"SANDY" By ELENORE MEHERIN

WHAT HAS HAPPENED IN THE STORY SO FAR:

Sandy McNeil, forced by her impoverished family into a loveless marriage with Ben Murillo, a rich Italian, sacrifices her love for Tommy, a childhood sweetheart. Frequent quarrels follow. A son is born, dying almost immediately. Seeking some escape, Sandy appeals to her Uncle Bob, who enables her to take a Honolulu trip with her mother. There she meets Hamon Worth, who saves her life in the surf. He boards the same steamer home and during the voyage declared his love. At home Sandy tells Murillo she must be freed. He declared he will never release her. Later he intercepts a letter from Hamon to Sandy. When Hamon telephones asking where he may address her she gives the number of a private postoffice box she has rented. He writes that he would meet her on a certain evening on the beach.

GO ON WITH THE STORY FROM HERE:

CHAPTER 2

She moved into the shadows—black, encompassing, athrob with the boom of the sea. She listened to the waves washing over the beach. Leaning over the rail she could just make out their dark glimmer. She stared downward, still intent, fevered. Dark, mysterious night. She should be home now, going to bed, protected by the good room walls. She breathed quickly, thrilling with a sense of terror—high, exultant terror.

She had run into it—into these wavering shadows, and she now stood fixed and listening—avidly alert. She was waiting for him, expecting him to come.

As she waited—she thought of Judith's words: "The great love of life is that you can't deny it. The mighty thing—the one, great, tremendous thing bigger than you or I or any one. To love and be loved like that! Throw everything to the winds! Sandy closed her eyes, drawing in her breath slowly because of her almost stifling excitement.

She wanted love like that. As much as Judith wanted it. More—because she knew the insupportable emptiness of the heart and mind that forfeits these warm, holy emotions. And in her secret thought she meant to have a love like this.

Leaving over the rail she now suddenly whispered: "I want it! I'll have it!" Imperiously as she had demanded it in her girlhood, when she pictured herself one born for joy and high sparkling adventure, riding gloriously on the crest of the wave—always!

She looked up from the waters, straining her eyes far out to the islands: "I want it! I'll have it!" A sharp, penetrating bite of the winter. Sandy shivered. She felt tears creeping to her eyes. Oh, why was she standing here. He was gone—long ago.

Better—glad he was gone—but she listened almost in an anguish. Was that a step? Someone was here! A sharp, "Down there!" The wind blowing a message.

So she would leave now. She would go back to that big, silent room of hers. She would stand at the window as she had every night for these six weeks telling herself defiantly: "Too bad about you, beauty! Too bad about you!"

She would do this years and years. She remembered Alice crying herself to sleep. Long time ago. Sandy was a little girl then. She used to put her arms around Alice and whisper: "Doncher care? I think maybe he'll come. I think he will, Ally!" Then Alice would lean out her head—far down there!—drinking up the sympathy.

Sandy would grow like Alice. Until finally it would seem fantastic that she had ever been a young, lovely thing, sought after—greatly wanted.

She had a swift vision of herself and Alice sitting down to lunch together—both of them old—both of them warped, defrauded lives. And abruptly Sandy flung her head up. Her life to go on like that. No love, no beauty, no gladness ever to enter it!

Monstrous! No one could ask it. No one dare ask it! She thought of Murillo as he had come rushing toward her with the up-lit torch. Her heart leaped. Her mother wanted her to live with him always. Her mother said she had provoked that attack! And she had quietly, self-righteously demanded that Sandy give a lifelong promise; sign away

CHILEAN ATTACKS DRAW NO RESPONSE FROM COOLIDGE

(Associated Press Leased Wire.) WASHINGTON, Dec. 3.—Two American warships now are at Antofagasta, Chile, where General Pershing is facing a serious crisis in the affairs of the Tacna-Arica publicity commission of which he is head.

The cruiser Denver, in a brief message to the navy department today, reported her arrival at the South American port yesterday. The navy department's explanation of the move is that the Denver will relieve the cruiser Rochester already on duty here. Officials not only continued silent today regarding latest developments in the Antofagasta negotiations, but they indicated that if any public reply is to be made to Chilean accusations of unfairness, it will be issued by General Pershing and not the state department.

Although from the start the state department officials have been directly contacted with the technical position that the department is acting only as a messenger for the arbitrator, who is President Coolidge.

Thus far there has been no indication that the president will take notice of the Chilean attacks.

Heat with gas.

SHORT COURSES FOR GENERAL CULTURE

High-school students in Santa Barbara, California, have the opportunity, through a series of half-hour semi-weekly periods, to take short courses on cultural and general subjects that are not included in their regular courses.

