THE AMERICAN YOUNG MAN.

Secretary Wilbur of the navy recently remarked that he was proud of the fine appearance made by the men of this service at the time of the trip of the fleet to Australia. He said that glowing reports were received of the good conduct of the sailors and marines.

Similar remarks have been made many times in regard to the conduct of navy men when they appeared in foreign ports. The men of the United States army on the whole made a very favorable impression in Europe during the war. Of course that force was so great and so hastily assembled, that there was no time for careful training in what might be called the conduct expected of a gentleman. That force had very big tasks on hand, and some matters of conduct had to be considered secondary.

The favorable impressions referred to above, demonstrate the possibilities of American young manhood. They raise the question whether such inspiring influences could not be brought to bear on all young men, that most of them at least would feel all the time the desirability of showing in their home environments the self restraint and high standards which may be developed when young men are given special training.

Every young man ought to be taught to feel a certain pride in his position as an American. He should be shown that this calls on him for a certain fineness and dignity, so that he will hate to lower himself by those actions that are not worthy of the position that is his.

Here is a line of thought that might be recommended to teachers and ministers and those having special contacts with young men. There are millions of them who take naturally to such standards without urging. The time will no doubt come when most American young men will acquire this feeling of pride in their citizenship that will keep them from doing unworthy things.

COMMERCIAL CRIMINALS.

Commercial criminals, who cause an annual national loss of \$250,000,000, are frequently treated so leniently, even when convicted, as to encourage further crimes, according to the National Association of Credit Men, in convention at Atlantic City, last week.

The credit men pointed to the "alarming rise of the criminal tide in recent years," and declared that "a supreme effort should be made by the nation to bring crime of all kinds under control."

To wipe out abuses of the bankruptcy law the association has raised a \$1,000,000 fund and proposes to raise an additional \$1,000,000. A campaign will be undertaken, nationwide in scope, to fight the menace.

The sale of goods on the installment plan for individual consumption or for mere pleasure, is highly dangerous, according to the opinion expressed by the association.

"There has been built up in our country," it was stated, "a large peak of installment credits, and it is wise for our business people to exercise caution, for undoubtedly, in a credit pinch, this condition would prove a very disturbing factor."

"Making it easy for people to buy beyond their needs, or to buy before they have saved enough to gratify their wishes, tends to encourage a condition that hurts human morals and supports a form of transaction for which credit is not primarily intended."

Commander Rodgers, who had charge of the seaplane, PN-9, No. 1, on its memorable flight to Hawaii, has advised the secretary of the navy that he would like to remain on active sea duty with airplanes, instead of being assigned to work in the navy department. Most people, after such an experience, would say that any old job on dry land looked good to them. Commander Rodgers illustrates that finer type of character that looks lightly at danger and privation, and that finds happiness only in activity at the thing it can do best. In these days when people seem to regard hard work as a curse, this spirit is refreshing.

The unchangeable law of supply and demand will demonstrate its effect on prices when the turkey market opens next month. Forecasts are that the crop in Douglas county will be below normal and elsewhere in western localities it will also be short. It is inevitable, therefore, that prices will be comparatively high, assuming, of course, that the demand for the fowls will be fully as brisk as in former seasons. Last year the chief trouble with the market seemed to be the presence of too many birds of inferior quality, or "culs." This year, with far fewer turkeys everywhere, the "culs" will probably have to go along to market with the others if everybody who will want turkeys is to get them.

No aggregation of players in the history of baseball ever showed themselves worthier of the title of world champions than the Pittsburgh Pirates. After first performing a valuable service for the game itself by breaking the National League pennant monopoly of the New York Giants, the Pirates, in order to win the world series from Washington, had to fight an uphill battle against a pitcher who had twice defeated them, allowing them only one run the first time and shutting them out the second. Only a team possessed of a superlative fighting spirit could attain victory with chances so strongly against them, and they are entitled to the fullest praise of all lovers of the grand old sport.

The baseball struggle is over. Now bring on Dawes and the senate.

TO BUILD CHURCH The Bible Standard Mission today secured a building permit providing for the construction of a \$5,000 house of worship at the corner of Main and Chadwick streets. The congregation recently purchased the Lank property on that corner and will move the house back on the lot and use it for a parsonage and will erect a new structure on the corner. The building will be 40 by 60 feet in size with a stucco finish.

State Press Comment

Destroying Home Rule.

Secretary Hoover has issued a protest against the surrender of local government prerogatives to federal authority as "threatening the fundamental freedom and independence that can arise only from local self-government." The protest was made against further extension of powers for federal regulation of public utilities, but it applies to every branch of government, including the activities of Mr. Hoover's department of commerce.

