FULL SWELL OF N. J. MADE BY TAMMANY

Walker and Rest of Ticket Defeat Republicans by Large Majorities

NEW JERSEY IS "WET"

Klan Loser in Detroit And Virginia—Boston and Indiana Cities Go Republican

(BY THE ASSOCIATED PRESS.)

The democrats swept to victory yesterday in the New Jersey gubernatorial and New York City elections. In less spectacular contests the republicans elected the mayor of Boston for the first time since 1907; won hands down in Pennsylvania state and municipal elections; regained control of the municipal machinery in a number of Indiana cities and apparently had elected a mayor of Louisville, Ky.

In the only two congressional contests each party held its own, the republicans retaining control of the third New Jersey district and the democrats remaining successful in the third Kentucky district.

Double Defeat For Klan.

Virginia, the only state besides New Jersey to elect a governor, voted a straight democratic slate into office, John M. Bassett, republican, in a contest that attracted much more than usual attention because Purcell's affiliation with the Catholic church was brought into the campaign.

The Ku Klux Klan became the chief issue in the non-partisan majority election in Detroit when John W. Smith apparently returning a victor over Charles Bowles, the Klan supported candidate.

Wets Carry New Jersey.

Prohibition was the out-and-out issue in the New Jersey gubernatorial race, but in the victory of A. Harry Moore, democrat, over State Senator Arthur Whitney, who had the support of the anti-saloon league, the democrats approached to the overturning of the 20,000 plurality given President Coolidge last year. While Moore polled up a plurality of approximately 40,000, largely through the heavy vote cast for him in his home county of Hudson, the victory was not as sweeping as some democratic leaders had predicted, their forecast running as high as 100,000.

Tammany Still Rules N. Y. City.

The democratic victory in New York City was overwhelming. State Senator James J. Walker defeated Frank D. Waterman by approximately 401,000 votes out of a total of slightly more than 1,000,000 cast. With Walker the democrats elected all five borough presidents, a president of the board of aldermen, comptroller, all four district attorneys and a long list of lesser officials.

With 10 candidates—seven democrats and three republicans—running in Boston, nominally a non-partisan election, Malcolm E. Nichols, republican, was elected mayor of that city. The main democratic vote was divided between Theodore A. Glynn, who had the backing of Mayor Curley, and Joseph H. O'Neill, sponsored by former mayor John F. Fitzgerald.

Steward Appleby, son of the late Representative-elect T. Frank Appleby, was elected to congress from the third New Jersey district over J. Lyle Kimbrough, democrat. In the third Kentucky district, long represented by the late Robert Y. Thomas, veteran democrat, John W. Moore, democrat, apparently had been returned a winner over Thurman B. Dixon, republican.

Al Smith Triumphs.

NEW YORK, Nov. 4.—Governor Al Smith had another mighty triumph at the polls. His protégé, State Senator Jas. J. Walker, who defeated Mayor Hylan for the democratic nomination in a bitter primary battle, was elected mayor of New York yesterday by an enormous plurality over Frank D. Waterman, republican and pen manufacturer.

Four proposed amendments to the state constitution for which the governor stumped the state and which were opposed by the republican machines, were approved by the voters.

This new proof of the political power of the governor is something of a vaudeville if he carries out his announced intentions. He has said he will return to private life when his term as governor expires

TO RACES TRAIN CROSSING; ONE TWO INJURED

FRANCISCO, Nov. 4.—An automobile and a train raced to the Third and Railroad Avenue crossing in San Mateo county last night. The race was a tie. Both got there at the same time. As a result one occupant of the automobile, Mrs. Madge Reynolds, of San Francisco, is dead and two companions, Mrs. Fred Wolters and Peter Disculo, are in the Mills hospital critically injured. Dave Callons, the crossing watchman, said Mrs. Wolters, who was driving, attempted to "beat the train" to the crossing. The safety gates, already closed, were smashed by the machine, he said.

