CAILLAUX NOT IN FAVOR OF HIGHER INSTALLMENT PLAN

(Associated Press Special Wire)

PARIS, Oct. 22.—Belief that a new plan which Finance Minister Caillaux proposes to submit to the American debt commission would involve larger annual payments than previous French proposals was general in political circles today.

On the other hand it is known that M. Caillaux feels that even the temporary arrangement offered by Secretary Mellon would be better than any plan involving higher payments unless such a plan carried some sort of insurance against the crippling of French financial resources. In view of the fact that many members of the French parliament are vigorously opposed to the temporary arrangement which M. Caillaux brought home from Washington, this arrangement will not be submitted to parliament. Instead, there will be a new proposal which is expected to be a definite refunding measure covering 62 years.

This proposal will be forwarded shortly, probably soon after the reopening of the chamber of deputies next Thursday.

Although at the recent radical congress in Nice, there was some demand that France should undertake to pay no more on her war debts than she received in German reparations the belief prevails that M. Caillaux will not consider this when he next approaches Washington and also that he will not attempt to couple up war debt payments with reparations.

CHARGES AGAINST GENERAL WM. H. HART FALL FLAT

WASHINGTON, Oct. 22.—The charges filed against Major-General William H. Hart by Major-General Harry L. Rogers, retired, have disclosed to the investigating officers no basis for further proceedings.

The charges, filed with the war department, alleged that General Hart caused the publication of a magazine and newspaper article derogatory to General Rogers for the purpose of preventing the latter's re-appointment as quartermaster-general. General Hart succeeded to that post.
