First Christian Church — Are women more religious than men? They are, it seems. Yet if anybody needs religion, its a man. He has lots of us for it. Last Sunday there were 90 women in th two womens classes and only 35 in the mens class. This doesn't seem to be just a proper proportion. Men, what's the matter with being on hand next Sunday. There were 325 in Bible School last Sunday. The car bringing the largest load was a Chevrolet with 24. The preachers load was a fizzle. He only had 14.

Next Sunday morning the sermon will be on the subject "Did Jesus Come At The Right Time". In the evening "What The Christian Church Stands For." This is an important message, hear it. Our Christmas program will be given on Sunday evening following Christmas.

INVESTITURE NEW CARDINALS AT ROME VERY IMPRESSIVE

(Associated Press Leased Wire.)

ROME, Dec. 17. — At a public consitory todsy the red hat was conferred on Cardinals created in the consistory of March 20 last and in the secret consistory of last Monday.

Today's function was one of the most largely attended since the time of Leo XIII on account of the number of people in Rome for the Holy Year. Special tribunes had been erected for members of the royal house, for the Roman aristocracy, the diplomatic body and the family of the Pope. The hunt for tickets was without precedent.

Pius XI was carried in on the sedia gestatoria, flanked by the flabelli, gorgeous feather fans. Followed by the resplendent and multi-colored court he mounted the throne and was saluted by the sistine choir. On both sides of him sat the members of the sacred college in their purple robes.

Pius XI solemly repeated for each new cardinal the formula "Accipe galerum rubrum," while a master of ceremonies held the red hat in turn over the head of each new member of the sacred college who was then embraced by all of his colleagues.

The ceremony ended with the apostolic benediction imparted by the pope.

THE HIGHWAY TO LIFE

millions now living will never die

Not in any past ages was the Highway to Life opened up; for in all past ages men have continued to die.
The Highway to Life means what the words imply; namely, a way by which the people can get eternal life here, now.
The casting up of this highway and the gathering out of its stones is in progress before our eyes.
The way of the people, a way they have never hitherto had, is being made ready for them—the way by which they will gain everlasting life on earth.

ANDREWS TELLS OF THRILLING TRIALS

By Dr. Roy Chapman Andrews.

The motor car will be the "covered wagon" of the Gobi Desert in Mongolia, the most extensive undeveloped and unexplored region now left in the world. Motor vehicles will be to this quarter of the globe what the ox-drawn and horse-drawn canvas topped wagons were to America's Great West, and it is conceiveable that some scenario writer of the future will give us a screen drama of central Asia comparable to the splendid picture based on Emerson Hough's book.

This practically unknown territory is half as large as the United States, Alaska excluded. If you put Mongolia down on the map of the United States, it would extend from Washington on the east to Nevada on the west, and from Austin, Texas, on the south to the Canadian border. It has never been open to the world because of the impossibly slow traffic of camel trains, the only means of communication. But now it is being criss-crossed in every direction by motor cars, or more correctly by one motor car, the Dodge. Sixty or seventy Dodge Brothers cars are making regular trips far into the interior of this vast waste., bringing ont loads of sables and other precious furs, wool and other products.

No car except the Dodge is found far in the interior. We have tried it out on each of our three expeditions and have had it demonstrated to our satisfaction that the Dodge is the only car that will stand up under the strain of the roadless desert and do everything we ask it.

The Dodge and I went through some thrilling and extraordinary adventures together. For one thing, I believe I can say truthfully, that I am the only man in the world who ever shot a mountain sheep from the seat of a motor car. I was able to do it because, apparently, the sheep was so astonished to see such strange creature as a motor car in its rocky domain that it forgot to run away.

It happened one day while I was driving my Dodge up and down a series of steep ridges in the Altai Mountains. Everybody knows that the mountain sheep is about the most timid creature in the world. Bagging one of them is a rare event, for the hunter must be, not only a mountain climber of rare ability, but an exceptional shot. When I first saw the one that I got, it was standing on a point of rock high above me. Stopping the car, I grabbed my rifle, expecting to see the sheep go bounding away. Instead the sheep, astounded and curious, took a few steps ahead to get a better view of this strange creature hat had invaded its fastnesses. It stood motionless in full view, and I brought it down at the first shot.