These short courses are offered in astronomy, art appreciation, ethics, psychology, logic, history of California, popular science, technical drawing, music appreciation, community singing, conversational Spanish, conversational French, current topics, office study, use of the library, the slide rule, and chemistry arithmetic. — Schol. Life.

NO AFTER EFFECTS FROM WAR GAS, OFFICIALS SAY

(Associated Press Leased Wire.) WASHINGTON, Dec. 3.—Armed with a mass of statistics and scientific data, the Army Chemical Warfare Service has launched a campaign to show a public that gas back with the army from France.

War has been declared against the haunting specter that lingers in the minds of thousands of those who got a whiff of gas "over there," that some day, because of lingering injury done by gas to their bodies, they will fall victim to the dread white plague—tuberculosis.

The spectre is a pure figment of fancy, said Major General Amos Fries, chief of the Chemical Warfare Service. Exhaustive scientific investigation during and since the war, General Fries maintains, and he marshaled casualty figures and the verdict of British, French and American doctors to sustain his assertion.

He failed to disclose any case whatever of evil after effects of gassing.

Gassed men, he declared, either died of rot well; there was and is no middle ground; no army of maimed and crippled sufferers such as bullet and bayonet and shell hit in their wake.

General Fries admitted the task he and the regular and reserve officers of the Chemical Warfare Service have undertaken is a thankless job. He did not attempt to deny that the overwhelming verdict of public opinion is against his settled judgment that gas is the most humane and at the same time the most effective weapon of war yet devised by man.

"It is a big job to convince 110,000,000 people, nearly all of whom think that gas is a humane weapon," said General Fries, "but that is what we are trying to do."

In the judgment of the chemical officers, fear of the after effects of gas in the minds of veterans is the most difficult obstacle to overcome in changing the views of these millions of people on gas in war. Almost everybody, General Fries pointed out, has talked with veterans who sincerely felt that they had been forever impaired physically by reason of a touch of gas.

On the possibility that gassing induces subsequent tuberculosis, the war casualty reports of the surgeon general are illuminating. They show that 75 cases of tuberculosis occurred in 1918 among the 70,552 men in the army who had been gassed, the rate per 1,000 being 2.15. The annual

An outline for guided studies in women's clubs is offered by the University of Wisconsin. The subjects presented include child training in relation to education, home economics, the nineteenth century novel, the age of knight-hood, and other historical and educational topics, with suggestions for study, questions for discussion, and references.

PROPOSALS FOR SUPPLIES Sealed bids will be received on December 10, 1925, at 2 P. M., for furnishing to the various state institutions, supplies, consisting of dry goods, clothing, furnishings, groceries, shoes, hardware, brooms, drugs, stationery, crockery, plumbing, etc., for the semi-annual period ending June 30, 1926. Specifications and schedule will be furnished upon application to the secretary at Salem, Oregon, also from the trade and commercial bureau of the Portland Chamber of Commerce, or from the Associated Industries of Oregon, both located in the Oregon Building, Portland, Oregon. Each bid shall be accompanied by a certified check representing 10 per cent of the whole amount bid, payable to the Oregon State Board of Control, or where the ten per cent amounts to \$500.00 or more, a surety bond from some company authorized to do business in Oregon will be accepted in place of the check. The same shall be held as a guaranty of the faithful performance of the contract. The board reserves the right to reject any or all bids or to accept the bid deemed best for the state.

CARLE ABRAMS, Secretary, Oregon State Board of Control.

SUMMONS In the Circuit Court of the State of Oregon for Douglas County. Edna McComas, Plaintiff, vs. Charles McComas, Defendant. To Charles McComas, the above named Defendant: In the name of the State of Oregon, you are hereby required to appear and answer the complaint of the plaintiff filed against you in the above entitled court and cause, on or before the 26th day of December, 1925, being the date prescribed by the court in the order for publication of said summons for you to appear and answer, said complaint, and if you fail to answer the said complaint on or before said date, the plaintiff will apply to the court for the relief prayed for in her complaint, a succinct statement of which is as follows: For a decree dissolving the marriage contract now existing between yourself and a defendant herein named.

This summons is published in the Roseburg News-Review by order of the Hon. Geo. R. Quinn, judge of the county court, made on the 14th day of November, 1925, and the first publication of this summons is of date the 14th day of November, 1925, and the last publication will be on the 26th day of December, 1925, making a period of six full and consecutive weeks.

R. W. SEANSTERS Attorney for Plaintiff, 219-20 Perkins Building, Roseburg, Oregon.
