AROUND THE COUNTY

CLEVELAND ITEMS

Where the Community spent Christmas:

Our high school students, Lucy Becker and Ralph Krohn at their homes here.

G. W. Reynolds and family and Mr. and Mrs. Grove and children of Rice Creek at Smiley's.

Frank and Martha Good at Eugene.

Patricia Hogan, our teacher, at Medford.

Mrs. S. Woodruff of Roseburg, and daughter, Lois, of Corvallis at John Krohn's.

Mr. and Mrs. E. G. Trozelle at Feast's in Edenbower.

Mrs. Minnie Becker and family, at Albert Becker's.

Walter Koken, county agent at Hood River, and wife motored down from Hood River to spend a few days with Mr. Koken's parents.

Mrs. Mabel Maxwell spent a few days with her parents, Mr. and Mrs. Reynolds.

Paul Jaquins came down from Washington to visit at the home of his sister, Mrs. A. Becker for a few months.

Alice Feat and Vera Baker of Edenbower, attended the Xmas en-

tertainment given here last Wednesday night.

E. G. Trozelle is starting the new year right by purchasing a new Ford truck.

We are sorry to hear that Grandma Pierce is on the sick list.

A fine Xmas program was given by the children of the school and Sunday school at the church last Wednesday night. A large crowd was in attendance. After the program generous sacks of candy and nuts were given to all present.

Beau Brummel and wife, who were to have passed the presents failed to appear so the honor fell to Ananias and his inseparable companion, Brigham Young. A crippled cane was given to Bill Van Wey, and a box of pure Copenhagen to Robt. Tjomsland, which caused the rest of the Swedes present to turn green with envy.

We had heard that Santa Claus was dieting and now we believe it. His six foot height and loss of frontage belied his proverbial stature.

There will be a community watch party at the church next Thursday night. Everybody come and bring a lunch. Don't forget the coffee. X. X.

life in its lowest forms.

Professor E. F. Howell of the department of geology at Princeton university, the discoverer of the plate, said that it corresponded to the scale of the present species of fish. It was described as being part of the armor which probably defended the head and foretrunk of some hitherto unknown fish. It is said it may throw light on the origin of the fish as a genus.

The plate is now in the Princeton museum of Paleontology. Professor Howell and Professor Charles Schuchert of the department of geology at Yale found it last summer on the final day of a field expedition which was one of a series extending over 12 years by Professor Howell to find Chotodata in Cambrian strata.

BORN

FRETWELL—To Mr. and Mrs. Hugh Fretwell, of this city, Monday, December 28, 1925, a girl.

STAFFORD—To Mr. and Mrs. A. H. Stafford, at their home on Ford street in this city, Tuesday, December 29, 1925, a girl.

A. Bemis, of this city, and are remaining over for several days to visit Franklin, Clifford Bemis, and Mrs. Geffen are sons and the daughter of Mr. and Mrs. F. A. Bemis.

EXPORT BILL FOR FARMERS IS GIVEN O. K. BY COOLIDGE

WASHINGTON, Dec. 28.—Im-pressed by the complaints of western members of congress and agricultural leaders, the administration is considering amendment of its farm relief program so as to provide for government supervision over agricultural exports.

With members of the Iowa delegation in congress preparing to leave tonight for Des Moines to consider at a state meeting what relief steps can be taken outside the present administration program, President Coolidge an Secretary Jardine conferred about the situation today and there were indications that an export supervision bill would have the support of the White House.

Such a bill would be drafted for introduction soon after the holiday recess and farm leaders in congress expect the administration to give it their active support. The measure will provide for a federal commission of seven members to take over any surplus from major farm products which cannot be sold in this country on par with the cost of production.

A levy would be charged against the producers of such a crop as a step to prevent over production. The commission will be financed largely from the levies and only a small federal appropriation will be expected. Crops to be handled by the commission would include wheat, livestock, cotton, tobacco, dairy products, fruits and vegetables.

CHINESE VICTOR SLAYS REBEL AND WIFE, IS REPORT

Rest of Family Doomed to Like Fate—American Marines Dispatched to War Region.

TOYKO, Japan.—The foreign office has received advices from the Japan counsel at Mukden, that the Chinese general, Chang Tso-Lin has refused to promise mercy for the preservation of the lives of the defeated Marshal Kuo Sung-Ling's family and also for the lives of Kuo's principal officers. Consequently it is feared that a general execution of Chang's enemies is imminent.

The Japanese government is doing its utmost to prevent Chang from wreaking vengeance, the foreign office stated, but it is feared the efforts will prove useless.

Word was received from Shanghai by the foreign office that all of Kuo's troops surrendered and have joined General Chang's forces. In consequence the warring between the two factions, whose recent hostilities have centered around Mukden, the Manchuria capital is believed to be finished. The cruiser Hiram, which previously had been sent to Chingwangtse for the protection of nationals, was ordered to return to port at Port Arthur.