PIERCE DENIES PLAN TO GIVE DALRYMPLE NEW JOB

(Associated Press Leased Wire.)

SALEM, Ore., Dec. 17.—Reports circulated here that Governor Pierce contemplates asking the state board of control to turn over to the state penitentiary the old boys training school plant, from which the boys are now being transferred to the new school near Woodburn, to be operated as an intermediary prison for first offenders, were denied this morning by the governor.

The reports were to the effect that A. M. Dalrymple, recently deposed as warden of the penitentiary, was slated to be named by the governor as superintendent of the auxiliary prison. Dalrymple recently returned from an extended trip through the eastern and southern states, where he spent more than a month visiting and studying methods in prisons and reformatories.

"In my final message to the legislature I will recommend that the old training school be converted into such an intermediary prison and that application for its establishment be made," said the governor, who also expressed the opinion that it could easily be made entirely self-supporting.

SEARCH FOR NEW WRITERS FOR THE MOVIES PROVES HARD TASK

NEW YORK, Dec. 17.—(A. P.)—The potential scenario writer should first sell his story for publication, conclude scenario editors of eight leading motion picture companies.

A story published in book form or in a magazine, has an advantage over the original script, in their opinion. To the author, it means added revenue and a wider distribution. To the producer, it means more public interest, with a resultant box office drawing power and protection from plagiarism suits.

The motion picture producers and distributors of America, in assembling the editorial viewpoints, discovered that although more than 100,000 persons annually are submitting manuscripts, only three or four ever reach the silver sheet. As a result, the producers are compelled to depend principally upon highly trained writers, the novel, the stage play and the magazine.

Scenario editors are constantly seeking new writing talent. In showing the need of original matter, one editor called attention to the producing program of 600 features a year by the companies.

"From what sources can we draw this material?" he asked. "If we get ten good ones from the plays produced each year it is a big average. The same is true of the books published. Of short stories, if there are fifty good ones, it is a high average. That makes seventy pieces of spoken and written literature which could be converted into really high grade special motion pictures. With a program calling for 600 features, the remainder are taken from built-up mediocre material and perhaps the issuance of some remakes and the original story."

Screen writing is as difficult as stage writing, the editors agreed, and it requires hard, untiring effort for success.

COUNTY CLERKS OPPOSE REGISTERING VOTERS ON ELECTION DAY SWEARING

PORTLAND, Ore., Dec. 17.—Opposition to the state law by which voters sworn in at the polling places on election day are given permanent registration was voiced today at the opening session of the annual meeting of the county clerks' association of Oregon, held in the office of County Clerk Beveridge of Multnomah county.

The law, it was declared, has caused much confusion and has piled up unnecessary work on the county clerks. A large percentage of the registrations at the polling places, it was pointed out, are defective, and are subsequently withdrawn from the clerks' files. It was the opinion of the clerks that those who are sworn in at the polls should be allowed to vote only in the election for which they are sworn in and that permanent voting privileges should be given only to those who register with the county clerk or the election commissioner. No action was taken.

YOKEL BEATS KARASICK

PORTLAND, Ore., Dec. 17.—Mike Yokel, Salt Lake light heavyweight wrestler, last night won a decision over Al Karasick when the latter was unable to continue the match after Yokel had thrown him with an airplane spin.

Karasick had previously won the first fall in forty minutes with a headlock. The second fall came 25 minutes later.

POLISH STUDENT, SECOND DREYFUS, FREED BY COURT

(Associated Press Leased Wire.)

LEMBERG, Poland, Dec. 17.—Stanislaus Steiger, whose trial on charges of throwing a bomb at President Wojciechowski arouse international interest, was acquitted today.

Steiger, a young zionist student, has been termed the "Polish Dreyfus" because of the similarity between his case and that of the unfortunate Captain Dreyfus in France.

Steiger was arrested on a charge of throwing a bomb at the president last year, it being charged that he was seen running away from the scene. He vehemently protested his innocence, declaring he fled for self preservation. The bomb did not explode.

The trial began in October but had been under way only a short time, when Teofil Olshanski, a Ukranian, who fled to Lithuania after the attempts, was reported to have confessed.

The Steiger trial nevertheless was continued and dispatches through Berlin said that the court had set aside Olshanski's confession.
