CLINIC HELD TODAY BY COUNTY UNIT BIG SUCCESS

A very successful baby clinic was held today at the Methodist church, south, conducted by the Douglas County Health Unit, assisted by Dr. Wade Kelly, specialist in child hygiene from the U. S. Bureau of Public Health. At 2:30 o'clock this afternoon 53 children had been examined, and others were coming. Mothers brought their youngsters from all parts of the county and some even came from Marshfield in Coos county. Women from various organizations of the city aided the members of the unit in registering, weighing and measuring the youngsters, and Drs. Wells, Nerbas and Gibbs, local dentists, helped in the dental examinations.

The clinics being held this week have been very well attended. Thirty-three babies were examined at Yoncalla yesterday and 63 at Reedsport on last Saturday. A clinic will be held at Sutherlin tomorrow and another at Riddle on Thursday. Owing to the fact that Dr. Kelly must leave at once for Grants Pass, it was necessary to call off the proposed clinic at Glendale.

GOVERNOR PIERCE, IN HIS ADDRESS, DECLARED THAT THE SUM TOTAL OF TAXES CANNOT BE REDUCED Owing TO THE RAPIDLY INCREASING DEMANDS OF SOCIETY, BUT URGED A MORE EVEN DISTRIBUTION OF THE TAXPAYING BURDEN.

GOVERNOR PIERCE, in his address, declared that the sum total of taxes cannot be reduced owing to the rapidly increasing demands of society, but urged a more even distribution of the taxpaying burden. The governor cited a vast array of figures to show the rich corporations paid a very low tax on a high valuation. This valuation was proved by returns made to the federal income tax department, whereas the valuation made to county and state were very low, he said. Pierce declared the farmer is still carrying the tax burden, and that efforts should be found to distribute this burden to corporations and wealthy bond and mortgage holders.

A talk by Milbank Johnson was the feature of the forenoon session. He told of many of California's troubles and declared that the state has one problem in common with other western states—that of getting permanent settlers and more capital. "In other days we used to vie by offering free lands and tell of the best highways for the farmers to get to market. We used to tell of what we would give them to aid them in making their fortunes," he said. "But times have changed. Now we want them to come and bring their pile with them. We want the money along with the people." Johnson criticized the state inheritance tax, which he said was keeping many from taking out citizenship "papers."

Today's Markets

PORTLAND, Ore., Aug. 25.—After maintaining extreme high levels during the past several weeks, country dressed meats have commenced to show a weak undertone. Receipts along the street yards are also having a bearish effect on dressed meats. Today the veal market is down to 14 to 16 cents with only choice light calves, very fancy bringing the top figure. The same is true of pork. Choice light hogs are quoted at 19 to 19 1/2 cents but it must be fancy to bring the top prices. Heavy and thin stuff is dragging and generally selling below the quotations. No change is shown in cube butter quotations on the local dairy exchange for the day. The market is showing a steady tone with the make and supply about equal to requirements. A half cent decline in current receipts is the only change in the local egg market today. Receipts are posted at 30 cents net on the exchange with buyers generally paying country shippers 29 cents delivered Portland. Live poultry receipts are not heavy and daily arrivals are moving out steadily. Heavy hens, averaging 2 1/2 to 2 3/4 cents and light hens 1 1/2 to 1 3/4. Young white Pekin ducks are steady.