Minister of Foreign Affairs Shideara conferred with Lieutenant General Insei Ugaki, minister of war, urging the immediate recall of all Japanese troops stationed at Mukden. All Korean troops were ordered to return to Seoul immediately and the Kyushu troops early in January will return to Japan, their places being taken in leased territory there by replacement troops. The Spokesman for the foreign office stated that thus far no confirmation had been received of the reported execution of Marshal Kuo and his wife by Chang, but believed that the report was authentic.

Chang Tso-Lin is reported to be in Mukden, jubilant and happy, and besides celebrating his victory over Kuo is also celebrating the birth of a child by his fifth wife.

WASHINGTON, Dec. 26.—A company of American marines is en route from Manila to China, but where the movement has any specific significance to the Chinese civil war fare has not been learned.

Lacking official explanatory advices, it was believed the sailing of several destroyers with the marine was of routine nature, although developments in China during the last two days have been closely watched by Washington authorities.

These included the reported capture on Thursday of Tientsin by the national people's army, and the killing yesterday of General Kuo Song.

In the capture of Tientsin, the people's army was said to have defeated troops of General Li Ching, former governor of Chihli province.

Peking, it is thought, may be the destination of the marines sailing from Manila, since they would not likely be needed at Tientsin, where the army has charge of American military activities. Admiral Clarence S. Williams, commander of the Asiatic fleet, recently informed the navy department that he planned to send soldiers to Shanghai as relief units and possibly the marines will relieve others at Peking.

EXPLOSION ON WARSHIP.

BOSTON, Mass., Dec. 28.—Three men were injured today when an acetylene gas tank exploded on board the U. S. S. Florida now in drydock at the Charlestown Navy Yard. The explosion, the cause of which has not been determined, was followed by fire which was extinguished with slight damage.

NEWSY BITS

TAMPA—Red Grange fight! Not for \$1,000. He has scored that much to take part in a 10-round bout. Nor would he engage in a bull fight.

WASHINGTON—Official farm statistics as to Manhattan Island: Farmers, five; livestock, two mules, eight horses, 17 cows; acreage 72; mostly potatoes.

CHICAGO—Women who display their liquor indiscriminately New Year's Eve are liable to arrest just like men. The warning comes from prohibition headquarters.

MEMPHIS—A young Memphian, who confessed to having stolen \$400 worth of Christmas gifts from the home of Mrs. J. R. Taylor, was released yesterday when the latter refused to testify against him. A dreary Christmas spent by himself and his wife in want was given as his reason for the theft.

LOUISVILLE, Ky.—The Charleston has been banned by the Shawnee Club. Dancers doing the Charleston at a dance recently caused the building to rock violently and bits of plaster to drop from the ceiling, hence the ban.

PARIS—Some Americans think the price of Christmas dinners looked like the figures of the French debt to the United States. The lowest for champagne was \$4.

DOORN.—Wilhelm preached a sermon, wore a Prussian general's uniform and sat on a throne, all on Christmas, to say nothing of sending poor families wood that he had chopped himself.

MADRID—Newspaper folks are happy because Primo de Rivera has decided not to make them get out Sunday issues as planned. Instead the government is going to print a Sunday paper itself.

NEW YORK.—Co-eds at New

York University disagree with the Rev. John Roach Strattton's statement that marriage and college life are incompatible. "L. E." writes four other co-eds who are also married; their marks have improved, and instead of going to bridge parties, indulging in gossip and becoming social parasites they are leading lives far more beneficial for mind and body.

LONDON, Eng.—Foreheads have again become fashionable, but women's ears must still be covered up and are useful only as appendages from which great wigs may dangle. London hair dressers have come to the rescue of women whose heads and faces lack the highly classical lines necessary to make the sleeked down hair becoming. The hair is now swept straight back from the forehead and the first and second daily waves cause graceful loops to fall over the ears, merely indicating the shape of the head without accentuating unattractive lines.

PARIS—To be "a painted lady" has no particular significance in these days in the opinion of a trade journal representing the manufacturers of face paint and face powder. At a grand opening of one of the leading dressmakers in Paris recently, out of nearly 200 women only three by actual count, had not undergone the beautifying process of rouge, lipstick or crayoned eyebrows.

NEW YORK—Three unidentified men were shot and killed early today as the climax of a Christmas dance at the Adonia social club, a South Brooklyn resort.

The triple crime was discovered when a policeman found one of the bodies lying in the street. He made his way to the dance hall and found the other men lying amid broken furniture which had apparently been wrecked in a terrible struggle. The hall was deserted.

New Year's edition 10c copy—wrapped, ready to mail.

TINY FISH SCALE MAY UPSET THEORY OF AGE OF WORLD

NEW YORK, Dec. 26.—A fossilized fish scale, scarcely larger than a match head, discovered at St. Albans, Vermont, is forcing scientists to extend estimates of pre-human life backwards millions of years, the New York Times says today.

"Howell's dawn fish" is the name that has been given this denizen of the Cambrian age which it had heretofore been supposed was peopled only by invertebrates and plants of the lower order. Although there is no information on which to base a description of this "fish plate" as it is called, scientists say it is highly important because it proves that Choro Chordate—or primitive vertebrate, existed in what had been considered a "boneless age," 50,000,000 to 100,000,000 years ago at the dawn of
