Today's Markets

PORTLAND, Ore., Sept. 28.—Portland egg prices are still low when compared to other coast markets and to New York. Yet local jobbers are pretty well stocked and not over anxious to buy fresh supplies at current levels.

Chicago, the lowest market in the country, is up to 46 cents today. San Francisco is 10 cents higher than this market at 54 cents and Los Angeles, 16 1/2 cents above local quotations at 54 1/2 cents for 66 cents extra.

Fresh arrivals in the local market over the week-end were moderate and dealers do not look for any material decline in prices at present. On the other hand they are convinced that the upward trend in values is about played out.

Prices on the exchange today are posted as follows:

Extras 44c; firsts 41c; pullets 36c; current receipts (net) 36 cents.

Trading in hogs was quiet over the week end and the flurry in prices has apparently blown out for the time being. The crop in Oregon and Washington is practically all picked and is being baled. While growers are still bullish on stocks unsold, the majority of buyers are less eager to take on supplies and bids remain nominal at 25 to 26 cents for clusters.

A good healthy tone still prevails in the local butter market with both prints and cubes unchanged at the opening of the week. There are still plenty of buyers for good cubes with offerings limited. Fat prices here range from 54 to 55 cents a pound. Prints still quoted at 52 cents. Cube prices unchanged on local dairy board.

Commission men along the street were disappointed when the express deliveries were made this morning. Both country dressed meat and poultry arrivals were light. There is a good call for top calves and hogs and the market is firm. Prices, however, remain nominal with no sales to establish new levels.

There were no live poultry receipts to speak of along the street and quotations remained nominal at Saturday's close. Dealers report a good call for all lines.

PORTLAND, Ore., Sept. 28.—Wheat, B. B. R. hard white \$1.31; hard white, blue stem, baart, soft white \$1.30; western white \$1.29; hard winter, western red \$1.23; northern spring \$1.24.

Today's car receipts: Wheat 74; barley 6; flour 9; corn 4; oats 3; hay 9.

PORTLAND, Ore., Sept. 28.—Eggs—steady. Current receipts 35c; pullets 31 1/2c; firsts 35 1/2c; extras 38 1/2c.

Butter steady. Extra cubes, city 52c; standards 50c; prime firsts 48 1/2c; firsts 47c; undergrades nominal; prints 53c; cartons 54c.

Milk steady. Best churning cream 52c net shippers' track in zone 1. Raw milk \$2.55 c. w.

@10.50; ewes, common to choice \$49.00; canner and cull \$1.50 @ 4.00.

FRENCHMEN SAY TERMS OFFERED BEST POSSIBLE

(Associated Press Leased Wire.)

WASHINGTON, Sept. 28.—Negotiators of the French debt settlement were called together for the second time today after the American commission had spent nearly two hours discussing among its own members the suggestions made to them at a morning meeting by Finance Minister Caillaux and his associates.

None of the members of either commission would discuss the situation. Reference was made, however, to the statement issued earlier in the day in which Secretary Mellon renewed his belief that a funding settlement of France's four billion dollars debt would be reached.

The second plenary session lasted only 30 minutes after which Under-Secretary Winston announced that the French would go into session with their statisticians and later return to the treasury or another meeting with the Americans.

No other statement was forthcoming, although the audience with which the second major meeting broke up was interpreted by some as meaning that progress had been made.

(Associated Press Leased Wire.)

WASHINGTON, Sept. 28.—A new method of approach was laid out today at the third joint session of the American-French debt missions which are trying to find a common ground for settlement of the French war debt.

Joseph Caillaux, French finance minister, made new suggestions relating to the French capacity to pay and presented a defense of the principles of his first offer, which was unacceptable.

This required less than 30 minutes, and at a separate meeting of the American commissioners it was decided that Secretary Mellon should have a reply ready for another joint session at four o'clock this afternoon.

The statement by M. Caillaux was declared to have been a blunt presentation of the French fiscal position and to have elucidated the minister's declaration last night that his original proposal was considered by him and his colleagues to be the best they felt they should make.

Both sides were reticent today and when M. Caillaux left the joint meeting he said that Mr. Mellon had requested him to say nothing of what went on in the morning session.

Mr. Mellon declared he continued hopeful. He will meet his colleagues two hours before the scheduled joint session to go over the reply to the French suggestions which were understood to represent, in a measure, an improvement over the original French proposal.

WASHINGTON, Sept. 28.—The French position in regard to her \$4,000,000,000 debt to the United States was argued again today by Finance Minister Joseph Caillaux in the third meeting of the French and American debt commissions.

Meeting at the treasury shortly after 10 o'clock, the two missions went into joint session, and less than 30 minutes was required to complete the business on hand.

It was apparent that most of the session was taken up by the French delegation in defense of its offer. When M. Caillaux and his colleagues left the Treasury building, they declined to discuss the negotiations in any way.

TWO MILLION CHINESE HOMELESS FROM FLOOD—PEKING, Sept. 28.—Fifteen thousand square miles containing the homes of 2,000,000 persons are flooded and it is feared that hundreds have been drowned in consequence of the break in the Yellow River dyke on the Shan-tung-Chili border. The affected area is being extended hourly and famine relief workers say the flood is the greatest since 1877. A further break in the main south dyke is allowing the Yellow river to flow unrestrictedly to the south and a portion may reach the Yangtze river (tributary of the river's course).

Protection against winter infection of Oregon loganberry bud blight, and cane leaf may be afforded to a considerable extent by spraying the canes at this time of year with bordeaux mixture, says the experiment station. The canes should be covered from base to tip.
