PIERCE TO SEEK RE-INACTMENT OF INCOME TAX

(Continued from page 1)

hospital costs 10 per cent. "I believe that all money for state purposes, including higher and intermediate education, should be raised by indirect taxation, leaving property to bear only the local taxes. This condition has proven successful in California, Pennsylvania and other states. I believe in a tobacco tax, which would raise a million or million and a half dollars, the same as in other states. I believe that our inheritance tax should be the same as in California. Such a rate would raise one million dollars, instead of \$500,000 as at present. Rates on insurance companies should be the same as in California, which would increase the amount from \$600,000 to \$1,000,000.

"I have no fear for the future of America if American people will stop and think, but I do fear if the young people of the country give thought entirely to jazz and frivolity, and fall to give thought to the problems that arise from a close, intricate civilization.

The governor's address was a part of a very interesting program which featured the Pomona Grange picnic this afternoon. There were several hundred people in Umpqua park for the basket dinner at noon, and by 1:30 there was a great crowd of Grange members and city residents present. The Umpqua Chiefs attended in a body and in uniform.

The meeting opened with the song "America," after which a group of girls sang "The Goops Welcome." C. E. Spence, state market agent spoke on the new potato law, and its effect and also on the grain grading law, showing how both are a protection to the buyer and producer.

After a song by the Melrose Grange, George A. Palmiter, master of the state grange, spoke briefly on grange work and the accomplishments of the organization.

Following a reading by Mrs. Cowles of Drain, Governor Pierce made his address, after which the meeting concluded with several announcements.

# Watch Your Home

How much are you putting into your Home?

The remark is often made that it costs so much to furnish a home. Here are some startling figures taken from U. S. Government reports.

We all regard the American home as the backbone of the nation.

The American people spent last year:

FOR AUTOMOBILES .....	\$2,500,000,000
FOR CONFECTIONERY .....	\$1,250,000,000
TOBACCO .....	\$1,200,000,000
CLOTHING .....	\$3,000,000,000
MOVING PICTURES .....	\$ 800,000,000
FURNITURE .....	\$ 750,000,000

In the face of these figures Mr. Homeowner or man that should own your home, will you complain about the need of a new chair, table, stove or kitchen cabinet or rug, when friend wife needs them so badly?

Brighten up the home and make it happier by the addition of a piece of furniture each year.

Its cost is one-fourth the cost of the tobacco of the nation.