COMMUNITY CHEST WILL REACH HALF-WAY MARK TONIGHT

Solicitors Confident That More Than One-Half of Total Sum Will Be Pledged

The Community Chest drive started off yesterday with excellent results. Two teams reported last night with more than \$3,000 while other reports were not made, but it is believed that almost one-half the sum has been pledged. The drive went on today with renewed vigor and subscriptions continued to pour in. It is hoped today that the business district will be completed and the canvassers will then turn to the more difficult task of reaching the residential sections.

The solicitors are meeting with even better results than they had anticipated. Practically no refusals have been met. In a few instances the contributions have not been as large as had been hoped for, but for the greater part the Roseburg people are responding with a will. Salaried people particularly are giving more than they had been expected to pledge, and it is believed that the receipts from these workers will make an exceptionally fine showing when the returns are all in.

Community chest headquarters are located in the First State and Savings Bank Building, and any information can be obtained there or by telephoning "Community Chest."

Four men next January.

DETROIT, Mich., Nov. 4.—The open effort of the Ku Klux Klan to put a candidate in the office of mayor of Detroit failed yesterday when voters re-elected John W. Smith by a majority of 29,787 over Charles Bowles, who ran with Klan support.

The vote for mayor, complete, was: Smith 140,538; Bowles 111,051.

The Klan was more successful with its five candidates for councilmen, four of the number being elected, while two out of three candidates, opposed by the Klan, were defeated.

Frisco Won't Buy Railway. SAN FRANCISCO, Nov. 4.—In electing to office nine supervisors on the "minority group" ticket at the municipal election here yesterday, San Francisco voted disapproval of the sale of hydroelectric power from its Hetch-Hetchy project to a private corporation for distribution in the city. This group, in its platform, opposed the contract recently entered into between the city and the Pacific Gas and Electric company for the sale of Hetch-Hetchy Power and favored the acquisition of a municipal-owned distribution system. It also stood for lower taxes.

The people, by a vote of 8 to 1, (Continued on page six.)

COPO UNITES WITH BYLESBY CO. INTERESTS

Giant Power Merger Announced Today by Power Company

NO PERSONAL CHANGE

Personnel and Policies To Remain the Same—Greater Development Is Expected

Announcement is made today by The California Oregon Power company of the transfer of the controlling interest to H. M. Bylesby and company. The announcement is made in a letter to the preferred stockholders from Paul B. McKee, first vice-president and general manager.

Bylesby & Company have long enjoyed a splendid reputation as expert engineers, financiers and utility managers. The company was organized in 1902 by the late Colonel H. M. Bylesby, who had a remarkable career as a pioneer in the utility business, reaching the vice presidency of the Westinghouse Electric Company at the age of twenty-six, and thereafter spending many years as a pioneer in various utility enterprises in Oregon and Montana.

The company was established primarily as an engineering concern, but the activities of H. M. Bylesby & Company soon acquired a much broader scope and within a few years the firm became prominent in the financing, designing, construction, operation and management of electric and gas companies.

A large staff of experts was gathered and maintained, who are specialists in all phases of public utility administration, engineering, construction, financing, legal, operation, commercial and advertising. Since the organization of the Bylesby Company many utility properties have been purchased, reorganized, financed and developed.

The matter of public relations has been handled with remarkable success and the company was one of the first to adopt the now widely known customer ownership policy of financing and management has, from the first, been conducted along broad lines, and its reputation for fair dealing, both with respect to the public and the members of its organization, is in evidence in all of the many properties in which the company is interested.

The Bylesby Company is already well known on the Pacific Coast, being interested in the Mountain States Power Company in Oregon and Washington, and in the Western States Gas and Electric Company, Coast Valleys Gas and Electric Company, Sierra and San Francisco Power Company and the San Diego Consolidated Gas and Electric Company in California.

The change in ownership and control will have no effect upon the public policies of The California Oregon Power Company, Mr. McKee states in his letters. The organization will remain the same, the personnel will be unchanged, and headquarters will be continued in Southern Oregon the same as at present. The officers now designated so that insofar as the public is concerned, there will be no change of a noticeable character.

