

Can a Washer Talk?

For homes without electricity the Maytag Gyrafoam is available with Gasoline Multi-Motor attachment.

9 Outstanding Maytag Features

- 1.—Washes faster. The Gyrafoam Principle creates a more highly energized, turbulent and continuously effective water action. No idle water.
- 2.—Washes cleaner. The Gyrafoam Principle mixes the soap evenly through the water, and forces the super-cleaning, sudsing washing solution through the meshes of the clothes. No idle suds.
- 3.—Largest hourly capacity in world—50 lbs. ordinary family wash per hour.
- 4.—Most compact washer made—takes floor space only 25 inches square.
- 5.—Cast aluminum tub—can't warp, rust, rot, swell, split nor corrode.
- 6.—Easily adjusted to your height, and height of tub.
- 7.—Clothes can be put in or taken out while washer is running.
- 8.—Tub cleans itself in 30 seconds.
- 9.—Metal swinging wringer. Low. Swings into 7 positions. Adjusts itself automatically for handkerchiefs or blankets. Automatic drainboard. Instant tension release. All parts enclosed.

9 Reasons For World Leadership

By this simple, practical method, the MAYTAG, telling its own story, in less than 600 days became the most "preferred" washer—it leaped into world leadership.

So we ask you to permit the MAYTAG dealer to bring a MAYTAG Gyrafoam to your home to do your washing. In that way from the washer itself you will learn why more housewives prefer and buy the MAYTAG than any other washer. There will be no obligation to buy.

Phone for this free demonstration. Everything about the Maytag will appeal to you.

PAPER DEMANDS A PROBE OF PRISON BREAK CONDITIONS

(Associated Press Local Wire.)

SALEM, Ore., Sept. 18.—The Capitol Journal today laid before District Attorney John Carson a demand for an investigation of conditions existing now and prior to the Murray-Willos-Kelly escape from the state penitentiary by the Marion county grand jury.

The demand came as the result of Governor Pierce's failure to make public the report of his special committee that investigated the break, or to carry out the recommendations supposed to be contained in that report, which is known to recommend the removal of Warden A. M. Dalrymple. Whether or not the matter would be laid before the grand jury and, if so, at what time, District Attorney Carson was unprepared to say definitely this afternoon. The press of business on his office due to the Murray, Willos and Kelly trials and other criminal prosecutions coming up in the October term of the circuit court opening October 5, will probably make it impossible to call the new grand jury into session until later in October, the district attorney intimates.

In view of the wide powers of the grand jury, and the practice of grand juries here to inquire into the conditions at some of the state institutions at least once a year, the Capitol Journal asked that the requested investigation be all-embracing in its scope and aimed at determining not only the causes contributing to the Murray-Willos-Kelly break, but also the truth or falsity of various charges that have been hurled at the prison administration since the escape.

Included in the items to which the request asks that special attention be given by the grand jury are the following:

The discipline existing among the prisoners and the liberties granted them.

An inquiry into the personnel of the guard force with particular attention to the physical fitness of individuals and the morale of organization as a whole.

Investigation of the organization to meet emergencies such as the escape of August 12.

Examination of the prison books to determine the truth of statements of former employees that the commissary department inventory of more than \$12,000, supposed to be commissary department inventory due to appropriation of goods by convicts.

An audit of the flax department accounts to confirm or repudiate the statements of these same former employees that about 500 tons of flax from the 1922-24 crops has disappeared and is not accounted for. The flax in question is said to be valued at \$38 a ton.

Thorough investigation of reports that paroles and pardons have been secured for convicts for a financial consideration and that persons connected with the administration have benefited by these deals.

Investigation of rumors and statements by former employees that the convicts have been making liquor inside the walls.

Determination of the truth of reports that employment at the penitentiary has been made a matter of politics and that guards have been discharged because they refused to affiliate with certain fraternal and political organizations.

In requesting investigation the Capitol Journal declares:

"The determination of the truth or falsity of these reports is a matter of vital public concern, as well as one of justice to those in charge of the prison. If the prison is not capably and efficiently managed, if any one of the above reports are true those responsible should be made to answer.

"If the affairs at the prison are being capably administered and the charges are false, then those accused are entitled to public exoneration."

PRUNE YIELD WILL LINE POCKET OF GROWER WITH GOLD

(Associated Press Local Wire.)

SALEM, Sept. 18.—The unfavorable conditions which have cut the Willamette valley prune crop down to a general average of about 20 per cent of a normal crop this year and sent the price soaring have lined the pockets of at least one valley grower with gold.

Frank Zumwalt, whose 30-acre orchard near Perrydale in Polk county, is reported to have yielded an average of 100 bushels of prunes to the acre, will receive about 10 cents a pound for the crop, which is already under option to a Portland packing firm.

The Zumwalt crop is particularly in demand because it combines quality with a good assortment of sizes, and packers are finding it difficult to secure small size prunes with which to balance their shipments. The crop generally this year is averaging about 50¢ in size with practically no assortment.

The Zumwalt crop is remarkable in that the average yield of other

orchards in that district has been about 10 per cent of normal, and many crops in the Dallas district a few miles south, were only 5 per cent of the 1924 figure. See the Zenith electric washing machine before you buy. Zigler-Fee Hdw. Co.

MARKETS

PORTLAND, Ore., Sept. 18.—Extra eggs are 2 cents higher on the dairy exchange at 47 cents today. Other grades are unchanged. The local egg market is very firm with not enough fresh arrivals to take care of requirements.

