Matthewson Honored.

PITTSBURGH, Pa., Oct. 8.—A battery of photographers surrounded Coveleskie as he warmed up, while another group of photographers took snap shots of Vic Aldridge as he got into condition for Pittsburgh. Coveleskie did not seem to show any difficulty in his pitching motion because of a recent muscle strain in his back. Aldridge employed a wide curve and it was evident that he was going to follow the plan of Meadows in feeding the Senators constantly with deceptive hooks. This was considered good strategy by McKechnie, because the American league is mainly a fast ball aggregation, its pitchers depending on speed largely.

club wore mourning bands on their left arm for Christy Mathewson. Led by a band, the two clubs in parallel lines marched across the field from the home plate to deep center field, where exercises were held briefly in honor of the late president of the Boston Braves, there was a solemn hush among the fans as the two clubs faced each other in the field. The band played "Nearer My God to Thee," while the immense crowd stood standing with uncovered heads. The band then played the "Star Spangled Banner," while the colors were raised and then brought back to high mast. The two clubs then lined up and marched across the field, while the crowd broke into a big cheer. Umpire Owens then called the players to the field and everybody arose and cheered as Sam Rice went to the plate.

ESPEE HAVING INNING IN RAIL RIVALRY CASE

Strahorn Tells of Initial Activities at Bend and Klamath Falls.

MISLED, HE DECLARES

Both Hill and Harriman Men Assured Him They Had No Intention of Interfering.

(Associated Press Leased Wire.)

PORTLAND, Ore., Oct. 8.—Testimony in the Interstate Commerce commission hearing here on railroad development switched from Oregon to California today, as Director Charles Mahaffie took up the application of the Southern Pacific for extensions in northern California after the Hills roads completed their case in behalf of their proposed extension from Bend to Klamath Falls.

The Southern Pacific's case was begun after Director Mahaffie refused the request of that railroad that the Oregon Public Service commission should put in its testimony before the Southern Pacific produced its witnesses.

J. F. Shughessy of Carson City, Nev., president of the Nevada railroad and public service commission, spoke in favor of an extension of the Central Pacific (Southern Pacific) from Klamath Falls to Alturas, Cal.

Robert E. Strahorn, builder of the Oregon California & Eastern railroad in the southern part of Oregon, spoke in support of extending his lines from Sprague river to Silver Lake and also to Lakeview, Bonanza and Williamson river. He told of his struggles to finance this undertaking.

Bend's Opposition Told.
"I was attending a big railroad mass meeting at Bend in 1915, when a delegation of leading citizens from Klamath Falls came and asked me to go down there and study their transportation needs," said Strahorn.

"I went to Klamath Falls, made a careful survey of the situation and planned a line from there to Bend and to Lakeview. From the moment it was found the Klamath Falls project might be a success, the lumbermen of Bend, began to oppose it."

"Mr. Shevlin, of the Great Shevlin-Hixon company, repeatedly told me personally that they could not stand for the southern extension of the railroad," said Strahorn. "My friends who were in business in Bend at the time were threatened that if they continued to favor building a railroad south, they would suffer."

He said that about this time the Chambers of Commerce of the state took a vote on the desirability of building his proposed Klamath Falls-Bend-Lakeview railroad, and every chamber of commerce in Oregon favored it but Bend.

The story of Klamath Falls' cooperation was told. A \$300,000 bond issue was voted and given him right of way to Sprague river was promised as well as a terminal site in Klamath Falls and certain needed municipal franchises.

"Only one-half of the right of way was furnished and the same amount of the terminal site given," Strahorn said, "and some of the franchisees are lacking. I am not complaining about Klamath Falls because the people there attempted to do more than they could, but it made me shoulder more troubles. Rather than let the entire project

Father Time Strikes Out Famous "Big Six"

Christy Mathewson, pictured above, pronounced by impartial baseball experts as the one perfect pitcher in the history of the world's greatest sport, loses in contest with death, brought on by illness contracted during his services in the world war.

