Here is a message of great importance to those who have never experienced the superior comfort of riding on genuine low air pressure tires.

TODAY car owners want to know just two things about balloon tires—their ability to give *greater comfort,* and ability to give *long wear.*

In too many instances one characteristic is found without the other.

That is, many balloon tires must be run *too hard for comfort,* in order to save them from excessive wear.

Or if the tires are run soft enough to give full balloon cushioning, they *wear too rapidly.*

In U. S. Royal Balloons this trouble has been entirely avoided by two outstanding achievements in tire building.

Achievements which make it possible to run U. S. Royal Balloons at *true* low air pressures with absolute safety to the tires.

The new flat "Low-Pressure Tread" distributes the weight evenly over a much larger tread surface than a round tread balloon. The wear is slow and even.

Latex-treated Web Cord construction gives this famous tire that exceptional combination of strength and flexibility which permits perfect balloon cushioning.

As a result of these U. S. Rubber Company developments, U. S. Royal Balloons have been established as "the Balloon Tire Principle at its Best."

GUNTER PEOPLE FIGHT INCLUSION IN ROAD DISTRICT

The contract for the graveling of the North Umpqua road, between Rock Creek and Idleyld, was let by the county court this morning to Rudolph Harness, the low bidder. Only two bids were submitted, one by Charles Churchill for $1,263.20 and the other by Rudolph Harness for $1,024. The work is to be started at once. The county has already scarified and graded the road, and the application of gravel should make it a fine section.

The court was visited this morning by a large delegation of citizens from Gunter, who protested against inclusion in the proposed super-road district, which is being formed to raise funds to complete the Reedsport section of the Umpqua highway. The Gunter residents claim that they are not benefitted by the road, as they do not travel it in coming out to the highway. They stated that they expected to be drawn into the district over their protest, as the district is formed by a vote of all concerned and not by separate districts, and they asked the court to refuse to approve the district if they should be forced in.

LOOK OUT FOR SELF POISONING

Neglect of the liver results in self-poisoning! Not so quickly, perhaps, but just as surely as if you drank poison out of a bottle. If your liver is not doing its work of helping digestion, eliminating waste from the bowels and purifying the blood, you will always be troubled with sick headaches, nausea, biliousness, bad breath, gas, sour stomach, or constipation.

Cleanse and tone your liver! Put your system in condition so you feel your very best again! Try just a spoonful of Dr. H. S. Thacher's excellent Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep, look and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost. Dr. Thacher's Liver and Blood Syrup is sold and recommended by Salmon Fallerton, Roseburg, Ore. Drain Pharmacy, Drain, Oregon.

REFUSAL OREGON IRRIGATION HELP STARTS FIREWORKS

(Associated Press Leased Wire.)

SPOKANE, Wash., Sept. 3.—Immediate construction of the Columbia basin irrigation project was urged by United States Senator Ralph Cameron of Arizona at a luncheon here yesterday, where the visiting members of the senate public lands sub-committee were guests of the Spokane Chamber of Commerce.

"Call it Coolidge Dam," Senator Cameron suggested. "Take the bull by the horns, go out and get the money and put it over right away. Do it now."

Referring to a recent report of an interior department commission recommending that the project be not competed at this time, Senator Cameron remarked: "It doesn't make any difference what Mead and Work think."

Senator Robert N. Stanfield of Oregon, chairman of the committee, also spoke in favor of immediate completion of the project.

"It is with regret that we see some men in high office saying there is no need for more farming, and that reclamation should be suspended," he said. "There is no danger of over production if our products are marketed as they should be and production is balanced. We are now importing three times the amount in dollars and cents that we are raising."

The Greatest Electric Range Bargain Ever Offered in Roseburg

and only

$15 DOWN

Completely Installed

Hotpoint

Perhaps you have not fully appreciated all this big electric range event means to Roseburg housewives—to women who pride themselves on their good management in buying the things they need at the time when they can get the greatest bargains.

Then it's time to investigate—personally—at the electric range bargain showrooms opened by the Roseburg Electric Store, Arthur H. Crowell's Electric Store and The California Oregon Power Company.

Or perhaps you do know that between now and September 15th you can have one of those HOTPOINT-HUGHES electric ranges delivered, fully installed and wired in your home—all ready for cooking—for only $15 down.

Then you will want to know more about electric cooking—its hot weather comfort—its all-year-round convenience—the freedom from ashes and fuel—the genuine ECONOMY of cooking by electricity at an average cost of 3 1-2c a meal!

