POMONA GRANGE

WANTS TO RESTORE CO. FAIR GROUNDS

Douglas County Pomona Grange met with the Drain grange in an all-day session of Saturday, October 10.

During the business session in the morning, several resolutions were adopted, among which were the following: Endorsing the action of the 1924 session of the state grange in permitting the Oregon Grange Bulletin to accept political advertising during the coming campaign; that the next meeting of the Douglas County Pomona shall be held in the city of Roseburg at some hall not yet decided upon, and that the Pomona degree team shall exemplify the work of the Pomona degree, the team to be under the guidance of the Lecturer, Mrs. Henry Landers, of Evergreen Grange.

This latter motion was adopted and must be carried out before the Oregon State Grange can be invited to meet at Roseburg, as it is an unwritten law that the state grange, with its attendance of from 800 to 1000 will not meet in any city unless either some subcommittee of the Pomona grange is able to put on the Pomona degree in an acceptable manner.

After the beautiful dinner provided by the ladies of the grange, Mrs. Anna Keuse, lecturer of Drain grange, took charge of the program, which opened with songs by the members and a special chorus.

Considerable discussion of the proposed enlargement of the territory of the Pomona and the forming in the north end of the county of a super road district took place, and the majority of the members of Drain grange are opposed to throwing most of that end of the county into one large road district.

The question of a public market for Roseburg was discussed, and also the proposed increase in freight rates being demanded by western roads, and the benefits derived by the members of the Pacific Wool Growers' Association and the poultry association was also explained by those present who are connected with these successful cooperative organizations.

A committee composed of C. H. Bailey, Prof. Goff and H. B. Echeverria was appointed to obtain from Professor Scudder of O. A. C. information concerning the demonstration farm located east of Roseburg and see if the farm cannot be purchased for its original purposes, that of county fair grounds.

This committee was also instructed to interview the county court to ascertain how much, if any, of the state fund for fairs is still in the possession of the court and to obtain, if possible, the balance of this fund for the purpose of holding a potato and corn show in Roseburg in November.

W. C. T. U. MEETS AT PRESBYTERIAN CHURCH ON FRIDAY

The W. C. T. U. convention will be held at the Presbyterian church Friday. A good program has been prepared, and at the noon hour a number of short talks will be given by Roseburg men. Dr. Louis Albert Banks will be toastmaster. A splendid evening program has been outlined, and silver and gold medal contests have been prepared for the children of Roseburg and Myrtle Creek. The members of the Loyal Temperance Legion of Canas Valley will present a play.

The public is invited, and each person is requested to bring lunch for two. Coffee will be served by the Roseburg union. Mrs. C. M. Page is chairman of the luncheon committee, and assisting her will be Mrs. Louise Kohlhaas, Mrs. J. C. Arthur, Mrs. L. L. Rodie, Mrs. G. W. Young, Mrs. A. T. Lawrence and Mrs. Horace Berg.

WOMAN'S CLUB GIVES LARGE SUM TO CITY LIBRARY

The Roseburg Woman's Club in its regular meeting appropriated the sum of \$500 from its treasury to aid the library board in the purchase of new books. In spite of the fact that the club is giving a great deal of thought to its financial condition, preparing to start work soon on a new club house, the women have always been very active in their support of the library, their club house site having originally been offered to the city as a site for a library building. In continuing this support they are working to increase the volume of books and the appropriation made in their meeting will be used for that purpose.

Plans for the construction of their building are proceeding rapidly and their bond issue will soon be floated. Attorney Carl Wimberly has been retained to attend to the legal affairs in connection with the bond issue, which will be in the sum of \$15,000 and which will be used for the construction of the proposed building. Corporation papers are now being drawn up in order that the club may legally issue the bonds, which will bear a legal rate of interest and will be a good investment.

The membership drive is to start within a short time under the direction of Mrs. H. R. Nerbas. The membership committee expects to make a thorough canvass of the city in their drive for new members for the club.

The club is also active in preparing for the annual fall flower exchange which is to be held at the Chamber of Commerce office on Friday and Saturday. This is always a popular event, providing as it does a place where residents may find cuttings, slips or bulbs of choice flowers and shrubs for the beautification of their yards.

Another event the club is sponsoring is the Halloween ball, which will take place on October 31. This will be a very enjoyable social occasion, the proceeds to go to the clubhouse fund.

LUMBERMAN GOOD S. P. WITNESS AT PORTLAND HEARING

(Associated Press Local Wire.) PORTLAND, Ore., Oct. 12.—Testifying today for the Southern Pacific in the hearing before Charles D. Mahaffey, director of finance of the interstate commerce commission, H. D. Mortenson, president of the Pelican Bay Lumber company, said that lumbermen of the Klamath basin and business men of Klamath Falls prefer the completion of the Southern Pacific program over the promised competition from the northern lines.

Mortenson said he spoke for 14 or 15 of the 20 mills now actually cutting.

"If the Southern Pacific goes through and gives us the outlet to the coast as planned," said Mortenson, "we think that program will be sufficient for our needs."

"It that program more desirable than having the Oregon Trunk line in there?" asked Ben C. Day, counsel for the Southern Pacific.

"As an alternative," answered Mortenson, "certainly we would prefer one real strong development into effect. We do not think any more necessary. It is generally conceded by all Klamath Falls business men, I have talked to, that the building of the Modoc Northern, which is a new line to the east, is the most needed."

Mortenson declared that if all the mills promised in connection with both Southern Pacific and Oregon Trunk development began cutting this month it would mean 25,000,000 feet to 30,000,000,000 feet of timber in the district in 25 to 30 years.

It would take from 50 to 75 years of reforestation, with government aid, to reproduce one third that much marketable timber in the same territory, he said.

The referee halted the match to save Solomon from further punishment after he had been knocked down three times in the eighth.

OPPOSES BOXING COMMISSION

Editor News-Review: The city council, in allowing prize fighting has put Roseburg on the map in an undesirable way.

The fact that the last legislature made it legal is no excuse, and it was certainly hard pressed for something to do, if this was classed as constructive legislation during the moral atmosphere that the devil himself would delight in.

With numerous churches, with their splendid influence for good, with clubs, with mottoes of "We build" and "We serve," with a Chamber of Commerce devising ways and means of attracting newcomers, it is hard to understand how such a blunder could have been made.
