Says --- Now Stiff Joints Must Go!

New Discovery Limbers 'Em Up and Even the Creaking Ceases.

You! It's true—the world progresses. All you have to do nowadays to limber up that old stiff, creaky knee joint is to squeeze a half inch of miracle-working substance from a tube. Then rub it on the offending part for about a quarter of a minute or until it soaks through the skin and disappears on its strand of mercy. Then read the evening newspaper and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster. "And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint Ease: They call this wonder-working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint or reduce the swelling, Joint-Ease succeeds. It's a good name for a good, clean, stainless prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether in knee, elbow, ankle, hip, shoulder, spine or fingers and for that purpose its sale, at 60 cents a tube, is immense. All druggists sell dozens of tubes. Nathan Pillsbury sells dozens of tubes of it every week and druggists everywhere report a big demand.

Always remember, when Joint-Ease gets in joint agony acts out-quick.
