The suggestion is made that the acreage be reduced ten per cent and that ten million pounds of the crop still unsold be destroyed in the interest of the industry.

HUNGRY FERRETS GNAW ON INFANT

(Associated Press Local Wire.)
BERLIN, Jan. 13.—The hungry ferrets last night gnawed their way through a cage and probably fatally injured two-year-old Katie Bitterling as she lay in her crib. They had chewed off two of the baby's fingers and bitten her arms and face before her screams awakened her foster parents. When the parents reached the side of the crib the child was unconscious from the loss of blood. The physicians who were called said the baby probably would die.
