Liberty Theatre

A pathetic little old lady, long a charity inmate of an Old Ladies' Home—

And suddenly, out of the clear sky, a bolt of good fortune strikes! She inherits a million dollars! What she does with it, her troubles and her joys in befriending her former "girl" friends and in trying to provide a gorgeous home for all the orphan babies in the world, form the background of a wonderful story which, as most people will remember, was Elizabeth Cooper's popular best seller under the title of "Drusilla with a Million" not so long ago. With a splendid cast which includes Mary Carr, Kenneth Harlan, William Humphrey, Priscilla Bonner and Claire Du Bray, "Drusilla" comes to the Liberty theatre on Sunday for a first showing in this locality. Pathos, comedy and punch are blended in perfect proportions in this delightful picture, which was directed by F. Harmon Weight for Associated Arts.

Antlers Theatre

The much heralded screen version of Channing Pollock's greatest stage play, "The Fool," comes to this city on next Sunday at the Antlers theatre. Produced by the Fox company and with a year spent in its making, this film adaptation of "The Fool" is rated as one of the finest pictures of the season by critics and public alike who have seen it.

"The Fool," as many local theatre-goers will remember who have read the play in book form, or who have seen its stage presentation, is the story of the adventures and romance of a young minister who believed that he could live like Christ in the twentieth century. It has been ranked as one of the greatest plays ever written for stage or screen, not only because of the significant moral message it contains but also for the sheer thrill and entertainment of its melodramatic action and climaxes.

All of the leading members of the cast were especially selected and Edmund Lowe, handsome young Fox screen star, scores the greatest success of his meteoric career in the role of the hero minister, Daniel Gilchrist. Another big part, one which Lowell Sherman made fame in on the stage, is that of Jerry, played by Ray Bloomer in the Fox screen version. Brenda Bond, a new and pretty face in motion pictures, but well known on the stage, has the role of Clare.

STATE BOARD OF CONTROL HEARS PLANS FOR TOWER

(Associated Press Leased Wire.)

SALEM, Ore., Sept. 11.—Plans for a new brick block house and guard tower at the state penitentiary as a precaution against prison deliveries, were submitted to the state board of control today, but not acted on pending a visit of the board to the prison. The tower, protected by the walls of the brick structure, is to be located just outside the front spiked fence of the front prison grounds and a few yards south of the entrance gate. The estimated cost is $500, the structure to be built by prison labor. The plans were prepared by John Quinlan, prison engineer and the drafting work was done by M. R. McDonald, a prisoner. A further protection will be a 16-wire barricade of barbed wire around and above the prison walls.

E. J. Stack of Portland, W. J. Entress and E. L. Stowe, of Salem, representing organized labor, appeared before the board today and asked an increase in the pay of firemen and assistant engineers at the state institutions and the state house. They asked an increase from $67.50 a month for firemen and for the assistant engineers an increase to $167 from a wage that now ranges from $70 to $120.

The present wage was said to work a hardship on married men, practically barring them from employment for the state because of the fact that in living at home they are unable to take advantage of the board and some other matters of expense allowed by the state.

The board was favorably disposed toward the increase, although it was not believed the full increase asked could be granted because of a shortage of funds. The superintendents of the institutions and labor representatives will appear before the board Monday, October 5, when action probably will be taken.

Settergren Brothers, contractors, who are building the new training school near Woodburn, have settled an overtime wage controversy with their laborers, according to a report made the board today.

Mrs. Clara Patterson, superintendent of the state industrial school for girls, was authorized to operate the day school work at the institution according to the regular state school plan as prepared by the state department of education.