Thanks to the uplifters, reformers, welfare workers, prohibitionists, meddlers and regulators generally, local self-government has been generally superseded by state and federal bureaucracy. This has been stimulated by federal aided projects, such as roads, schools, reclamation, etc., which establish federal control or jurisdiction, and thus destroy state rights.

Since the civil war, the remedy for every evil and every abuse under the sun has been the passage of a law, to curb or regulate it, requiring a bureau to administer, whose main business has been to extend authority. As a consequence we have a plethora of laws and a multiplicity of bureaus. Gradually and insidiously federal power has increased until we are nearing the point of so over-taxing our top-heavy bureaucracy that it falls to function, and threatens a break-down. The example of the federal government has been copied by the states until local rule has almost ceased to exist and state rights have completely gone by the board. This is one of the chief reasons for the increase in crime and for the disrespect of law, which after all rests on home rule instead of long distance control.—Salem Journal.

The Coming Giant.

Negotiations are under way, according to a news dispatch, looking toward the sale of the California Oregon Power company to the Byllesby company of Chicago. The dispatch further states: Acquisition of the holdings of the California Oregon Power company is sought by the Byllesby company as a part of an expansion program by which it seeks to obtain power holdings from northern Washington to Southern California. Its combined project purchases total in the neighborhood of \$100,000,000.

There have been gigantic power purchases in other states. One is now under way in New York. Several others have already been consummated.

Gifford Pinchot has charged that a tremendous program is under way whose purpose it is to control, within a few hands, the electric power of the country. The charges have been denied. The gigantic purchases go on, one after another.

Electricity is rapidly coming into its own. Within a few years it will be the prime power of the nation. On it the heels of industry will mainly depend.

If the power of the nation falls into the hands of a few men, the people of the nation will find themselves at the mercy of Giant Power, and great corporations have very often proven merciless masters.—Portland Journal.

LIGHTING MATCH TO SEE IN GAS TANK GETS USUAL RESULTS

The time honored system of lighting a match to ascertain the amount of gasoline in a tank was followed by its usual results at the Central Garage last night. A motorist stopped his machine in front of the filling pump, and while the gasoline was being pumped in, struck a match to look at the gauge. The vaporized gas instantly ignited, and as the hose was jerked from the gasoline tank the inflammable liquid was spilled over the rear end of the car and the street. Fortunately a freshly filled fountain extinguisher was at hand and the fire was put out before any great amount of damage resulted.

POSSESSION OF LIQUOR RESULTS IN FINES OF \$500

MEDFORD, Ore., Oct. 16.—William McCampbell and William Todd, of Klamath county, charged with the violation of the national prohibition act, was found guilty by a jury in the federal court Thursday afternoon.

The pair appeared before Federal Judge Wolverton this morning for sentence. Both were given fines of \$500—the maximum for first offense, under the federal act. McCampbell was given until tomorrow morning at 10 o'clock to raise the fine.

Todd admitted his inability to gather so much money on short notice and will serve it out in federal prison. McCampbell, besides the \$500 fine, was ordered to pay to the state the cost of subpoenaing and calling four witnesses from Klamath county. The trial of Fred Hodd and wife, and Thurman Jackson and wife, Klamath Indians, charged with grand larceny from the home of C. Knight, was begun in the federal court this morning.

BACK FROM CONVENTION County Agricultural Agent B. W. Cooney and County Fruit Inspector W. S. Carpenter returned last night from Corvallis where they attended the convention of county agents. The meeting was very successful, they report. One of the outstanding features was the all-Oregon banquet where all articles of food served were grown in the state. The Umpqua Chiefs of Roseburg furnished the turkeys for the banquet, which was attended by state and college officials.

JURY HARD TO GET TO TRY KLAN DEFENDANTS

NOBLESVILLE, Ind., Oct. 16.—Vehement insinuations of efforts to approach men who might serve on the jury which will try D. C. Stephenson and two bodyguards for murder of Madge Oberholzer of Indianapolis, are enlivening the slow process of obtaining a jury in Hamilton county circuit court. This was the fifth day of the attempt to fill the jury box.

KITCHEN CUPBOARD

By NELLIE MAXWELL

Some Sandwiches BREAD should not be too fresh to cut well; let the slices lie as cut, matching the slices. For a nice sandwich the crusts should be removed and the sandwiches may be dipped after they are prepared. Cream the butter to soften so that it will spread better, then add any filling desired.

Egg Sandwiches.—Chop the whites of hard-cooked eggs until fine. Mix the yolks with softened butter or with mayonnaise dressing, add the whites and spread on the buttered bread.

Deviled Ham Sandwiches.—Take one cupful of cold boiled ham chopped fine, rub the yolks of two hard cooked eggs until smooth with three teaspoonfuls of melted butter. mix the ham with a teaspoonful of lemon juice and one-fourth teaspoonful of mustard, season to taste and mix all together. Spread on thin slices of buttered bread.

