3 AGGIE PLAYERS ON INJURED LIST

CORVALLIS, Ore., Oct. 20.—Behind locked gates the Oregon Agricultural college football team worked for two hours last night perfecting plays which they hope will bring victory over Stanford Saturday.

Against this gloom is the recovery of Jim Dixon, giant running mate of Dickerson, at tackle. He has been working lightly with the squad for a week, and will be in top form Saturday.

Our line is full of pretty new rubber aprons. Make your selection early. Lloyd Crocker.

VICE-PRESIDENT McCANN, SHEVLIN-NIXON CO., DIES

BEND, Ore., Oct. 20.—Word has just been received here that Thomas A. McCann, vice-president of

the Shevlin-Nixon company and of the Shevlin, Carpenter, and Clarke company, died suddenly this morning in Minneapolis. McCann, who was the first general manager of the Bend mill, was a nephew of Thomas Shevlin, founder of the lumber company which bears his name. McCann was about 28 years old.

Black enameled, standard size and quality lunch kit at 59c. Best American made vacuum bottles at \$1.00. That's one of Carr's star bargain items. Come in and save.

ASTORIA WINS IN SUIT COMPELLING COUNTY ROAD TAX

SALEM, Ore., Oct. 20.—The City of Astoria today won in the supreme court its mandamus proceeding against Clatsop county to compel the county court to levy a road tax, a part of which would be available for use by the city.

The opinion, written by Justice Bean, is a reversal of Judge J. A. Eakin of the lower court for Clatsop county.

The law involved in the case provides that 70 per cent of the levy shall be apportioned to the several road districts, including districts composed of incorporated cities and towns in such proportion as the amount of taxable property in each district shall bear to the whole amount of taxable property in the county, and the remaining 30 per cent shall be applied to roads in such locality as the county court may direct.

The county's brief alleged defective title to the act, which contention is not upheld by the supreme court.

The money accruing to the city under the law may be used for street building and maintenance.

11 POLE FIRMS PAY \$37,300 IN FINES UNDER TRUST LAW

SPOKANE, Wash., Oct. 20.—Pleas of guilty to a federal indictment charging violation of the Sherman anti-trust law were entered in United States district court here today by eleven red cedar pole manufacturers of the United States and lines aggregating \$37,300 were assessed by Judge J. Stanley Webster. The defendants and the amount of their fines were:

Linsley Brothers, Spokane; National Pole Company, Escanaba, Mich.; A. T. Naugle Pole and The Company, Chicago; Page & Hill Company, Minneapolis and Spokane; Valentine Clarke Company, St. Paul and Spokane; B. J. Carney Company, Grinnel, Iowa and Spokane; McMillan-Gibbs Company, Milwaukee; \$5000 each, the maximum provided by law; Saw Point Lumber and Pole Company, Troy, Mont., \$2,000; Loet Creek Cedar Company, Ione, Wash.; E. T. Chapin Company, Spokane; Metropolitan Cedar Company, Spokane, \$100 each.

The indictment, returned here December 29, 1924, charged that the defendants since March 1915 had sold 70 per cent of the red cedar poles marketed in the United States and had controlled 50 per cent of the stocks of such poles.

Maintenance of prices and exchanges of market information, it was charged, had been effected through operation of the Western Lumber and Pole company, the Western Red Cedar association and the Western Red Cedar mens information bureau, all located here.

WHY MANY WOMEN PREFER AUTOS TO A MODERN HOME TOLD

NEW YORK, Oct. 20.—Escape from the monotony rather than the drudgery of the housewife's lot has caused her to choose luxuries instead of conveniences, concludes the General Federation of Women's Clubs after a canvass on "What women want in their homes."

The average American housewife prefers an automobile and a telephone rather than modern plumbing arrangements in her home, because "these offer relief from a monotony that has driven many of her predecessors into insane asylums."

The Federation's findings were written by Mrs. Mary Sherman, national president, in the Women's Home Companion.

"The housewife does not mind washing stacks of dishes under the glow of an electric globe, but the task doubles or triples if she must do it by the smoky dim light from a kerosene lamp," said Mrs. Sherman. "She does not mind sweeping the lower floor of the house if she knows that at the end of her task she can sit down and chat via the telephone with a neighbor five miles away, and she will beat rugs for an hour— if the evening brings the relaxation of an automobile drive."

While 65 per cent of a large number of homes investigated were found to have inside sanitary arrangements and 55 per cent of them had bathtubs, 79 per cent of these families had automobiles and 68 per cent of them were equipped with telephones.

The research made by the Federation covered 445,987 homes scattered through 237 communities. In 40 per cent of the homes it was found that there were no stationary washbasins, and water had to be carried in and out, and 25 per cent of them were not even equipped with kitchen sinks.