The local butter market continues to maintain a good healthy tone with both cubes and prints unchanged. Portland buttermakers do not look for an advance in prints unless forced up by action of outside markets. There is a slight increase in cream production although market still short of cubes.

County meat and poultry arrivals were small along the street today and prices remained nominally steady at current levels.

Onions are fully 25 cents lower with level stocks selling at \$1.50 to \$1.75, mostly Lake Labeish crop coming now. Prices at country shipping points are down to \$1.25.

Three cars of Oregon Bartlett pears brought as high as \$6 a box on the New York auction market Wednesday.

Ordinary grades ranged from \$3.90 to \$4.75 with poorer grades as low as \$2.

Oregon Bartletts averaged better than \$3.50 on the Boston market.

A car of Oregon Hungarian prunes in suitcases sold at 70 to 75 cents in the Chicago Auction market.

PORTLAND, Ore., Sept. 18.—Cattle—receipts 50, market nominally steady.

Hogs steady; receipts 500 (87 through), market steady.

Sheep—receipts 27 (bulk on contract), market nominally steady.

PORTLAND, Ore., Sept. 18.—Wheat: B. B. H. Hard white 1.49; hard white, blue stem, baart 1.47; soft white, western white \$1.45; hard winter, northern spring western red \$1.40.

Today's car receipts:

Wheat 135; barley 7; flour 15; oats 2; hay 5.

SAN FRANCISCO, Sept. 18.—(United States Bureau Agricultural Economics) — Trading in live poultry was slower today and some accumulation in local supplies was noticed. Leghorn hens were easily one cent per pound lower while small broilers continued in limited demand.

Leghorn hens 23 pounds 20¢; 21c pound; 2 pounds 23¢; 25¢; 33 to 34 pounds 26¢@27¢.

BOSTON, Sept. 18.—The Commercial Bulletin will publish the following wool quotations tomorrow:

Scoured basis: Oregon, Eastern, No. 1 staple \$1.20@1.25; fine and 2 m. combing \$1.15@1.20; Eastern clothing \$1.05@1.10; valley No. 1, \$1.08@1.10.

Territory:—Montana and similar, fine staples choice, \$1.25@1.30; A blood combing \$1.12@1.15; 3-8 blood combing, \$1.00@1.05; a blood combing, 90¢@95¢; Mohair—best combing 70¢@80¢; best carding 65¢@70¢.

"This is not as our fathers did"

The civilization of the Chinese is old—older than the oldest records that are musty and yellow with age. Yet China today enjoys very few of our modern improvements. The Chinese do not welcome change. They object to innovation, saying, "This is not as our fathers did!"

Imagine an American today saying that he did not want electricity because his father was satisfied with candles!

Why have we progressed? Advertising, more than anything else, has made of us a nation willing to judge something new on its merits, rather than on narrow, ancient traditions.

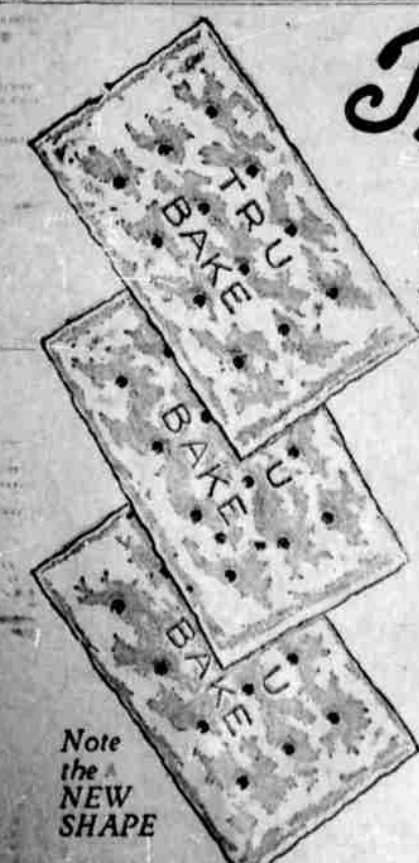

Advertising today is as necessary as electricity, sanitation and rapid transit. It is more than the system by which we are kept informed of every new improvement that is to our advantage. It is the catalog wherein every day, all manner of articles are listed for use with their individual advantages.

Read the advertisements. Be guided by them. They will help you in making your selections. They will save you money.

To buy the new is to progress—to learn of it first is to read advertising

NORTH UMPQUA ROAD PROJECT IS APPROVED

(Continued from page 1.)

with a number of the residents of the city regarding the North Umpqua road.

The conference arranged that all the facts concerning this road shall be reduced to writing, maps prepared and the statements of the forest service, county court, and others secured, to be presented to the forest service officials and to congress to secure additional allotments or appropriations to construct the link needed to open the road through to Diamond Lake. It is estimated that the amount needed is \$200,000.

"There is no doubt," Mr. Hawley says, "that under the circumstances the forest service will approve the road and will carry out the plans originally announced. Its good faith is evidenced by the finishing of the Big Camas-Diamond Lake section out of forest service funds.

"In order to get materials and men from Roseburg to fires in the Big Camas district, it is necessary to transport them 253 miles. If the North Umpqua road is completed the distance will be reduced to 65 miles, or 168 miles shorter.

"This saving will in a short period amount to a considerable item, as well as reducing the time of getting men and supplies to less than one-fourth the time now required. Every public interest justifies the construction of the road." At the conclusion of the conference he expressed the opinion that there will be little difficulty in securing the necessary funds to complete the road.
