## GREEKS BOULGARIAN CITY OF PETRICH

### Bombardment From Air and Land Compels Flight of Inhabitants.

## NO FURTHER ADVANCE

### Invaders Await Action of Diplomats—League of Nations Acts to Stop War.

(Associated Press Leased Wire.) ATHENS, Greece, Oct. 23.—Greek troops having "attained their objective, by advancing into Bulgaria as far as Petrich," says a communique this morning, "the military operation may be considered as ended."

The incident now enters a purely diplomatic phase in which Greece will continue to insist upon satisfaction for the alleged Bulgarian aggression of last Monday in the Demirhisar region.

VIENNA, Oct. 23.—The Bulgarian minister here said that he had received news from Sofia that the Greeks had destroyed Petrich and that they did not enter the town, but were pushing rapidly northward.

Counter Claims Confusing. PARIS, Oct. 23.—The machinery of the League of Nations was set in motion today in an effort to prevent another Balkan war.

M. Briand, as the presiding officer, has summoned the League council to meet here next Monday and investigate the cause of the dispute which suddenly flared up between Greece and Bulgaria early this week.

The fighting started on Monday in the frontier region of Demirhisar, but the mass of officials and semi-official claims and counter claims which have emanated since from Sofia and Athens have failed to establish which side was responsible.

The fact remains that hostile forces are facing each other in the valley of the Struma river, which flows southward across the international boundary and into the Aegean sea; that villages and towns have been bombarded, and that blood has been spilled.

Advices from trustworthy sources indicate that the town of Petrich, in Bulgarian territory, has been occupied and that a number of other towns in the Struma valley have been at least menaced by Greek troops.

A Greek official communique admits the entry of Greek troops into Bulgarian territory, but says the move was of strategic necessity to prevent further incursions of Bulgarians on Greek soil.

## Petrich Reported Burned.

From Sofia comes the word that the Greeks are advancing on a 15 kilometer front on both banks of the Struma and that in addition to the use of artillery, airplanes have bombed the bridges, barracks, roads and stations.

Advices reaching Vienna declare Petrich, a Bulgarian village, crowded with Macedonian refugees, has been finally abandoned in flames and that other towns, including Mareskostovo and Maripole are under bombardment.

The capitals of the neighboring countries display grave concern.

## Will of James B. Duke, Disposing of \$150,000,000, Probated While Wife No. 1 Lies at Death's Portal

(Associated Press Leased Wire.) NEW YORK, Oct. 23.—A bequest of \$10,000,000, to be administered by the Duke endowment, was made in the will of the late James B. Duke, tobacco magnate, in his will filed for probate today at Somerville, N. J.

The will directed that \$4,000,000 of the \$10,000,000 bequest should go to the construction and equipment of a medical school, hospital and nurses' home at Duke University, at Durham, N. C. The will does not reveal the total value of the Duke estate, which has been variously estimated at sums as high as \$150,000,000.

The will gave Mrs. Nanaline H. Duke for life the Duke Fifth avenue property, "Rough Point" at New Port, R. I., and "Lynwood," at Myers Park, N. C. She is a second wife married in 1907.

The same property goes to Mr. Duke's daughter, Doris, at the death of her mother. The Duke Farms company, a New Jersey corporation, was ordered dissolved and the funds realized to be distributed to the shareholders.

## SEATTLE CROOKS 'RABBED AT DRAIN IN STOLEN AUTO

(Associated Press Leased Wire.) SEATTLE, Oct. 23.—All Ben Lowery and Alfred Trimble, alleged members of a gang who have committed numerous burglaries in and around Seattle recently, were arrested by C. L. Gibson, a Seattle detective, in the post office here yesterday as Lowery asked for mail under the alias of "Fred Cox." The men drove to this city in a stolen automobile, and Gibson started north with the pair in the car immediately after the arrest. Gibson came to Drain on a tip that the men were traveling southward in the car and would stop at Drain to ask for mail. He is the officer who a few years ago killed the burglar who robbed the John Hedden store at Scottsburg when the burglar fired two shots at him in an old blacksmith shop at Warrenton, Wash., across the Columbia river from Astoria.