But 87 per cent had electric lights and 73 per cent were equipped with electric irons.

Radios were found in 17.6 per cent of the homes, pianos in 46 per cent, phonographs in 56 per cent.

In discussing the high percentage of homes equipped with automobiles and telephones but not with plumbing, Mrs. Sherman declared:

"Sentimentalists will say that the fault lies with the men. We club women who study conditions from the inside of the home understand the situation better. Women no longer undervalue their services in the home. They run their homes on the budget plan and have personal allowances to spend, as they have

OREGON WORKS HARD FOR SATURDAY GAME

EUGENE, Ore., Oct. 20.—Of 21 Eugene, the University of Oregon football players themselves cling to the greatest hope to hold California when the 100 teams meet in Porterville next Saturday. Some of the fans are weakening, concluding that California has a chance to stop Oregon under, but the Webfoot team is contesting nothing at all.

The team is drilling hard to get into shape for the Californians. The weather is abiding, and Coach Dick Smith is driving his men hard.

With the initial meet with the University of Idaho but 19 days away, the University of Oregon cross-country team is working out steadily. Twenty men are trying out for the five places on the team.

A GOOD PLACE TO EAT Come to the armory on Saturday, Oct. 24th, and get a square meal. Given by the Catholic ladies.

RIDES HORSE FROM BUENOS AIRES TO PROVE NATIVE TYPE OF ANIMAL

BUENOS AIRES, Oct. 20.—A former English schoolmaster is making the long ride by horseback from Buenos Aires to New York in order to demonstrate the endurance and hardihood of the Argentine type of horse.

F. A. Trachsel left here April 21 and four months later had reached Bolivia. Writing to friends here, he said the animals were in better condition than at leaving Buenos Aires.

TAXATION VIEWS BEGIN TO POUR IN ON CONGRESS BODY

WASHINGTON, Oct. 20.—With the administration's tax reduction proposal as a starting point, the house ways and means committee today listened to advices of various organizations of citizens on many disputed features of the tax legislation that is to be presented at the next session of congress.

The national association of manufacturers, the retailers national council, the Texas tax clubs, the New York board of Trade and the real estate board of New York, all were allotted time to present their views at today's committee session. Passing over for the moment Secretary Mellon's suggestion for a reduction of income taxes all along the line, the committee men first heard representatives of the Texas tax clubs endorse the secretary's proposal for repeal of the federal inheritance or estate tax.

Speaking for a delegation of 18, Lee Satterwhite of Amarillo, speaker of the Texas house, said the state of Texas felt it should have sole jurisdiction over inheritance taxes within its borders. Texas not only needs that source of revenue, he said, but the present federal inheritance levy is proving almost confiscatory.

After several other members of the delegation had made similar statements, Representative Garner of Texas, ranking democrat on the committee, said he had never heard of the Texas tax clubs, until the delegation came to Washington, and asked several questions as to its purposes. Frank Kell, one of the Texans present, said he had contributed \$200 to the club, in the interest of good business.

AUTOIST AT HIS RADIATOR KILLED BY ANOTHER CAR

LA GRANDE, Ore., Oct. 20.—James Romig, 27, of Baker, was instantly killed last night when struck by an automobile driven by C. H. Getchell on the Old Oregon Trail near Hot Lake, Oregon.

According to officers who investigated the accident, Romig had taken a friend to Hot Lake after an evening spent in La Grande. He was returning to La Grande when he stopped the machine. Presumably he was putting water in the radiator when Getchell's car struck him.

Coroner Ralston said an inquest would be held late today. Romig, who was a surveyor for the Central Railroad of Oregon, with headquarters at Union, Ore., was the son of Mr. and Mrs. James Romig, of Baker.

FLASHES OF LIFE

PHILADELPHIA — Smedley D. Butler says the town is "submerged in crime and filth."

NEW YORK — The wartime story that Germans boiled dead soldiers to make fertilizer is now revealed by the author as British propaganda. Brigadier-General J. V. Charteris, of England, said in a speech here that he started the tale to influence the Chinese.

MOSCOW — Men and women members of parliament have had a lively debate as to causes of broken homes. Each side blames the other.

NEW YORK — Thirty-five wealthy bachelors in the Piping Rock set are to give a ball and the debutantes are delighted.

KANSAS CITY — Secretary Hoover thinks the population of the United States is likely to increase 40,000,000 in the next 25 years. He said so in an address here.

NEW YORK — Samuel Baron, 87, and Mrs. Jennie Singer, 85, have been married. It is the third time for each. They have nine great grand children. They met three weeks ago, when he saved her from being hit by a motor truck.

NEW YORK — The Scientific American tells of the failure of its investigators, after nearly a year's search, to turn mercury into gold, as Professor Adolph Miethe, German chemist, declares he has done.
