DEATH COMES TO CHRISTY MATHEWSON

(Continued from page 1.)

could not shake off." Called "World's Greatest," Christy Mathewson, the nation's baseball fadman over a span of more than two decades, and one of the greatest pitchers the game has ever known, was a symbol of the highest type of American sportsmanship.

Running the full gamut of baseball fame, first as a playing star, later as a coach and manager, Mathewson left the game to answer a greater call during the World war, subsequently fought and won a battle for his life, threatened by after effects of his service, and then capped the climax of his diamond career by returning as part owner and president of a major league club.

But after all the remarkable achievements of Mathewson's career are recounted, the greatest tribute of all will be paid to his wonderful pitching skill. For on the mound he was a master craftsman, the most consummate and brilliant artist of all time, in the opinion of many of the games' closest students.

"Big Six"—a sobriquet contracted from "Big Six Footer"—started his major league career with the New York Giants in 1900, and it was during his 17 seasons with that club that he carved a lasting niche for himself in the twirling hall of fame. Later he became manager for two and a half years of the Cincinnati Reds; served as a captain in the chemical warfare arm of the American Expeditionary Force during the World war; returned from the service to rejoin his old team-mates, the Giants, as a coach; and retired from the game temporarily in 1920, when his health was dangerously impaired. He came back, again hale and hearty, in February, 1923, to accept the presidency and part ownership of the Boston Nationals.

A graduate of Bucknell college, where he was both a football and baseball star, Mathewson broke into the professional game with the Taunton, Mass., club of the New England league in 1899, receiving a salary of \$50 a month for his first season. He lost his first start by a score of 6 to 5 to the Manchester, N. H., club. During the season he won but two and lost nine games, lack of control—a fault he did not overcome for several years—handicapping his effectiveness.

Mathewson, however, was not long in attracting major league attention. Playing with Norfolk, in the Virginia league, in 1900, he won 21 out of 23 games, and was obtained by the Giants who turned him back after a brief try-out, for more seasoning with the Southern club. Later the same year he was drafted by Cincinnati, but soon afterward was sent to the Giants in a deal by which the Reds secured Amos Rusie.

Matty's first major league appearance was in the role of relief pitcher in a game lost by the Giants to Brooklyn. He had but

indifferent success as a pitcher and utility player until 1902, when John McGraw succeeded Horace Fogel as manager of the Giants. "Big Six" was playing first base at the time but McGraw quickly recognized his pitching ability, and took him in hand. His strides toward greatness dated from that period.

Helped Win Five Pennants. Feats of pitching brilliance too numerous to catalogue filled Matty's record during the dozen years in which he ranked consistently among the most effective twirlers in the major leagues.

He was a prominent factor in the notable victories of the Giants in 1904, 1905, 1911, 1912 and 1913; he twirled two no-hit games, one against the St. Louis Cardinals, in 1901, and the second against the Chicago Cubs in 1905; he held the record for the longest major league record of winning more than 20 games three seasons in a row, but his greatest achievement was in the world's series of 1905 when he pitched three shut-out victories against the Philadelphia Americans.

McGraw ranks Mathewson's feat in the 1905 series as the greatest in his memory. All five games in that series were shutouts. Joe McGinnity twirling the fourth victory for the Giants while "Chief" Bender blank the giants for the only triumph scored by the Mackmen. Mathewson had the misfortune to lose two of the most important games of his career, the play-off contest with the Chicago Cubs for the pennant in 1908 and the deciding game of the world's battling with the Boston Red Sox in 1912. Breaks of the game played a big part in both defeats. Misjudgment of a fly by "Cy" Seymour, Giant outfielder, was blamed for the defeat by the Cubs while a costly error by Fred Snodgrass turned the tide against the Giants and Matty in the struggle with the Red Sox.

Great Rivalry Recalled. Mordecai (Three-fingered) Brown, of the Cubs, was Matty's greatest rival on the mound and the two had many stirring duels. Brown was Matty's opponent when the latter pitched his no-hit game against the Cubs in 1905 but conquered his New York rival in the famous 1908 play-off game. It was stated that one season when the Giants and Cubs were battling for first place, President Taft, an ardent fan, had his private car attached to the train bearing the New York team to Chicago in order to see Mathewson and Brown oppose each other in the opening game of a series.

Oddly enough, both of these great pitchers, closed their major league careers as players by opposing each other in a game on September 4, 1916. Mathewson then was manager of Cincinnati, and the Reds won, 10 to 8, both "old masters" being hit freely.

Injury Halts Pitching Career. Mathewson suffered a shoulder injury in 1914 which virtually ended his career as a regular on the mound. He pitched infrequently thereafter and persuaded McGraw to let him go to Cincinnati during the middle of 1916 to fulfill his managerial ambition. In the deal by which Matty went to the Reds, the Giants also gave Eddie Roush and William McKechnie in exchange for "Buck" Herzog, retiring Cincinnati leader, and Wags Killefer.

The Reds finished last in 1916 but improved rapidly under Matty's leadership, landing fourth place in 1917 and third place the following year, his last with the club. Mathewson responded to the call to war at the close of the abbreviated season of 1918 and served with distinction overseas. He returned to become a coach with the Giants, holding that post until 1920, when he became seriously ill from the effects of being "gassed" during the war and faced a battle for his life with tuberculosis.

Displaying the courage which won him many diamond victories, Matty fought and won the battle for his health during nearly three years of treatment at Saranac Lake, N. Y. Pronounced practically cured, he returned to New York in the fall of 1922 to witness the world's series triumph of his old team-mates, the Giants, over the New York Yankees.

Heads Boston Club. Restored in health, Mathewson was eager to get back into the game and when early in 1923, an old friend and admirer, Emil E. Fuchs, prominent New York attorney, engineered a deal by which a New York syndicate obtained control of the Boston Braves from George W. Grant. "Big Six" was persuaded to take the club presidency.

Mathewson thus took his place among the few playing stars who rose to executive power in the game, a list which included Charles Comiskey, of the Chicago White Sox; Clark Griffith, of Washington; Branch Rickey, of the St. Louis Cardinals; John McGraw, of the New York Giants; Jimmy McAleer, A. G. Spalding and John M. Ward.

McGraw's Tribute. Mathewson, baseball experts agreed, possessed all the attributes of a brilliant moundman as well as those of a great athlete—natural skill, keen knowledge of the sport, generalship and coolness under fire. One of the most popular figures in the history of the game, among players and fans alike, "Big Six" also was a hero and idol to the army of youthful followers of the national pastime.

"Matty was without a peer, either before or since the days he was at the height of his greatness," declared McGraw at one time in paying tribute to the pitcher. "He had a variety of variety of stuff than any I ever knew or handled," he continued. "His fast ball was the equal of Walter Johnson's or Amos Rusie's; his curve rivalled Nap Rucker's; he had the 'fadeaway' down to perfection; and he utilized his knowledge of batsmen with greater effect than any twirler in the game. He possessed wonderful control, re-

markable fielding ability and was one of the finest sportmen the game has ever known."
