ROSEBURG, OREGON, FRIDAY, OCTOBER 30, 1925.

SELLING AND PRODUCING.

The selling of commodities is one of the most important functions of the economic system. But at the present time, the selling functions are a little too popular. The great majority of young men with a fair education, who enter the business world, are trying to get into some organization that is selling something.

The Insurance Age-Journal, of Marblehead, Mass., is opposed to the publication of income taxes. "It is securing information, which while legal according to our courts, savors of the surreptitious." The Boston Herald considers such publication an "exploitation of the intimate details of our fellow citizen's business, merely for the gratification of idle or malignant curiosity."

Another dangerous enemy of the negro race has presented himself publicly in the person of William Montgomery Brown, ousted bishop of the Episcopal church. He didn't bow as an enemy, it is true, but he is one nevertheless.

Rippling Rhymes by Walt Mason

I am reading, always reading, books the critics recommend, and my stricken heart is bleeding, and my weary groans ascend. I was reared on Reade and Dickens, Thackeray and kindred scribes, and my jaded spirit sickens at the modern writing tribes.

PRUNE PICKIN'S BY BERT G. BATES

GOOD EVENING FOLKS— There's a gaiter he Some flyin' lunch-hooks At the armory tonight And probably a few fellers Will realize what I mean by the Manly art of Self defense after They have sandedpapered The canvas With their chin.

DUMBELL DORA THINKS Hemlock is a newfangled padlock. Some men in the public eye too much feel like a clinder.

Practice makes perfect but this does not apply to the men who talk too much.

NEVER SAY DIE Yesterday we saw a centenarian asking for a watch with a twenty-year case.

Having his name in the city directory is the only way some folks ever break into print.

Little Willie had a gun; Pulled the trigger just for fun; No one chance to be in range. (This sounds very, very strange).

The man who wants but little here below is below the average as a wander.

"So this is the end," cried the milkmaid as she brushed the cow's tail out of her eye.

Host to "guest after the fourth serving": "I certainly admire your taste."

There's nothing that will make her "madder" than a wet hen, than to get home with her new silk stockings and find that she got a "run" for her money.

We recommend Miss Suzy Ann, She's a wifey, says "Whoisthatman?"

First Rooster (noticing a Rhode Island Red hen and chickens): "My isn't she a red hot mama?"

In taking up the society dance, most debutantes seem to be at a loss as to just how far to go.

"What should you do if you played the piano as I do?" "Take lessons!"

GREEK MYTHOLOGY One night a man reached home after midnight. "I'm sorry, dear," he said to his wife, "but I met Jack own town and we decided to make a night of it. We found a couple of girls, had dinner and a theatre afterwards and here I am."

"Oh, I'm so glad you enjoyed yourself, dear," she said. "Sit down and tell me all about it." Yes, they did.

There are few divorces in homes where there is jelly on the piano keys and a cookie jar on the side-board.

NO ESCAPE Spose if we got to hades, We'll meet the saps that bore you Who'll greet us with the quizz "It it hot enough for you?"

"Out of sight is out of mind." True enough, but even truer that out of money is out of luck.

The best endorsement of mankind is the credit business.

Because two to four persons out of every one hundred infected die from the disease itself and its complications and consequences are even more serious. Are "scarlatina" and "scarlet rash" forms of scarlet fever?

It may be contracted at any age, but more than 95 per cent of all cases occur in persons less than 15 years old.

What are the first symptoms? Headache, fever, sore throat, vomiting. The rash appears in 24 to 48 hours.

Throughout the entire course of the disease, completion of the scaling or peeling does not mark the end of the infection.

What are the secondary effects? Inflammation of the kidneys is a common one. Complications of the ear are numerous, scarlet fever being one of the most common causes of deafness in children.

Is there any protection against scarlet fever? Yes. There is a susceptibility test known as the Dick test.

How long should scarlet fever be quarantined? Not less than 31 days.

WASHINGTON, Oct. 30.—Estimates placing the property damage during the French bombardment of Damascus at \$10,000,000 and the loss of life at 1,000 persons, have reached Washington but there have been no official reports of any Americans or other foreigners among the killed or injured.

CAIRO, Oct. 30.—The Damascus newspaper Omran of October 26 copies of which have been received here, says that Hassan El Karreth, believed to have been the leader of the Damascus rising of October 18, has been executed by the French after he had given all the information in his possession.

