The non-service grocer makes you deliver your money to him and then you carry your groceries home yourself. Who gives the delivery service, you or your grocer? It costs no more to let him serve you. You don't have to pay him for the privilege of serving him. Demand service. We are here to serve you and at the same time offer the highest quality goods at the lowest possible price. The fence planned, is seven feet high, woven wire, with three strands of barbed wire on top. A number of students showed some hesitation about accepting the proposal, as it will take the students several years to finish payment. The fence is said to be needed railing games to prevent people from avoiding the ticket-takers, and to keep autists from damaging the field when marked. Those opposing the motion claim that a grandstand is more necessary to the field and that the new school should receive some of the student body funds. Cook with gas.
