MUSSOLINI SHOT IN TRY AT HIS LIFE

Bullet Fired by Fifty Year Old Daughter of British Lord Pierces Nose.

WOUND NOT SERIOUS

Woman Arrested and Mob Vents Ire in Rioting, Wrecking Plant of Newspaper.

(Associated Press Leased Wire.)
ROME, April 7.—The woman who shot Premier Mussolini gave her name to the police as Violet Albina Gibson, nee Dalkey. She is a British subject, fifty years of age.

PARIS, April 7.—A Havre dispatch from Rome says the attempt upon Mussolini's life was followed by demonstrations, in one of which the printing plant of Il Mondo, anti-Fascist newspaper, was destroyed.

Bullet Hits Nose.

ROME, April 7.—An attempt was made to assassinate Premier Mussolini this morning. A woman fired a revolver point blank at him but he escaped with a slight wound. Mussolini was shot through the nose.

The shooting occurred at about 1:15 a. m., while he was leaving the session of the congress of international surgery in the Place d'Orléans to enter his automobile.

A great crowd was around the entrance cheering the premier when the woman pressed to the front and pointing a revolver directly at him, pulled the trigger.

The woman whose identity has not been disclosed was rescued from the crowd with great difficulty and was rushed to the jail where women prisoners are confined.

Mussolini, who was submitting to medical attention, maintained great composure. He ordered that immediate disposition be taken to preserve order and that no retribution be taken.

The woman who fired the shot is 50 years old and of foreign nationality. News of the attempt created a sensation not only in Rome but in the other cities throughout the country where it was made known.

The semi-official Stefani Agency says the immediate reaction was the organization of manifestations of loyalty to the Fascist chief.

Premier's Enemy Dead.
CANNES, France, April 7.—Giovanni Amendola, chief of the opposition in the Fascist government in Italy, is dead here. He was 45 years old. Signor Amendola was minister in Italy in 1919-22 and later minister of the colonies.

Not First Attempt.

While Mussolini and the Fascist regime have a firm grip on all Italy the opposition has been active, especially since the kidnapping and assassination of the anti-Fascist deputy Matteotti in June, 1924.

Early last November a plot against the premier was uncovered. Tito Zaniboni, a former Socialist deputy, was arrested in a home adjoining the Chigi palace, on the balcony of which Mussolini was to deliver a speech. The authorities declared he was equipped with a rifle with telescopic sights and intended to shoot the premier from the window of his room. Zaniboni and others arrested at the time still are awaiting trial.

Mussolini is no stranger to wounds. In February, 1917, while serving on the Austrian front he received the major portion of the charge of a hand grenade. Ninety-eight wounds were counted on his body and he was invalided home, returning to the editorship of his newspaper, the Popolo d'Italia.

Lady is Eccentric.

LONDON, April 7.—News that Premier Mussolini of Italy had been shot and wounded by a woman giving the name of Violet Albina Gibson caused a sensation in London. The daughter of the Lord Ashbourne is the Hon. Violet Albina Gibson, aged 50. The press association says:

"In connection with today's attack on Mussolini, the press association is informed by a member of the family of the late Lord Ashbourne in London that the Hon. Violet Albina Gibson is at present in Rome. She is a lady of somewhat eccentric temperament."

Crowd Wrecks Newspapers.

ROME, April 7.—Violet Albina Gibson, would-be assassin of Premier Mussolini, is a sister of the present Baron Ashbourne of England. After she shot the premier the woman was seized by the crowd, which seemed bent on taking vengeance for the attack on their chief. She was rescued with difficulty and hurried to a cell. Mussolini, whose nostrils had

CITY STILL LURES THOUSANDS FROM AMERICAN FARMS

(Associated Press Leased Wire.)
WASHINGTON, April 7.—In the farm population of the United States in 1925 the Department of Agriculture estimates the number of persons living on farms January 1, 1926 to have been 30,655,000, compared with 31,134,000 January 1, 1925.

The estimated net movement away from farms last year amounted to 901,000 persons, but there was an estimated excess of farm births over farm deaths amounting to 442,000 which reduced the loss due to cityward movement to 479,000.

SCHOOL BOARD FAILS TO SELECT NEW DIRECTOR

Action May Be Postponed Until Election to Be Held in June.