Because of the diversity of the Bylesby interests a greater development is expected, as the company is in a better position to finance the developments of any territory in which it is interested.

Stockholders Accept Terms. (Associated Press Leased Wire.) SAN FRANCISCO, Nov. 4.—The California Oregon Power Company has effected an agreement with the H. M. Bylesby and Company of Chicago, for the consolidation of the California Oregon Power Company with a new company to be organized and controlled by the Bylesby interests.

In making the announcement last night, John D. McKee, president of the California Oregon Power Company, said that the basis of consolidation would be an exchange of stock of the California Oregon Power Company for securities of the new company. Stockholders already have agreed to the terms of consolidation.

A letter sent to preferred stockholders from Medford, Oregon, late yesterday stated that the company contemplates to continue in its present corporate form and that expansion would be continued on an enlarged scale.

JAIL AND COURT HOUSE ARE HIT BY GRAND JURY

Jail Unfit Habitation for Human Being Final Report Declares

NEW BUILDING URGED

County Court Advised to Submit Special Levy Proposal to Taxpayers at Election

Condemning the county jail and the court house, the former as being unfit for habitation by a human being, and the latter as a great hazard to valuable county records because of the fire risk, the November grand jury last night filed its report with Circuit Judge Hamilton.

An immediate renovating of the jail, and the submitting of a proposal to the voters of the county to make a special levy for the erection of a new court house, were recommendations made to the court.

The jury stated that it has taken into consideration the fact that past recommendations of a similar nature have become a matter of jest, but that the condition prevailing should be one of grave importance, and should not be treated lightly.

The report is as follows: Hon. J. W. Hamilton, Judge of the above entitled Court: We, the Grand Jury duly impaneled in the May 1925 term of this Court, beg to report that we have inquired into all crimes committed or triable in this County and have presented them to this Court by indictment in all cases, when all the evidence before us, taken together, was such as in our judgment would, if unexplained or uncontradicted, warrant a conviction by a trial jury.

We have inquired into the condition and management of the County Jail and offices pertaining to the Courts of Justice of this County. From such inquiry we find that the general business of the County is being conducted in an efficient manner as is possible under the adverse conditions existing at the present time.

Our examination of the County Jail has disclosed to us as it has to Grand Jurors preceding us for a great number of terms, a condition that ought not to exist in any civilized community. It is, in our opinion, a blot upon the name of Douglas County to permit the continued existence of such an institution for one day longer than is absolutely necessary.

We examined the jail building carefully. In our opinion it is not a fit habitation for a human being. We recommend and urge that immediate steps be taken to thoroughly clean the building and disinfect it, and recommend that this work be done as much as possible by prisoners. We further recommend that the jail be kept in as sanitary condition as possible in the same manner, that is, by using the labor of convicted public offenders. In our judgment, it is useless to attempt to remodel or repair the jail so as to make it of use for the purpose for which it was intended. This structure has been built for over thirty years and the needs of the County have long since outgrown the size of the building. The structure can not properly house over three or four inmates at the present time as the greater portion of the building is wholly unsafe as a place of restraint.

Common sense dictates that the present intolerable condition should be remedied by the abandonment of the present structure and the erection of a modern structure suitable to present and future needs.

Again we call the attention of this Court, the County Court, and the taxpayers of Douglas County, to the imperative need of a new Court House. We are all taxpayers ourselves and fully realize the heavy tax burden which we now carry. However, after our thorough inspection of every room in the Court House we can not but realize that, heavy as our tax burdens are, we must add thereto a sufficient amount to relieve the present fire hazard occasioned by the stove heating hazard of the County Court House. Our Court House is now congested from floor to ceiling with records piled in abandon in every nook and closet subject to a continual ever-present fire hazard. The County is now paying rent on offices outside of the Court House because that building has not sufficient room to accommodate County offices. If the tax payers of Douglas County could have been with us in our inspection of the Court House today, we feel certain