Christy Mathewson, pictured above, pronounced by impartial baseball experts as the one perfect pitcher in the history of the world's greatest sport, loses in contest with death, brought on by illness contracted during his services in the world war.

It was a tragic, yet dramatic coincidence to baseball men that Matty should have passed on at a time when Johnson reached one of the most brilliant peaks of his career, for these two have stood out above all others in the past quarter century of mound achievement.

World War Veteran.
SARANAC LAKE, N. Y., Oct. 8.—Christy Mathewson, one of the greatest pitchers of all time, is dead in his mountain camp.

A hero of the World war, as well as of the diamond, on which he was the first big college star, he died late last night of tuberculosis and pneumonia, the result of being gassed while a captain in the chemical warfare service in France. The end came while his buddies in the American Legion were holding their annual convention in Omaha, and while Walter Johnson, his greatest contemporary, was being hailed as the hero in a World's Series, such as Mathewson had been in the past.

"Big six," as he was known because of his stature, battled intermittently with tuberculosis for 22 years. He went to France in 1918 after three years as manager of the Cincinnati Reds. Returning as coach of the New York Giants, with whom he had played for 47 seasons, he was taken seriously ill in 1920 and retired to Saranac Lake.

End Came Unexpectedly.
During the battle for health, apparently won in 1922, he became president and part owner of the Boston Braves. He caught cold on the spring training trip of the Braves last spring and was forced to return to his camp. Less than a month ago, his physician reported that he was holding his own. The end came rapidly and unexpectedly.

His wife, who had nursed him during the years of his illness, was a this bedside. The only child, Christy Mathewson, Jr., is at college. Funeral services will be held at Lewiston, Pa., Saturday. His body will be taken from Saranac Lake tonight.

How Matty's zeal for his country's aid led to the illness that ends his career prematurely at 45 is explained by Mrs. Mathewson.

"He had influenza in France," she said.
"Besides as assistant gas officer to the twenty-eighth division, he demonstrated lethal gas shells and inhaled much of the gas. When he came back the first severe cold he developed settled into a cough he

PITTSBURGH, Pa., Oct. 8.—Baseball's hosts, gathered here today for the second game of the World's Series, paid tribute to the memory of one of the greatest pitchers of all times—Christy Mathewson, who died last night at Saranac Lake, N. It was a tragic, yet dramatic coincidence to baseball men that Matty should have passed on at a time when Johnson reached one of the most brilliant peaks of his career, for these two have stood out above all others in the past quarter century of mound achievement.

EVIDENCE FOR STATE BEGINS IN MURRAY CASE

Bullet That Killed Guard of Same Calibre as Gun Found on Convict.

X-RAY PHOTO SHOWN

Defense Counsel Stresses Object of Justifying Verdict That Will Cheat Gallows.

(Associated Press Leased Wire.)

SALEM, Ore., Oct. 8.—With the foundation laid for its case and the death of John Sweeney, guard at the penitentiary at the hands of murderers established by the testimony of doctors who examined his body after death and the county coroner, the state today commenced to weave the web of evidence by which it hopes to pin the murder upon Tom Murray, alleged leader of the three convicts who shot their way out of the prison on the evening of August 12 when Sweeney was killed.

Yesterday the state in its statement of the case alleged that it would prove that Murray had on his person at the time of the break and up until he was captured at Centralia a 32-20 calibre revolver taken from the arsenal of the prison, and that this was the only gun of this calibre taken by the convicts stolen from the arsenal. The bullet extracted from Sweeney's head following his death, a 32-20 calibre shot, was also introduced.

This morning, the state introduced, over the protest of the defense X-ray photographs of the bullet before it was extracted from Sweeney's head and placed on the stand Dr. G. E. Pring, Salem physician, who identified the markings on the bullet shown in the photograph as being identical with those on the bullet shown by the state, and declared his belief that