TEACHERS CHOSEN

Instructors Elected for Junior High and Grades—Appointment Turner Is Confirmed.

Election of a school director to fill out the unexpired term of Director John Reese, who recently tendered his resignation, occupied several hours of the school board meeting held last night. After a long period of discussion the board failed to take definite action and it may be possible that the choice will be left until the school election in June.

Three candidates were proposed last night, G. C. Finlay, a former member of the board, Fred Miller, an S. P. employee, and H. S. French, proprietor of the French Transfer company. The board spent considerable time discussing the matter of appointing one of these three men to fill out Mr. Reese's term, but no action was taken. There was some sentiment expressed that as long as the election is so close that the appointment of a director should wait until the voters can express themselves regarding the man to fill the position.

Last night's meeting was quite lengthy, the directors being in session until after 2 o'clock this morning.

A number of teachers were elected to fill vacancies in the various schools.

Marie Ring, Mildred Moist, Katherine Olson, Bernice Fitzwater, Edna Wicklem and Vera Fredericks were employed as instructors in the grade schools. Allen Wickham, Gladys Litscher, Genevieve Watson and Mary Veatch were elected to the junior high school, and E. S. Hall was elected principal of the Rose school.

The appointment of H. H. Turner as athletic coach and supervisor of physical education for the senior high school was approved. Mr. Turner is now assistant coach at the Oregon Agricultural college.

Mr. Hall, who was chosen principal at the Rose school, is 28 years of age, a graduate of the Oregon Normal school, and has had several years of teaching experience. He has taught in the schools at Harrisburg, Warrenton and Hammond, and for the past year has been at Cottage Grove.

Miss Ring, one of the teachers employed for the grade school, is a Portland girl, and is graduating from the Oregon Normal this year. Miss Moist, is from Lebanon and has been teaching for two years at Silverton. Miss Olson was a teacher in the Roseburg schools for five years but has been on a leave of absence for the past year, having visited at her home in Finland.

Miss Fitzwater is a resident of Lebanon and has been teaching in Cottage Grove for two years. She graduates from normal college this year. Miss Wicklem has been teaching at Roberts Creek for the past year. Miss Fredericks was formerly an instructor at Winston, where she was located for two years. She graduates this year from the Oregon Normal. Miss Wicklem and Miss Fredericks are both Roseburg girls.

Allen Wickham, who was one of those selected for the junior high school, is a graduate of Roseburg high school and completes his normal course this summer. Miss Litscher is a graduate of Linfield college and has had two years of teaching experience. Genevieve Watson is a graduate this year

AIR MAIL PILOT FRANKLIN ROSE STILL MISSING

Ranchers and Indians Join in Horseback Hunt in Nevada Desert.

PLANES GO OUT LATER

Employer Thinks Man Lost on Initial Trip Will Be Found Safe in Duck Valley.

(Associated Press Leased Wire.)

ELKO, Nevada, April 7.—Searching for Franklin Rose, missing air mail pilot, today consisted mainly of ranchers and Indians scouring the desert wastes north of here on horseback. No airplanes have been sent out from here, and none will leave before 1 o'clock, Pacific time, when Leon Cuddeback, pilot, who completed the first southbound trip yesterday, hops off with the northbound mail at about that hour.

Walter Varney, president of the company, announced, Varney said he believed Cuddeback would surely find Rose before he reached Boise. He believes Rose made a forced landing in the wilderness of Duck valley, in southwest Idaho, and that the pilot will be found safe and unharmed.

One automobile party left here early today and no word has been received from it. Roads in this section are almost impassable.

Word from Boise was that no trace of the missing pilot had been received there. One automobile party is out, and the ranger station in the Humboldt National Forest reported not having sighted the plane.

Searchers for Rose who left for Boise, Idaho, yesterday, on the initial north trip of a contract air mail company, have traced him as far as White Rock, Nevada, and 70 miles north of Tuscarora, an Indian village in Nevada.

There is no means of communication with this section from here and no word is expected before night, it was said at the air field.

Federal Aid Ordered.
RENO, Nevada, April 7.—S. C. Cissler, general superintendent of the air mail, who is in Reno, sent a dispatch to Elko this afternoon, authorizing the use of a government plane at the Elko field in the search for Franklin Rose, missing pilot, and for a government flyer to take it out immediately if conditions are favorable for flying.

