What Will They Do For You?

If you buy a new suit, some hardware, furniture, meat, or groceries from out-of-town dealers do you think those out-of-town merchants will help pave the streets of your town or contribute money towards making your town a better place in which to live?

You know they will not, and you know that the money you give them can never be used for the benefit of yourself and your home.

But you do know that money spent here remains here and is used for our own good.

Our merchants are a vital part and factor in the development of this place.
