BOYS WALK AWAY WITH AMERICAN FLAG

An effort is being made to locate three young men who on Armistice Day took a flag and pole from in front of the Vogue Millinery Store in the Salzman building. The boys rode up in front of the building in a coupe and when they drove off the flag caught on the door, breaking the pole. They never stopped, but carried the flag away, since which time no trace of it has been found. It is not the value of the stolen property that has aroused the owner but the spirit in which the act was committed and unless the flag is recovered soon there is likely to be trouble for the young men implicated in the act. An effort is now being made to identify them, several people having witnessed the occurrence.

(Associated Press Local Wire.)

WASHINGTON, Nov. 17.—President Coolidge will make no recommendation for a ship subsidy in his annual message to congress which he plans to transmit in writing. While he believes financial encouragement should be given to the American merchant marine, he holds to the view that congress would authorize government aid and that it would be impractical to propose it.

MAKING FRIENDS

It has been said that the only way to make real money in the used car business is to sell them "as is". That may be a good way to make money—for a short time—but it is not a good way to make friends. We figure that if we get the friends, the profit will take care of itself.