One of the men who left for Boise, Idaho, yesterday, on the initial north trip of a contract air mail company, have traced him as far as White Rock, Nevada, and 70 miles north of Tuscarora, an Indian village in Nevada.

There is no means of communication with this section from here and no word is expected before night, it was said at the air field.

Weather Bureau Ordered Southwest Storm Warnings Posted from Point Conception, Santa Barbara county, to Cape Plattery, Washington. Small craft remaining in the harbor should be warned of the danger of being blown out to sea.

The weather bureau up to 10 a. m. today, farmers on the river bottoms have been given to understand that floods may be expected.

Landslides marooned four Western Pacific passenger trains at Belden, Plumas county last night, while the Southern Pacific was fighting a mile long landslide near Porterville.

The feature of the storm today was high winds. The weather bureau reported a 72-mile southwest wind at Point Reyes at 7 a. m. The intervening hills had reduced the wind to 20 miles by the time it reached San Francisco Bay, but that was sufficient to blow commuter packed ferries about and force shipping in the stream to throw out windward anchors.

Oregon and Washington appear to be out of the storm path, although the disturbance is moving northeastward.

Mid-West Suffers.
CHICAGO, April 7.—Flood conditions today faced several mid-western localities as a result of severe rains augmented by melting snow from the heavy fall of late March.

The industrial district of Port Wayne, Ind., was threatened by rising waters of the Maumee river, swollen by rain which fell for hours.

Flood stage—fifteen feet—was reached late yesterday, with a seventeen foot stage in prospect today, sufficient to flood many blocks in the eastern part of the city.

The water in Lake Decatur, Decatur, Ill., was 18 inches above normal level early today, following a severe storm last night. Water gathering in low streets blocked traffic for several hours, although no damage to property was reported.

Feather Canyon Blocked.
SACRAMENTO, Cal., April 7.—Train travel in the Feather River Canyon has been tied up twice in the last 26 hours owing to accidents caused by the heavy precipitation in that section during the present storm, according to local officials of the Western Pacific.

A ditcher crew was working today at a point on the Western Pacific one mile east of Belden to clear up a slide that occurred last night while two passenger trains were being held on either side of the slide, while eastbound trains

Synthetic Hash Producer Now Visions Manufactured T-Bone At 5 Cents A Pound

(Associated Press Leased Wire.)
TULSA, Okla., April 7.—Visions of synthetic beefsteaks, produced at a cost of five cents a pound, were conjured before the eyes of members of the American Chemical Society today by Dr. David Wesson of New York, chemical director of the Southern Cotton Oil company. The society is holding its 71st annual convention here.

Dr. Wesson presided over a joint session of the agricultural, biological, cellulose and industrial and engineering chemistry divisions of the society.

Synthetic hash, built around a base of cotton seed meal, already has been produced by Dr. Wesson, who asserts it is indistinguishable in taste from the boning, house piece de resistance. Although he confesses that he always will have

a partiality for porterhouse and T-bones of animal origin, the chemist believes that the artificial meat can be produced at a cost of about one-fourth that of actual beef, in proportion to protein content.

Analysis of cottonseed indicates the presence of considerable protein, so that it is possible after removing the oil and other products to obtain a substance containing about 55 per cent of protein. This would make a good meat substitute. With cottonseed meal costing 50 per ton and carrying 50 per cent of protein we can get 1,000 pounds of protein for \$50, at a cost of about five cents per pound.

"Beefsteak which contains 20 per cent of protein sells for 40 cents per pound so we are paying \$2 per pound for the protein. Synthetic beefsteak is almost within the reach of the research chemist."

HEAVY STORMS IN CALIFORNIA PLAYING HAVOC

Trains Marooned by Slides, Farm Areas Threatened With Inundation.

NO RELIEF IN SIGHT

Mid-Western States Also Swept by Severe Rains and Cities Face Flood Losses.

(Associated Press Leased Wire.)
SAN FRANCISCO, April 7.—The climatic spring clod that usually prevails throughout California about this time of the year is being torn to shreds by successive storms, a national weather bureau official said today, bringing successive surges of gales, hurricanes and drenching rains.