## SWINDLER GIVEN PAROLE ON PLEDGE TO REPAY VICTIMS

## Scion of Prominent Boston Family Leaves Bend to Wed Girl Waiting at Pasadena.

(Associated Press Leased Wire.) BEND, Ore., Oct. 23.—Robert A. Winthrop, sentenced to three years in the state penitentiary and then paroled to the district attorney on his promise to repay the money he had defrauded and Deschutes county for the expense of bringing him from here to Pasadena, Cal., left yesterday for the Southern California city.

It is understood from a remark made by Winthrop in the court room before being sentenced that Edna Grundy, Pasadena heiress, will await his postponed wedding day.

District Attorney Moore revealed at the time of sentence that six of the seven grand jurors had voted to recommend leniency to the court and Moore himself suggested a parole following a sentence which would run one year beyond the time given Winthrop to repay the money. F. M. Cleaves, one of the parties defrauded, testified that previous to this occurrence he had always found Winthrop most trustworthy and was more surprised than hurt by the transaction.

Winthrop is given 18 months in each case to make restitution, the amounts being \$805.15 to the Bend Garage company, \$522.35 to Cleaves and \$139 in each case to Deschutes county. During the term of the parole Winthrop must remain a law abiding citizen, refrain from the use of intoxicants and drugs and make monthly reports to the district attorney.

Winthrop is a member of a socially prominent Boston family and was formerly employed in and around Bend as an engineer in railway construction work. After decamping from Bend several weeks ago he went to Pasadena and was arrested on the eve of his marriage to a prominent society girl of that city. A number of prominent Bostonians had journeyed to Pasadena on invitations to attend the wedding.

Books on political economy and sociology are given preference. Other very popular sciences are chemistry, astronomy and biology.

## ABERDEEN STRIKE ENDS

ABERDEEN, Wash., Oct. 23.—The strike of 1500 workmen in six Aberdeen saw mills, in progress nearly four weeks, ended last yesterday when strikers in mass meeting voted to return to work under a minimum wage of \$3.75 per day. The new scale represents an increase of 50 cents per day for minimum paid workers, but is a compromise over the strikers' original demand for a horizontal 50 cent increase for all workers.

(Associated Press Leased Wire.) PORTLAND, Ore., Oct. 23.—The University of California's football team is here today preparing for the clash tomorrow with the University of Oregon on Multnomah field.

Andy Smith planned to give his golden bears a workout today on the field where the battle will be fought. He reported his men in top notch condition, with the exception of Tut Inlay, who was injured in the game with Santa Clara. Inlay, however, is expected to play at least a part of tomorrow's game.

Weather Favors O. A. C. CORVALLIS, Ore., Oct. 23.—Change in climate which ordinarily works against northern teams playing in California is not expected to be an important factor in the Oregon Agricultural college-Stanford game at Palo Alto Saturday. The Aggies will take the field in light white jerseys. Added to this change is the fact that this fall has been unusually warm and dry here, so that the entire squad is accustomed to playing in the heat and glare of bright sunshine.

The heavy backfield combination of Snider, Schumacher, Deaman and Edwards will start against Stanford and probably carry the brunt of the entire battle.

(Associated Press Leased Wire.) SALEM, Ore., Oct. 23.—In what is believed to be the first instance of such a procedure in the history of the Oregon courts, a chiropractor was placed on the witness stand here this morning to testify as to the sanity of James Willos and Ellsworth Kelley, on trial for the murder of Guard John Sweeney in the prison break of August 12.

## PROJECTED PONY RACE PROTESTED BY HUMANE BOARD

Paved Highway Portland to Salem No Place to Run Horses, Governor's Office Told.

(Associated Press Leased Wire.) SALEM, Ore., Oct. 23.—Colonel E. Hofer of Salem, president of the Oregon Humane Society, sent instructions today to the society's offices in Portland to take steps toward declaring off the pony express race to be staged tomorrow in exploitation of a moving picture, unless the promoters of the race can find a complete dirt road from the Metropolis to the capital on which to stage their stunt.

The action came after Colonel Hofer had called at the governor's office to insist that the executive take action to see that the proposed race is called off. Colonel Hofer states the governor was not there, but he discussed the matter with Private Secretary Dezell, who repudiated all connections between the executive office and the race, other than that the governor had agreed to receive a parcel from the rider in the last lap at the capitol.

