OREGON STILL LACKING IN DEPENDABLE BACK FIELD

EUGENE, Ore., Oct. 15.—Hard scrimmage sessions for the University staff drills offensive play into the minds of the players. Tomorrow there may be a slight let up in the scrimmage, to allow a slight rest before the game with Pacific University here Saturday, but today the same hard grind is on tap.

Experiments continue with new backfield combinations, adding further to the rumors of a shakeup in the lineup of backs.

Lynn Jones, all-coast fullback, has been out of the lineup since the Idaho game last Saturday because of an injured wrist.

JAPAN TO ERECT HOSPITALS WITH DISASTER FUNDS

TOKYO, Oct. 15. — Construction of the two large memorial hospitals in Tokyo and Yokohama with the remainder of the proceeds of the fund raised in the United States by the American Red Cross for earthquake relief following the catastrophe of 1923 will be commenced early next spring. The amount to be expended on the hospitals is approximately 8,500,000 yen.

For the Tokyo Fraternity Memorial Hospital a site valued at 625,000 yen has been purchased in Honjo and the Fraternal Memorial Hospital Foundation has begun the work of training 100 nurses who will be used in the new building. The hospital building and its equipment will cost about 2,375,000 yen and the Foundation has set aside 4,000,000 yen as an operating reserve fund. The building and equipment of the memorial hospital to be established at Yokohama will cost 500,000 yen and this institution will have double this amount as its reserve fund.

The building for the memorial hospital in Tokyo will be of iron and concrete structure and is designed to be proof both against fire and earthquake. It will be completed within two years. The Hospital Foundation has been ready for some time to proceed with the building, but the work has been held back pending the completion of the adjustment of the sale of the land which will be effected before the end of the year by the Reconstruction Bureau, according to the authorities.

The American Red Cross Society transmitted to the Fraternity Memorial Hospital Foundation $3,000,000 last year and $500,000 later. At that time, the American organization suggested to the Japanese authorities that the fund might be used for the establishment of a memorial hospital since the funds for relief work were no longer needed. While the offer was made unconditionally, the Japanese officials concurred with the suggestion coming from the American Red Cross headquarters. Since the remittance, the fund has been swelled by interest and by the time the hospitals are completed, more than 500,000 yen will have accrued in this way.

ENGLISH BARRISTERS TO REVIVE MOOTS TO AID YOUNG COUNSEL

LONDON, Oct. 15.—(A. P.)—A revival of the old custom of holding "moots" in the Middle Temple is being planned for November.

The moot is a mock trial designed to give men in the legal profession—and now women—the opportunity of arguing legal problems arising from established facts, in the form in which cases are argued in the court of appeal. Two counsels are assigned for each side and when they have put their case, the judge gives judgment. Justice Sankey has promised to preside over the first moot.

This is considered to be one of the best methods of giving junior counsel an opportunity of putting and arguing a case, as well as gathering hints regarding procedure, and pitfalls to be avoided when taking a legal case into the glare of a public court.

DEATH RATE AMONG INFANTS ALARMS JAPANESE GOV'T.

TOKYO, Oct. 15.—(A. P.)—The death rate of infants in Japan is on the increase, principally because of the inefficiency or relief and sanitary measures. Official statistics disclose that more than 1,300,000 babies die in the empire every year. In the light of these facts the home ministry has decided on the establishment of sanitary stations in every city throughout the country in which the population is more than 50,000. It is expected that more than 3,000,000 yen will be expended in this work. Physicians and nurses will be on duty at each of these stations.

STUDY OF CASE OF INSANE ANT RECORDED BY NERVE SPECIALIST

ZURICH, Oct. 15.—The story of a demented ant is recorded in the Swiss Archive for Neurology and Psychiatry with all due scientific seriousness by Dr. Rudolph Brun, widely known nerve specialist.

The ant was discovered in one of the artificially constructed nests for scientific observation. The insect ran about incessantly while others remained quietly in the corners of the nest, apparently shunning the demented one. The momentum of the wildly rushing ant was such that it was unable to stop when anything in its path was encountered.

After six days the ant was dissected, and under a microscope, it was found to have suffered a tumor in the left lobe of the brain, which had destroyed several of the most important centers.