Cheese Sandwiches.—Grate cheese fine, mix with cream or melted butter, add salt and cayenne, and spread on buttered bread.

Water cress and lettuce are both very good in sandwiches; shred both, mix with mayonnaise dressing and place on buttered bread. Scraped onion for flavor may be added.

Chopped green peppers and onion mixed with mayonnaise makes another appetizing salad.

Sliced tomatoes and cucumbers with salad dressing are good.

Chopped meat, nuts, with seasonings, make good filling.

Sweet Sandwiches.—Chopped blanched almonds with scraped maple sugar, softened with cream. Marmalade, jelly or preserves, any of which will spread without running. Cottage cheese and chopped preserved cherries.

Anchovy Sandwiches.—Pound to a paste enough anchovies for the desired number of sandwiches. Add lemon juice and a little mayonnaise to soften.

LOCAL FREIGHT TRUCK DRIVER IS BADLY INJURED

C. W. Pursel of the Roseburg-Medford freight line, was seriously injured yesterday when he was run over by a heavy trailer. He is suffering from a crushed arm and chest and torn ear and is in a very serious condition.

Mr. Pursel and his brother were on their way to Roseburg from Medford when they were halted by a couple of transients. Thinking that the men had "hopped" the trailer, which was being towed behind the freight truck, Mr. Pursel jumped off the slowly moving vehicle to put them off, as the state law prohibits passengers riding on the freight truck.

As he jumped from the running board his foot slipped and he was thrown to the pavement. The wheels of the trailer passed over his left arm and a portion of the left side of his chest, mangleing him badly. It also caught his left ear which was torn almost off.

The accident happened a short distance from Canyonville, where a touring car was procured to bring the injured man to the Roseburg hospital where he was attended by Dr. Stewart. The extent of the man's injuries could not be determined as he is suffering from shock and is being given a rest before any extensive examination is conducted.

AGGIES HAVE LOTS OF MATERIAL FOR WHITMAN BATTLE

CORVALLIS, Ore., Oct. 16.—One backfield and one line change in the first team are shown in the Oregon Agricultural College starting lineup against Whitman in Portland tomorrow as announced this morning by Coach Schisler. One change is due to an injury to Robbins end, in the Gonzaga game, and the other to the re-organization of two backfields into heavy and light quartets.

The starting lineup will be: Ward, lb.; Liebe, lt.; Bradley, lg.; Balcum, c.; Richards, rg.; Dickerson, rt.; Logan, re. Backfield heavies: Edwards, q.; Schulmerich, lb.; Denman, rb.; Snider, f. Denman, Snider and Schulmerich can kick or run with the ball more than average success. Substitute lineup on line will be: Carr, lg. or Savery, lt.; M. Dixon, lg.; Wermack, c.; Olmsted, rg.; Paine, rt.; Ploehart, Patrick or Jarvis, re. In the backfield will be Lauster, q.; Quinn, lb.; Luby, rb. and Bell, f. Two lettermen are in this backfield and two are on the line, making the team not a "second string" in the usual sense. Luby will probably do the kicking for this light, speedy combination. The team leaves this afternoon for Portland.

FLOWER EXCHANGE SALE LIBERALLY PATRONIZED

The Flower Exchange sale, held today and Saturday at the Chamber of Commerce is being liberally patronized by Roseburg. This is the fourth annual sale, and the idea of the Roseburg Woman's club in holding it is to continue interest in the city beautiful movement.

The committee is booking orders for December delivery of several varieties of roses, among them the Hoosier Beauty, Gen. McArthur, Golden Emblem, Lady Hillington, Frau Karl Druschki and also orders for the Oregon grape will be received. There are many varieties of fuchsias, spiraeas, iris and peonies for sale and those who have not already booked their orders and wish to do so, will have the opportunity to get their varieties tomorrow, as the sale will be continued until tomorrow night.

ITALIAN PRESS CENSOR ASKED TO CONDEMN EARLY

ROME, Oct. 16.—(A. P.)—Italian newspapers allied politically with the parties opposing the present Fascist government, whose daily destinies are at the mercy of the press censor, have addressed a plea to the censor that "he condemn them quickly if he intends to condemn them."

The press law provides that the censor approve each issue of each newspaper, the penalty being suppression of the edition if anything is found objectionable.

Recently the censor changed his office hours so that he did not examine the newspapers until several hours after their appearance. The result was that condemnations came so tardily that the newspaper was unable to print a later expanded edition, as was previously the custom. Consequently all the copies of the newspaper were seized and the regular readers had no copies at all.

"Please, Mr. censor," the newspapers said, "would you mind condemning us quickly if you intend to at all?"