During this special event, these firms are prepared to tell you anything you would like to know about "cooking by electricity," and demonstrate its advantages on a HOTPOINT-HUGHES at the showrooms.

Call and See Them Tomorrow

Because only until September 15th—unless this big special stock is sold even before then—will you be able to buy your electric range at such low prices and convenient terms, wired and installed.

And every day between now and September 15th is ideal "electric cooking weather." Why wait a single day longer to buy the electric range you will eventually be sure to own?

EASTERN OREGON FARMERS PAYING BACK STATE LOAN

(Associated Press Leased Wire.)

SALEM, Ore., Sept. 3.—Out of a total of $396,431 loaned by the state board of control to eastern Oregon farmers to reseed land frozen out last winter, nearly half, or $19,452 has been paid back, according to figures on the board's record. It is considered significant of an improved farming condition in the state that every loan paid in full with the exception of two loans in Morrow county that have been partially paid. A survey in the several counties indicates that the state will be repaid every dollar. All payments are due by January 1 next and no further loans are authorized. As fast as the money is repaid to the state it is turned back to the World War veterans state aid fund and re-invested in securities.

CHIEFS PLAN FOR PARTICIPATION IN THE STATE FAIR

A meeting of the Umpqua Chiefs was held last night and plans for participation in the State Fair discussed. The Chiefs are working on a playlet and special stunt to be given at the fair, and arrangements have been completed to secure a special train to convey all of the members of the organization, the Umpqua Squaws and American Legion drum corps to Salem for hospitality day.

The "Dirty Dozen," the Umpqua Chief drill team, are rehearsing regularly, and the playlet has been placed under the direction of Bert G. Bates and Guy Cordon, who have been given full power to act.

Matters pertaining to the making up of marching uniforms was again considered, and 25 more suits were ordered.

BOND ISSUE FOR ELECTRIC POWER ON OREGON FARMS

SALEM, Ore., Sep. 3.—A proposed initiative measure for a constitutional amendment authorizing hydro-electric power development in Oregon was read at an informal conference held yesterday in the office of Governor Pierce and attended by representatives of the Housewives' council of Portland, the state grange, the Umatilla Rapids association and other organizations.

It is proposed that money for the development would be raised through an issue of bonds. The governor or the legislature would appoint a committee of five members to have charge of the development.

Before any definite action is taken toward initiating a bill the measure must have the approval of the state grange and it is probable that the measure will be submitted to a grange committee sometime during the fall.

Boys' all-wool suits and overcoats made to measure $16.00 to $27.50 at Berniers, the Tailor, 2 doors north Liberty theatre.

CARD OF THANKS

The many relatives of George Volney Gurney, deceased, thank their friends and acquaintances for their many kindnesses and numerous beautiful floral offerings. They especially thank the Pythian sisters and Royal Neighbors of Myrtle Point. The thoughtfulness of the citizens of Ten Mile will never be forgotten. We sincerely thank you all.

Mr. and Mrs. R. E. Baldwin.

ATTENTION EASTERN STAR MEMBERS

All members and visitors are most cordially invited to attend the home coming to be held in the Masonic hall Thursday, Sept. 3rd, at 8 o'clock. A good musical program and an excellent banquet.

The auction sale of blacksmith tools which was to be held Saturday next, has been cancelled, the tools having been disposed of at private sale.

THREE INJURED WHEN OIL STOVE STARTS BAD FIRE

(Continued from page 1.)

and was dragged back by neighbors but not until after her hands and face had been badly burned.

By the time the alarm was given the fire department the house was completely afire inside. The fire department answered the call with the small truck, leaving the pumper at the fire hall, and sounding no general alarm. Upon arrival it was found that the fire required the use of the pumper, and after laying a line of hose with hydrant pressure, the firemen returned for the pumper, and sounded the siren.

The small stream of water was practically useless, and by the time the pumper was put in use the house was almost gone. Three outbuildings caught fire, and the blaze spreading in the tall grass threatened for a time the entire neighborhood. Residents, assisted by volunteers from the huge crowd which witnessed the spectacular blaze, fought the grass fire with sacks, and finally succeeded in bringing it under control.

The building owned by Mrs. Steele was a two-story frame structure, and when the oil was scattered through it the fire became so hot that firemen were unable to get up to the house. The pumper performed well and delivered two large streams at high pressure.

The house was recently acquired by Mrs. Steele, and represents a loss of about $3,000. Her loss and that of the Iversons was complete, as they were able to save nothing but the clothes which they were. Mrs. Steele's loss is only partially covered by insurance.