TELEPHONE SUPERVISOR

Tells of the Benefit Received by Taking Lydia E. Pinkham's Vegetable Compound

Leavenworth, Kansas.—"My work was long-distance operating and supervising, and I got into a very nervous state and was all run-down. I was easily annoyed at trifles, was extremely nervous and always had a tired feeling which made me awfully listless. Through a newspaper I learned of Lydia E. Pinkham's Vegetable Compound and thinking it would help me I tried it. It quieted my nerves, I was less annoyed and more lively. It took away that dragging feeling and improved my health in every way. I was able to continue my work with more vigor than before and I recommend the Vegetable Compound to all young girls. I am married now and have a big baby boy and am in the best of health. If I should ever have any trouble I'll take the Vegetable Compound again, for I know it will help me as it did before." — Mrs. O. W. THIEL, 925 Pawnee St., Leavenworth, Kansas.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all these troubles. For sale by druggists everywhere.

SOUTH DAKOTA TO START POLITICAL POT DECEMBER 1

PIERRE, S. D., Oct. 15.—The opening salute of the 1926 national campaign will be fired here December 1, when the political parties of South Dakota assemble to designate their candidates for the United States Senate, congress and state offices.

Few outstanding issues are noted between the republicans, democrats and farmer-laborites, but the republican party itself — which for years has dominated state politics—is divided into factions on participation by the state in private industry.

The progressive wing of the republican party was responsible for the rural credit act, the state cement plant, the state coal mine and state participation in the retailing of gasoline. There is little doubt but that Senator Peter Norbeck and Governor Carl Gunderson, both of whom will seek reelection, will support the state's past record in these activities.

Another wing of the republican party in which Sam H. Elrod, former governor, stands out as a leader, expressed itself as irrevocably against participation by the state in the field of private enterprise.

This faction resolved it would seek to nominate candidates "who will be true to republican principles and who will give support to a republican president.'

On November 10 the people will gather in the precincts to choose their county delegates. These delegates will attend the county meetings November 17, when three proposalmen will be selected. Then on December 1, the county proposalmen—195 in all for each party—meet in Pierre.

The vote of the three county proposalmen depends on the number of votes cast for the party's candidate for governor in the last general election.

The party meetings then select their candidates. If five or more proposalmen disagree, they may hold a meeting of their own and name a "minority ticket." The tickets and platforms are submitted to the counties for ratification on December 22 and individual candidates may file on platforms different from either the majority or minority stands, until January 1, 1926.

The primary election is held March 23, 1926, at which each voter must designate his party affiliation and is given a ballot which contains only the names of the majority, minority and individual candidates in that party.

LOOK OUT FOR SELF POISONING

Neglect of the liver results in self-poisoning! Not so quickly, perhaps, but just as surely as if you drank poison out of a bottle. If your liver is not doing its work of helping digestion, eliminating waste from the bowels and purifying the blood, you will always be troubled with sick headaches, nausea, biliousness, bad breath, gas, sour stomach, or constipation.

Cleanse and tone your liver! Put your system in condition so you feel your very best again! Try just a spoonful of Dr. H. S. Thacher's excellent Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep, look and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost. Dr. Thacher's Liver and Blood Syrup is sold and recommended by Nathan Fullerton, Roseburg. Ore-Drain Pharmacy, Drain, Oregon.

JAPAN COMBATS ILLITERACY

TOKYO, Oct. 15.—During the conscript examination, the authorities discovered that more than 20 per cent of the young men examined for the army were unable to write their own names. Consequently the department of education has decided to establish a system of circulating classes for the illiterate youth of the Empire.

THREE MILLION FASCIST NOW ANSWER MUSSOLINI'S CALL.

ROME, Italy, Oct. 15.—When Benito Mussolini stretches his right arm forward in Roman salute and calls: "Fascists, attention!" the answer "Present!" is a chorus of voices of about 3,000,000 men, women and children.

Here are his figures: 68 Provincial Federations; 6,317 Communal Organizations; 317 National Trade Unions; 18 Children's Organizations; 16 Vanguard Organizations; 590 Women's Groups; 9,000 Men's Groups.

TIRED OF BEING A STENO, SO SHE ENTERED MAN'S FIELD.

LONDON, Oct. 15. — Kathleen Britter has become London's first woman conveyancer. And she does not see why any capable woman could not do her sort of work if she was interested in it.

"The trouble with so many girls is that they get into a groove and stay there," she said. "I got tired of being a stenographer, studied real property and persuaded a firm that was advertising for a male conveyancer that a woman who handled that sort of work for solicitors for years could fill the place as well."

Miss Britter is 24 and has been a business woman for about five years. Her mother was housekeeper for the late Lord Leverhulme, who took an interest in the ambitions of the young stenographer and encouraged her to study law.