SUNSHINE RANCH IS SOLD TODAY TO LOUIS KOHLHAGEN

A deal involving a consideration of approximately \$45,000 was completed here today when Louis Kohlhagen, proprietor of the Cass Street Market, purchased the Sunshine ranch, eight miles northeast of Roseburg on the North Umpqua river, one of the finest stock ranches in Douglas county. The property consists of 2,562 acres of land, several hundred acres of which can be cultivated. The greater part of the ranch, however, is range land, excellent for grazing of stock. Mr. Kohlhagen plans to immediately stock the property with about 1,500 head of sheep and from five to seven hundred head of goats. A forty-acre young prune orchard is also included in the deal.

The property was formerly owned by Louis Wormser, of New York City, who has been in Roseburg for the past two weeks, drawing up the necessary papers to close the deal. Mr. Kohlhagen is taking immediate possession of the property.

WHEELER TELLS DRY FORCES TO BE ON LOOKOUT

40 Wet Organizations Are Mobilizing Against Volstead Act

LAW GAINS GROUND

Says Increasing Number of Foes Is Evidence That Enforcement Is Being Felt

(Associated Press Leased Wire.) WASHINGTON, Nov. 4.—A sharp note of warning and a paean of congratulation for the accomplishments in prohibition enforcement down to this time are sounded in a report prepared by Wayne B. Wheeler, chief counsel, for presentation at the biennial convention of the Anti-Saloon League of America at Chicago.

With forty national wet organizations mobilizing against the prohibition amendment, Mr. Wheeler declares there is unusual vigilance by the dry forces. Already there has been challenging opposition, he said, but adds that in the face of the fight the prohibition forces have moved uphill steadily. "No similar policy of government has shown a more continuous construction gain," he asserts, adding: "The desperate ferocity of the opposition of the wet minority today is a testimony to the increasing effectiveness of enforcement. We are winning all along the line."

Wet Activities Shown. Citing the activities of the association against the prohibition amendment as typical of the work of the wet organizations, Mr. Wheeler informs his fellow dry workers that these associations are concentrating on two plans: "Political campaigns to pick off the dregs in congress and state legislatures and a publicity campaign of misrepresentation of prohibition.

"Their program, if successful," he argued, "means nullification of the federal law of the land and would be an object lesson in contempt for law unparalleled in history."

Asserting that the public sentiment which secured the enactment of the law can secure its observance and enforcement, Mr. Wheeler submits some suggestions for better law enforcement based on conferences with officers charged with that duty.

They include: The arousing of public sentiment within local communities through educational campaigns. Campaigns for the election of candidates avowedly for enforcement and in sympathy with the law. The aiding of faithful officers by supporting honest officers against unjust attack. The removal of delinquent officials where other methods fail.

ELECTION DAY IN KENTUCKY MARKED BY FATAL FIGHTS

Three Killed, Many Hurt in Duels—Klan Loser in Louisville

(Associated Press Leased Wire.) LOUISVILLE, Ky., Nov. 4.—The Courier-Journal today says that "slugging, shooting and alleged use of repeaters" attended the return of the republicans to power in Louisville yesterday with the election of A. A. Will, as mayor over Joseph T. O'Neal, democratic candidate, by a majority of 2,231, while dispatches from eastern Kentucky told of three dead and several wounded in election day shootings.

John J. Davis, chairman of the democrat campaign committee, declared in a formal statement that the election of Will would be contested on grounds of fraud. The vote from 664 of the 700 precincts was Will, 53,337; O'Neal, 53,106. Charles G. Middleton, Republican committee chairman claims Will was elected by 3,000 majority. Will in withdrawing admitted having been connected with the Ku Klux Klan. O'Neal's name was posted on the ballot.

One hundred and fifteen negroes, democrats, charge, were driven in automobiles from polling place to polling place by the republicans for the purpose of repeating. Slugging of a Democratic election worker by republicans also is charged. Bloodshed at Whitesburg is also reported.