The weather bureau ordered southwest storm warnings posted from Point Conception, Santa Barbara county, to Cape Plattery, Washington. Small craft remaining in the harbor should be warned of the danger of being blown out to sea.

The convention will meet in the M. E. Church, the program starting at 10 o'clock in the morning and lasting until 4:30 in the afternoon.

At 12 o'clock it is planned to hold a luncheon for all delegates at the banquet rooms of the church, the luncheon being arranged by the Roseburg Woman's Club. Mrs. W. M. Strohmeier being chairman of the luncheon committee.

The district federation has Mrs. J. C. Ponsler of Roseburg as its president, and Mrs. S. J. Sost, also of this city, is corresponding secretary. Other officers reside elsewhere within the district.

Mrs. Ponsler, with the aid of other members of the federation, has arranged a very interesting program for the meeting, the program being as follows:

Invocation, Rev. Joseph Knotts. Address of Welcome, Mrs. J. C. Ponsler.

Response to Address of Welcome, Mrs. Charles Robertson, Medford. Report of the meeting of the 1925 national board of directors at Washington, D. C., Grace H. Chamberlain, Ashland.

Book Review "The Business of Being a Club Woman," written by Mrs. Thomas G. Winter, past national president of the Federation of Women's Clubs, by Mrs. Earl H. Stewart, Roseburg.

Chinese proverb, "Who Taught You the Untaught," an example of improperly conducted meetings, by Mrs. W. H. Brown, Eagle Point.

Travelogue, W. G. Paul, Roseburg. Three-minute reports of the various clubs of the southern Oregon district.

From reports received the attendance at the convention is to be representative of practically every club in the southern part of the state, and the local club members are looking forward to a very interesting meeting.

The Grants Pass club has already announced the appointment of its delegates as follows: Mrs. C. B. Mason, Miss Pearl Griswold, Mrs. A. B. Brownell, Mrs. B. R. Bones, Mrs. H. L. Wilson, Mrs. W. P. Counts, Mrs. L. P. Montgomery, Mrs. Earle Voorhies, Mrs. A. C. Hough, Mrs. C. H. Woodward, Mrs. F. B. Barnes and Miss Fanny Abrams.

PORTLAND FIREMAN DROPS DEAD ON DUTY.
(Associated Press Leased Wire.)
PORTLAND, Ore., April 7.—Wilbur E. Wilbur, hoseman of engine company number 18, dropped dead today from a heart attack brought on by vigorous exertion in fighting a fire at a residence. The fire did only \$200 damage.

PRODUCTS SHOW TO BE HELD BY WOMAN'S CLUB

Reports Show Details for Coming Event Are Well in Hand.

BANQUET IS PLANNED

Dinner of All-Oregon Products to Be Given—35 Exhibitors Have Reservations.

The All-Oregon and Douglas County Products Show planned by the Roseburg Woman's Club for April 20, afternoon and evening, is to be a great success, judging from the reports submitted at yesterday's meeting of the club. Over thirty-five exhibitors have already made space reservations, and numerous others are expected. Woolen goods manufacturers, biscuit companies, coffee blenders, creameries, flouring mills, wood working mills, and many other industries are to be represented, while there will also be displays of fruits, grains, and all kinds of farm products. The show is open to all Oregon manufacturers, farmers, and producers, there being no charges for floor space or entry fees, the show being entirely of an advertising and educational nature.

The club urges that all concerns or individuals desiring reservations notify Mrs. B. W. Maddox at once in order that space may be reserved for them.

There will be enjoyable programs both afternoon and evening and there will be no admission charge to any of these entertainments, while the show will be open to the public during the entire time with admission charge. All participants in the program are to be Oregon born people.

The chief event of the show will be the Oregon products banquet to be held at 6:30 in the evening. This will be the only feature of the show for which there will be a charge, and it is hoped that a hundred of tickets may be sold. All food for the banquet is being donated by county and state individuals or organizations. Salmon, chickens, coffee, biscuits, potatoes, etc., are being furnished to the club without cost for this event, and a delicious banquet will be prepared using entire articles manufactured or produced in the state.