The paper says that the Emir Taher El Gazairi has been arrested.

LOCAL TEACHERS ARE ENTERTAINED

In keeping with its usual custom the Rotary club last evening entertained the school teachers of this city at a banquet at the Hotel Umpqua last evening, some 125 persons being present.

The banquet tables had been beautifully decorated for the occasion and presented a most inviting appearance.

FRANCE RECALLS SYRIAN RULER TO EXPLAIN REVOLT

PARIS, Oct. 29.—General Sarraill, French high commissioner in Syria, will be invited to come to Paris to explain the cause of the revolt in Syria.

The semi-official Havas agency says that Paul Boncour, a leader of the socialist party and former minister of labor, has been asked to become French high commissioner in Syria, replacing General Sarraill.

BEAUTY CHATS

UGLY PERIODS

There are occasional discouraging periods when we look at ourselves in the glass and say: "How ugly you are, how hopeless to try and make yourself into a pretty woman!"

Give up a whole hour to your "care," surely that's not much. Get an egg and beat up all but a little bit of the white and spread it on the hair, which you must pin up away from the face.

In ten minutes, shampoo the hair, rinsing off the egg as soap which you should always have ready. Run a hot bath while rinsing the hair.

Dry the hair partially with a thick towel, then comb it around your face as you like it arranged, and tie a veil snugly over it—wet as it is. Have a luxurious warm bath, rinsing off the egg white on the face and neck.

Double!—A brush with fairly long handle and a narrow back is best and the length of the bristles should vary with the kind of hair.

Some people use two brushes, a stiff one for removing dandruff or for stimulating the scalp, and a softer one for glossing the hair.

Efficient Housekeeping by Laura A. Kirkman. Illustration of a woman cleaning a desk.

DESK COMFORT

When we can afford it, we are going to have a writing desk in every room in the house except the dining room and hall.

There is no doubt that desks do add much comfort to a room. I have noticed that the desk-in-every-room policy is carried out in many homes with great decorative effect.

The home of one of my friends has a willow table-desk in every bedroom (the kind with glass tops, under which is put cretonne to match the window drapes).

Another woman of my acquaintance has a plain small-size table filled up as a desk in her kitchen.

And of course the nursery must have a desk. Every child needs a place for his pencils, crayons and pads. A mere table will not do.

Pigeon-holes are needed, and drawers, for the neat storage of writing materials. Older boys and girls, of the student age, should have a massive table-desk which provides ample room for "exam" papers, books, and perhaps a small, portable typewriter.

Diet and Health By Lulu Hunt Peters, M.D.

DAILY FOUNDATION REDUCING DIET

In reducing your weight it is highly important to reduce excess fat only, for the excess fat is the only tissue that you can spare.

I want you to have a certain foundation in those 1200 C's every day to supply these needs so that in reducing your weight, you will not reduce your strength and health at the same time.

FIRST: At least a half pound of some watery vegetables (the green leaf vegetables are especially good)—lettuce, spinach, celery, asparagus, watercress, cabbage, beet tops, tomatoes, etcetera.

SECOND: One-half pound of other vegetables, such as carrots, beets, onions, etc. That will approximate 100 C.

THIRD: 200 C. of fruit. The following approximate 100 C. each: One large apple, orange, banana, pear; one-half large grapefruit; one medium, 4 1/2 inches in diameter; one cup of berries, grapes or cherries; three or four plums, apricots, lemons or peaches; three or four dates, two or three figs; one fourth cup of raisins or currants. Better make your dessert of fruit.

FOURTH: Every day you should have at least one pint of skim or buttermilk. That will amount to 160 C. (10 C. to the ounce) of which about 75 C. are complete protein.

FIFTH: I want you to have two average sized potatoes, 200 C. OR two slices of whole wheat bread, one-half inch thick, same number of calories. Those of you who are gouty or rheumatic had better take the potatoes instead of the bread because of their alkaline salts.

SIXTH: Protein. You must have about 100 C. more of protein, besides what you get in the milk. You can get this in a large measure, in three or four ounces of lean meat or fish (150 C. total) OR two or three eggs (one egg 75 C., about 30 protein C.). Or 20 large peanuts (total 200 C.) will give you 40 C. good protein.

What I have outlined for you comes approximately to 3600 calories. That leaves you 300 calories more to choose as your last part of them raw. Fruits and
