LANE COUNTY POST-OFFICE YIELDS \$20 TO SAFE CRACKERS

(Associated Press Leased Wire.)
 EUGENE, Ore., Dec. 3.—Though county officials have been working since yesterday on clues to the possible identification of robbers who early yesterday morning blasted the safe of the Leaburg postoffice, no trace of the suspects has been found it was announced today.
 Four men are believed to have been involved in the safe-blowing, as a high powered car containing four men was seen to speed away from Leaburg shortly after the blast had awakened residents of the little town on the McKenzie at 4 o'clock in the morning.
 A box taken from the postoffice building was found later in the day yesterday under the Leaburg church.

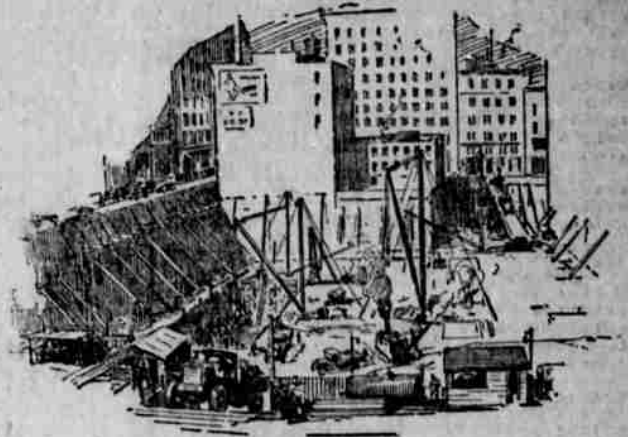

The loss to the postoffice in cash was about \$20, it is said.
 The safe was in the store building, used as a combined store and postoffice.

WINTRY BLAST IN REGION OF ROCKIES

(Associated Press Leased Wire.)
 DENVER, Colo., Dec. 3.—Winter laid a snowy covering over the Rocky Mountain states today with promise of the storm continuing tonight. The snow fall extended from Montana to New Mexico. In the southern portion of the intermountain area the storm raged with greater intensity. In southern Wyoming and northern Colorado the storm attained almost blizzard-like proportions.

SCOTLAND YARD DISAPPROVES LONDON NECKLACE FASHION

LONDON, Dec. 3.—(A. P.)—Scotland Yard has entered the realm of fashion to voice a protest. The cause is the new fad women have of wearing pearl and diamond necklaces with strings down the back. As a "help yourself" idea of displaying precious stones, the detectives said it was sure to make more work for them.

The Foundation

In many an American city today tall structures stand on foundations that were planned by their architects to support the weight of extra stories if the future's needs should call for such additions. Their very existence is proof of the vision of men who provided for that which they could not definitely foresee.

Similarly capable of meeting the future's needs was the foundation upon which the Bell System has been reared. At a time when a few miles was the greatest distance over which man's wire-borne voice might

travel, the telephone pioneers could not, of course, foresee in detail the problems of invention, manufacture, construction and operation which future expansion might involve.

They could, however, and did catch the vision of a national growth which would necessitate a service continent-wide in scope. They could and did provide the foundation for a structure capable of growing with the nation. The proof of their vision lies in the fact that America today has a nation-wide, universal telephone service.

For winter driving—
change your oil

In winter your automobile requires a free-flowing oil, if it is to start quickly and be free from dangerous friction. All oils do not meet this requirement, but here again Zerolene proves one of its superiorities — it flows freely at low temperatures.

To determine the correct body of Zerolene for the winter lubrication of your car, consult the Zerolene-Correct Lubrication Chart — at Standard Oil Service Stations and at dealers.

ALICE'S FATHER FLARES AT TITLE OF TAXI DRIVER

(Associated Press Leased Wire.)
 WHITE PLAINS, N. Y., Dec. 3.—George Jones, maternal father of Alice Beatrice Jones, from whom Leonard Kip Rhinelander is seeking an annulment of their marriage today created a disturbance in the courtroom when Isaac N. Mills, counsel for Rhinelander, called Jones a "taxicab driver" during his summation before the jury.
 Leaping to his feet and trembling with anger Jones shouted at Mills: "I'm no taxicab driver. I never was a taxicab driver."
 When Lee Parsons Davis, counsel for Mrs. Rhinelander attempted to quiet Jones, the latter protested: "Don't let him say those things about me."
 He finally was prevailed upon to sit down and court was recessed for 15 minutes.
 Mills today began his second day of summation for the plaintiff by relating how the Jones family had ignored a warning that the Ku Klux Klan might act against them.
 Mills said that Leon R. Jacobs, attorney employed by Rhinelander's father, had warned Mrs. Rhinelander that unless she and her wealthy young husband separated, the Klan might take action against her family. This warning was given, Mills said, after a window in the Jones home had been broken by a stone thrown by an unknown person.
 Mills defended the action of Jacobs, which defense counsel, Lee Parsons Davis had bitterly attacked in his summation for the defense, saying that Jacobs had "merely lost his head." Mills also continued his criticism made yesterday against Phillip Rhinelander, Leonard's father, for neglecting the son,

which the lawyer stated was largely reported for the mistakes made by the young man.
 Mr. Mills is expected to speak most of today. The case is expected to reach the jury some time tomorrow.

Wife and Husband Both Ill With Gas

"For years I had gas on the stomach. The first dose of Adierika helped. I now sleep well and all gas is gone. It also helped my husband." (signed) Mrs. B. Brinkley. GIVE sponorial Adierika removes GAS and often brings astonishing relief to the stomach. Stops that full bloated feeling. Brings out old, waste matter you never thought was in your system. This excellent intestinal evacuant is wonderful for constipation. Nathan Fullerton, druggist.

SAYS SOUTH CAN MEET WORLD DEMAND FOR COTTON

AUBURN, Ala., Dec. 3.—(A. P.)—Boll weevil or no boll weevil, the cotton belt of the United States can produce all the fleecy staple the world will consume and pay for it at a "living price" in opinion of Alabama experiment station officials.
 This could be accomplished through intelligent use of fertilizer and better varieties of seed, said Professor M. J. Funchess, director, after studying results of experiments extending over a five-year period.
 The added cost necessary to increase production would be small compared with the net return and it would not be necessary to extend the cotton area, he explained.

Cook with gas.
