Gill's Improved Golden Bantam

Larger, Sweeter and Better in Every Way

We specially recommend this strain, the good qualities of which have been developed on our farm as a result of 18 years of research, study and careful work. It is nearly twice the size of the original Golden Bantam and very much superior in quality. Nearly all ears carry 12 rows of deep, rich golden yellow kernels, set close upon the cob. Do not compare this with the original strain, as it is far superior in every respect, and any gardener who places this corn on the market will command better sales and prices. It has no superior for market, table, canning or drying. We carry the exclusive seed of this improved strain. Remember, we are improving this variety every year and if you wish the up-to-date selection, buy direct from us each year. We have received many letters of praise for this corn. Many of our customers will have nothing else. 144 lbs. 10 lbs. 25 lbs. 50 lbs. Express or freight, 10 lbs. 10 lbs. 25 lbs. 50 lbs. 100 lbs. 100 lbs. 100 lbs.