Persons having donations for the banquet should communicate with Mrs. A. C. Marsters. A three-course dinner is planned and proceeds will be applied to the club fund. The names of all donors will be published on a souvenir menu and program, which will be distributed to all who attend.

It is planned to make this show an annual event. An exhibition is conducted in Portland along similar lines each year, and attracts thousands of people, and the banquet is one of the outstanding events of the year. It is believed that Roseburg people will be equally interested in the local show and will give it hearty support.

Report Heard.
Reports were heard from the various committees in charge of the show and it was found that the details are well in hand.

Yesterday's meeting was well attended and very interesting. In the business session it was decided to cooperate with the Roseburg music teachers in entertaining delegates to the state music teachers convention to be held here the last of May. On the 28th the Woman's club will entertain the teachers at a luncheon and on Saturday the 29th, will provide a garden party at the library park. Mrs. Hans Looft is in charge of the luncheon arrangements.

Delegates Named.
Mrs. J. C. Ponsler, Mrs. Charles Rusho, Mrs. H. E. Coleman and Mrs. Foster Butler were named as delegates from the Roseburg club to the state convention to be held at La Grande on May 3-6. The alternates chosen were Mrs. A. G. McMullen, Mrs. W. W. Ashcraft, Mrs. Washington Hughes and Mrs. C. H. Bailey.

Delegates were also chosen for the southern Oregon district federation meeting in Roseburg on April 24, the delegates being Mrs. Mabel Smith, Mrs. T. M. Olivanti, Mrs. John Runyan, Mrs. B. W. Maddox, and alternates, Mrs. Wetherell, Miss Josephine Parrott, Mrs. L. B. Skinner and Mrs. Helen Smick.

Following the business session a very enjoyable program was heard. Mrs. Charles Rusho, accompanied by Eva Rice, gave a pianologue, "The Patchwork Quilt." W. G. Paul gave a very interesting talk on his travels in India and China. Miss Josephine Parrott presented a book review on Mark Sullivan's latest book, after which refreshments were served.

COPCO EARNINGS IN 1925 SHOW 25 PER CENT GROWTH

(Associated Press Leased Wire.)
SAN FRANCISCO, April 7.—Development of the California-Oregon Power company went forward in a satisfactory manner during 1925, Paul B. McKee, vice president, said in making public the annual report of the company.

Gross earnings from power sales increased \$460,929.67 over the year previous, a gain of 25 per cent. The gross earnings were \$2,167,989 in 1925. Assets of the company increased from \$19,347,681 to \$22,260,166.99. The surplus has advanced from \$558,425 to \$548,527. The depreciation reserve moved to \$1,682,926 from \$1,298,178.

The generated kilowatt capacity totaled 246,749,908 hours in 1925 as against 175,778,058 in 1924.

OBSTACLES IN LIQUOR CASES MADE BIG TASK

U. S. Attorney of New York Tells Senate Body of Gradual Clean-Up.

FIXING WAS RAMPANT

Great Problem Now to Halt Diversion 60 Millions of Alcohol Yearly by Bootleggers.

(Associated Press Leased Wire.)

WASHINGTON, April 7.—An intimate picture of the trail of lawlessness and corruption uncovered in prohibition enforcement in New York was given to a senate committee today by Emory R. Buckner, federal district attorney for the Metropolis.

An "atmosphere of collusion" in the federal building was described by the witness. He told of finding a meeting mass of "fixers", bootleggers and others in the building, when he took office thirteen months ago.

Jurors were bribed even in the federal building itself, Buckner said, but these conditions are now improved and the courts are catching up with their dockets.

Alcohol diversion was described by the witness as the major difficulty in enforcement. Diversion now amounts to 60,000,000 gallons a year, he said, over the entire country.

"You mean sixty millions in one year?" asked Chairman Means.

"Yes, one year," Buckner said. There appeared to be no falling-off in interest in the prohibition hearings, the committee room again being crowded with an overflow into the halls.

To speed up the proceedings, the committee decided to hold a session tonight.

AVIATORS ADRIFF FOUND BY STEAMER

SAN FRANCISCO, April 7.—A radio message received by the General Steamship Corporation here today said that two Tacoma aviators, K. L. Jones and O. L. Landers, had been picked up 300 miles south of Seattle by the Italian steamer Plave last night, after their hydroplane had been forced down by a broken crankshaft. The hydroplane was the 933-M.