Colonel Hofer says that Dezell, who used to be an Eastern Oregon rancher and ran range horses, entered into condemnation of the race when it was pointed out to him that race was to be run on pavement from Portland to Salem.

"Such a race, on black top pavement, ridden on untrained horses, would be the essence of barbarity," stated Colonel Hofer. "Such a race on pavement would be dangerous to both horses and riders. They say they plan to put rubber shoes on the horses, but this is an absurd precaution in such a race as is contemplated. Our field man, Captain Cross, in Portland, will take the matter up with the picture people proposing the race, and if it is not called off arrests will be made if necessary. In the old days pony express horses were conditioned up to a fine point to stand the strain. The horses running tomorrow will be out of condition, and running on pavement, which means they will be put under outrageously brutal conditions."

Portland, Ore., Oct. 23.—Paul Noble, manager of the theater planning the pony express race, and G. K. Howitt, owner of the horses to be run, joined in the declaration that no barbaric treatment (Continued on page six.)

## Florida Swamps Put \$100,000 in Flat Purse of Osborne C. Wood as Agent for Former Hot Dog Vendor

(Associated Press Leased Wire.) NEW YORK, Oct. 23.—Broke six months ago, Osborne Cutler Wood, son of and former aide to Major General Leonard Wood, says that he has made \$100,000 in Tampa real estate.

New York to buy some clothes he insists that the \$100,000 is the first installment he is going to get back of nearly \$1,000,000 which he made in Wall street speculation and lost at the gambling tables of Athens, Cannes and Beauville. He is going into Palm Beach real estate.

On arrival in Florida from Cadiz on a tramp steamer six months ago, he had a few hundred dollars of his Wall street money left and spent most of that while looking around for a job. He got a job as a real estate salesman at \$50 a week with I. P. Davis, who was selling hot dogs on a street corner a few years ago.

Discussing his gambling losses he said: "This time by money is not going to be lost in that manner." He intimated he would not defend divorce proceedings started by his wife at Wilmington, Del.

## DEFENSE GOES LIMIT TO PROVE INSANITY IDEAS

(Associated Press Leased Wire.) SALEM, Ore., Oct. 23.—In what is believed to be the first instance of such a procedure in the history of the Oregon courts, a chiropractor was placed on the witness stand here this morning to testify as to the sanity of James Willos and Ellsworth Kelley, on trial for the murder of Guard John Sweeney in the prison break of August 12.

The witness was Dr. H. D. Redmond, of Salem, who testified that he made a signal analysis of both Willos and Kelley and found them to have spinal "displacements" which might affect the brain or brain nerves. He said that Willos had three such displacements and Kelley two, explaining that such displacements brought pressure to bear on the spinal cord or nerves. The fact that such displacements did affect the brain had been proven, he said, though the fact that correlation of such displacements had relieved nervous suffering from mental disorders. He said, however, that it did not necessarily follow as an established fact that persons suffering from such displacements were mentally affected.

Under cross examination Dr. Redmond admitted that such displacements as he found in Kelley and Willos were common and they were not in themselves reliable indications of insanity. He said that the results of different forms of spinal displacement had not been definitely determined in his profession, and in reply to a question of the district attorney said he had only heard of two perfect spines ever having been found.

He also admitted that he had only been practicing his profession for about three years, and that he had never treated a case of insanity.

"Can you name the various parts of the brain?" asked District Attorney John Carson. Dr. Redmond named them.

"Now tell us what their respective functions are," said Carson. "I think you are going too much into detail," parried Dr. Redmond.

## May Go to Jury Today.

SALEM, Ore., Oct. 23.—There were indications this morning of the trial of Ellsworth Kelley and James Willos, charged with the murder of Guard John Sweeney in the prison break of August 12, might go to the jury later this afternoon. The defense had materially reduced the number of its previously announced witnesses and had but one more witness to put on the stand, Will R. King, chief counsel for the defense. Chief District Attorney John Carson said that he would call but two witnesses in rebuttal before commencing his final argument.

Most of the testimony given by the defense witnesses during the afternoon session yesterday was the same as was heard in the trial of Tom Murray, convicted and sentenced to hang for the same murder. Willos remained on the stand in his own behalf until well into the afternoon under a severe cross examination by the prosecution, in which he was asked to explain discrepancies in his sworn testimony and a statement he made to the district attorney and others at the prison following his recapture.
