

# REVIVAL MEETINGS

—AT—  
FIRST CHRISTIAN CHURCH

## George B. Kellems

Nationally known evangelist, assisted by Prof. Filewood, who will have charge of the music.

Meetings Start Sunday, Nov. 8

Continue every night at 7:30 p.m.

COME AND BRING YOUR FRIENDS

Fresh grape juice at Overland Orchards. Bring containers or leave at Brand's Road Stand. Will be delivered when filled.

Quick turnover. Advertise. A classified ad today brings sales tomorrow.

Heat with gas.

Arundel, piano tuner. Phone 189-L.

### TELEPHONE FOR YOUR GROCERIES

AND LET US DELIVER THEM  
It is much easier to lift the receiver on the phone than it is to carry a basket of groceries home.  
Reliable persons may open a charge account with us and then phone for their groceries and have them delivered to their homes. We sell at as low a price as is possible, considering quality and service rendered.  
It is a pleasure to serve you at all times.  
Try Knight's Rogue River Caturp. We have Knight's Sauer Kraut and Miner Meat, and they are fine.  
Support the Community Chest, give all you can.  
**ECONOMY GROCERY**

### Scientists May Claim Improvement on Nature

If experiments at present in progress prove satisfactory, in time to come steam boilers will not be used to work big power plants—mercury or sulphur vapors will be employed instead.

The idea is that such vapors involve much higher temperatures than even superheated steam, and the higher the temperature, of course, the greater the power produced.

The hot vapors, after driving a turbine, will be condensed, yielding their heat to water, thus generating steam for use in its turn.

This century has been a wonderful one for the chemical industry.

Ever new materials have been produced, writes Mr. Harrison E. Howe in "These Eventful Years." The demand for silk at a low price has brought about the production of artificial silk. The fiber looks like silk, and answers the purpose of silk; yet it is made from wood pulp or even cotton.

In the plant world science is improving on nature. On sugar cane plantations it has been found that a certain kind of paper, when spread over the rows, discourages weeds and thus minimizes hoeing.

The cane shoots can push through this specially prepared paper, which is tough enough to prevent quite effectively the growth of soft-topped weeds.

### "Getting Into Scrape"

Has Various Meanings

The phrase "get into a scrape" can be traced back as far as 1700. Richard Steele used it in "The Tatler" and it is said to have originated from the notion of having been scraped in going through a narrow passageway, but this is pure conjecture. Scrape in dialectal English designates a trap and is much older, and to this day the word is used for a lure for birds in cold weather, says the Family Herald.

According to Lowrey's "Glossary of Berkshire Words and Phrases," scrapes are of two kinds: the first is an old door supported by a stick under which corn is placed, and the stick being pulled by a long string the door falls on the birds. The second is made by placing corn where snow has been swept away, and birds, when congregated, are shot in numbers, being entangled along the scrape.

World's in his dictionary, edited in 1887, describes a scrape as "a place baited with corn or other enticing birds." To get into a scrape is to get into an awkward, embarrassing or troublesome predicament.

### Church's Modest Beginning

In about the year 1780 the first Methodist church in the United States was built in Kent county, Delaware. It was called Barratt's chapel and is as solid today as on the day it was opened for divine worship. The land it occupies was deeded for the purpose by Phillip Barratt, in Maryland. Here in 1774 Bishop Thomas Coke of the Methodist church met Bishop Francis Asbury, the latter the first man in America ordained by the Methodists to the Episcopal office. Out of the meeting grew a plan to carry Methodism all over the United States. The first native Methodist minister in America is said to have been Richard Owen of Maryland, one of the most famous of such ministers was "Father" Joshua Thomas, who for the better part of a half-century traveled on and down the Chesapeake in a big "buzzy" as the long narrow and very staunch boats of a certain type are called, preaching to the Islanders, most of whom were and are fishermen.

### Made Lonely Journey

A woman farmer in a lonely part of South Africa, Mrs. Ida Francis, has just shown that in luck and endurance British women settlers are not behind the men.

About two months ago a cyclone devastated her farm, which lies beyond the western fringe of the desolate Kalahari desert, and then came floods which destroyed the food and shelter for her cattle. The only way to save her animals was to drive them 400 miles across the desert to her son's farm, and this she did, unaided.

She found that many of the water holes in the desert had dried up, and sometimes she had to ward off attacks by lions with her rifle; but she kept steadily on, and in the end brought nearly all her charges through safely.—Family Herald.

### Geese on Guard

Wild geese are extremely wary, and take nothing for granted. While feeding they have a perfect system of sentries. Not content with this, every now and then two or three will fly round high up to see that nothing is even approaching them from a distance.

Their hearing is very acute, and it is said their sense of smell is also. Certainly, if they are approached down wind, they are up and away at once, even if the greatest care has been taken to keep out of sight. They have a cry like a jink of bombs, which may have given rise to many of the legends of ghostly parties that are said to hunt an equally ghostly fox, at night.

### Origin of Gloves

Gloves trace their origin back for centuries, the first mention of them in literature is to be found in the Bible, but scientists believe we should go back still farther, for among pre-glacial relics an unmistakable drawing of a glove, evidently etched upon a stone, was discovered. It is said that the first skilled glove-makers were the monks of the early Middle Ages. In 700 Charlemagne granted to the abbots and monks of Sithin, in ancient France, unlimited right of hunting the deer for skins of which to make gloves. Glove-making was established in France as an industry in the twelfth century.

# Young Men! Young Women!

I have a position for you. One with a future. And a good future, too. Enroll in our new class, that of Commercial Telegraph Accounting. Six months is the time required to complete it then we recommend you for employment, where you will be given an opportunity to enter an advanced school to prepare yourself for a higher salaried position and you get paid for it, too.

Twenty five students is the number wanted for this new class and you will have to act quick. Classes conducted evenings only so that you may earn while you learn. It is separate from the Telegraph Class which is now filled to capacity and qualifies you for positions in the Commercial Accounting Departments of the large Telegraph Companies.

Any boy or girl 16 years of age or older is eligible for this class and high school education is not essential to qualify you for entry.

All of our graduates are employed and are holding good positions and securing increases in salaries right along on the instruction we gave them. Join this happy circle. Call, phone or fill out the coupon below. Do it now—today.

### Spanish Beauty Chicago's Choice

Long tresses scored a victory over bobbed hair when Miss Margaretta Gonzales was chosen as Chicago's most beautiful bathing girl. She is 18, a suit model, and as her name indicates, of Spanish extraction.

Rid your home of tobacco and other offensive odors by burning incense a few times each week. Any odor in powder or cones. Lloyd Crocker.

# Real Winter Comfort at Low Cost

To drive in comfort this winter you should have complete protection against rain, sleet, snow and wind. Only the finest closed car construction can give you that.

The Chevrolet Coach body is Fisher-built—the same construction used on the world's finest cars.

Doors and windows fit and stay tight to keep out wind and water. Rain or snow cannot penetrate the Fisher V-V one-piece windshield which gives you perfect vision and ventilation. Long semi-

elliptic springs and balloon tires take the jars out of frozen roads.

Add to body comfort the safety of semi-reversible steering and equalized brakes and the assurance of a motor that always starts easily, and you can realize why Chevrolet spells winter comfort.

Yet you get all this in the world's lowest-priced Fisher Body Coach. Let us show you the quality features of this fine closed car and explain how easy it is for you to own one this winter.