The Plave is due in San Francisco with the two aviators on Friday morning.

The message gave no indication as to how long the men had been in the water or whether the hydroplane had been salvaged.

The General Steamship Company is agent here for the Plave.

BRAZILL GOES TO LOS ANGELES FOR PRICE OF \$10,000

LOS ANGELES, Cal., April 7.—Frank Brazill, the heavy hitting third baseman, was bought yesterday from Seattle by Los Angeles, bringing to a close a deal that has been hanging fire for weeks. A price of \$10,000, with no other players involved, was paid.

Angel officials declare that acquisition of the third sacker has made their team one of the strongest in the league. Brazill has been working out here daily and is in excellent condition. Last year while playing with Seattle his batting average was .394, the second highest on the coast.

Brazill was a violent holdout at Seattle, refusing to play with the Indians at all. Pitchers in exchange for him were wanted by the northern team, but rather than lose him entirely, the \$10,000 offer from J. H. Patrick, president of the Los Angeles club, was accepted.

TIMBER ON CLASS THREE LANDS MAY BE PLACED ON SALE

WASHINGTON, April 7.—Representative Hawley's bill to authorize the sale of timber of class 3 lands of the Oregon and California and Coos Bay wagon road grants was passed by the house Monday. It has the approval of the interior department and was favorably reported by Chairman Sinoott of the committee on public lands.

Class 3 lands are those with a timber stand of less than 300,000 feet to the 40-acre tract, which are automatically classified as agricultural. It has been found that many tracts approaching this figure remain unentered by settlers but the timber could be sold in neighboring logging operations and the department feels that this should be done.

SPELLING BEE ANNOUNCED FOR FRIDAY APRIL 23

Annual Grade School Contest to Be Sponsored Again by Kiwanis.

RULES FORMULATED

Committed Visits Grades Today to Present Plan Under Which Contest Will Be Held.

The second annual spelling contest, sponsored by the Roseburg Kiwanis Club, will be held on Friday, April 23, according to an announcement made today by the committee on arrangements. The committee is composed of Carl B. Neal, John M. Throne and W. M. Campbell.

The rules are practically the same as those of last year and the prizes will likewise be the same.

The contest is open to all full grades from the fifth to the eighth inclusive in the grade schools of the city. Two contestants are to be chosen from each grade, which will make 24 in all. The names of these contestants must be submitted to the committee on or before April 20.

The first prize will be a \$50 gold watch, which will be awarded to the student who spells down all others. There will also be twelve \$5 gold pieces as prizes for the winners in each grade division. The matter of arranging for prizes has been delegated to Mr. Throne.

The words will be taken from the spellers used in the respective grades, and in addition to those words a supplemental list of 1,000 words will be prepared. This list is being arranged by W. M. Campbell, principal of the Roseburg high school, who is a member of the Kiwanis committee on arrangements. This list will be published in the near future and will be available to the school children in a few days.

The judges have been selected from the Rotary club and will be Dr. A. C. Seely, B. W. Bates and J. E. McClintock. L. L. Crocker will serve as pronouncer.

A great deal of interest is being shown in the contest and the schools are already hard at work preparing for the annual event. The children are very enthusiastic and the contest will undoubtedly prove of great benefit in improving spelling in the grade schools.

A committee composed of Carl B. Neal, Dr. R. R. Shoemaker and W. M. Campbell visited the various schools this morning explaining the rules for the contest and urging participation on the part of all students.

MILWAUKIE BACKS SEWER PROJECT IN RECALL ELECTION

(Associated Press Leased Wire.)
MILWAUKIE, Ore., April 7.—An attempt to recall Mayor A. E. Cowell at a special election yesterday failed. The vote was 181 for recall, 228 against. Mrs. Edith Hazen, council member, retained her place, the vote being 79 for recall to 226 against. Councilman Roy M. McIntyre was recalled by a vote of 157 to 142 and W. G. Froy was elected his successor 152 to 137.

The recall was invoked as a result of opposition to the plans of the mayor and council for a \$50,000 sewer system. Opponents today conceded that the result of the election assured construction of the sewer.
