JITNEUR SLAIN ON ROAD NEAR INDEPENDENCE

(Continued from page 1.)

suit was turned inside out, leading him to believe that robbery was intended and probably in part accomplished. However, \$11 or \$12 in currency was found protruding from the edges of a wallet which was in plain sight in a shirt pocket, according to Keeney, and there was some money in the right trousers pocket. The body according to Keeney, had been dragged about four feet and partly off the road. It is his opinion that the perpetrators of the crime were interrupted, probably by the coming of Sheriff Richard's car.

Mrs. J. A. Lucas, who lives on a farm just a short distance from where the crime was committed, heard the shots, Keeney says. An inquest was to be held at 2 p. m. today at Independence.

Besides his brother Irwin, his partner in the for-hire business, Baun is survived by a brother George, who is a farmer near Mouth; his widow, Mrs. Hilda Baun, and three sisters in the east. Baun served in the World war.

Polk county officials believe the men in Baun's car headed south.

SALEM, Ore., Sep. 2.—C. F. Baun, a for-hire automobile driver of Independence, was murdered and left by the wayside about 10 miles south of that city sometime between 5 and 10 o'clock last night. Officers believe he was slain by three men who had engaged him to take them to Albany.

Shortly after 9 o'clock in the evening Baun was approached by a stranger who asked him to take him and his companions to Albany. The trio climbed into the car and started from Independence at 9:15 p. m., according to people who heard the negotiations being made.

About 10 o'clock Baun's body, with three or four bullets through it, and the head crushed as though with some blunt instrument, was found by the roadside about 10 miles south of Independence.

The alleged slayers took Baun's Ford car bearing Oregon license No. 31,040, and are believed by the authorities to have headed south. According to descriptions furnished Sheriff Hooker of Polk county, all three of the suspects were well dressed, and their luggage consisted of several bags and a blanket roll. The man who engaged Baun to make the trip was described as being between 25 and 30 years of age, about 5 feet 6 inches tall, stout, dark complexioned, with black hair and eyes, smooth shaven. He wore a blue serge suit, light shirt and a straw hat.

TITLE OF CHAMPION BRICKLAYER IN DISPUTE

(Associated Press Local Wire.)

OKLAHOMA, Sept. 2.—The dancing marathon of two or three years ago may find a counterpart in the art of brick laying. The claim of one James Brown of Missouri, to the title of world's champion brick layer is meeting with many challenges from this section of the southwest. A news story under a Kansas City date line recently told of Brown's laying 56,000 bricks in an eight-hour period. A week ago, B. H. Johnson, brick specialist on the Edmond-Guthrie highway, laid over 50,000 brick in one day—and remarked that he ought to be fined if he couldn't put over 35,000 in place.

Now comes one Tony Glasco, of Covington, Okla., with a claim that makes Brown look like a novice—and even overshadows Johnson. Glasco vows that he puts 69,000 brick in one day recently, 8700 an hour or 145 a minute. Equalling the record of Johnson, is the claim of "Slim" Peterson of Arkansas City, Kansas, who deposes and states that he, too, averages more than 50,000 brick a day.

THINK OF IT—

The greatest single cause of accidents is the automobile; to the driver, the passenger, or the pedestrian. Five dollars per year is the cost of a personal accident policy covering auto accidents. Ask us about it.

PORTLAND WOMAN HURT IN AUTO WRECK NEAR MYRTLE CREEK TUESDAY

Mrs. Howard Robinson, wife of a deputy sheriff of Portland, was severely injured yesterday evening in an auto accident, a short distance south of Myrtle Creek. The car in which Mrs. Robinson was riding with a party of friends from Portland, turned turtle, and in some manner the woman's back was injured so that she was paralyzed. She was taken to Myrtle Creek. Mrs. Willett of Silverton, received minor injuries, being knocked unconscious in the crash. The car was going south and one of the front wheels went off the pavement into the loose gravel on the shoulder and the driver lost control, according to witnesses.

Cook with gas.

CONFERENCE ASKS SUBSIDY TO PROP MERCHANT MARINE

PORTLAND, Ore., Sep. 2.—Need of a subsidy to place the American merchant marine on a competitive basis in foreign trade with Great Britain and other leading nations was voiced by business men of Portland and tributary territory at the afternoon conference held here by representatives of the merchant marine committees of the United States Chamber of Commerce.

American ships, with their high cost of construction, maintenance charges and high wages cannot compete with merchant ships of other nations who provide subsidies and whose construction costs, wages and repairs are low, it was stated.

C. K. Dawson, manager of the Columbia Pacific Shipping company, expressed the opinion that the government subsidy should apply to all ships, both freight and passenger, on the basis of deadweight

was over a hole or a pile of gravel in the center of the street. She was knocked unconscious, she said, and remembers nothing of the crash.

When questioned regarding the man's associates she was able to give only the name of Gale Hamilton.

Mrs. Swisher's evidence was practically the same as Mrs. Mead's. She had known the man only about 4 months she said, and then only by acquaintance through the restaurant where she was working. She did not know his occupation. She said that he had told her that he had been married in Virginia and that he had sent money to his wife to procure a divorce, and that he supposed she had done so, although he had not been informed in that regard. She said that she had told him a few days previously that she wanted to return to Roseburg, as she was unable to find work in Medford, and he had told her that he would be coming to this city in
