The June Bride Will Soon Be Here
The Trousseau Is Important and the Mode Introduces Many Pleasing Silhouettes—From the Invitation to the Honeymoon There Are Many Things to Think About.

Although it is possible for brides to receive attention during the other eleven months of the year, it is in the twelfth month of June that the bride really comes into her own. It is, of course, the month of roses—and the first balmy days are the most delightful for the honeymoon.

Spring, with its introduction of changing silhouettes, new fabrics, and appealing list of accessories at their most alluring best, permits the bride practically the whole world of things new to choose from.

This particular June offers the most unusual and beautiful of wedding gowns in that there are periods as well as modish frocks to select with charming results.

The robe de style offers a wedding gown that is particularly of festive. Taffeta, in its youthful flare is smartly suited to this type of gown and is flatteringly fitted with real laces and silver. The old fashioned bride's bouquet is effectively carried, and the veil of tulle should be caught at the head with the traditional orange blossoms. The bouffant skirt is slightly panner design is charming when accompanied by a snug bodice in the taffeta robe de style.

The more sophisticated bride selects a regal and formal bridal gown. Here white satin, snugly fitting the form, severely simple with a long train and tight sleeves, is worn with charm of elegance. A Russian headpiece and lilacs are strikingly worn and complete an unusual picture in each harmonious detail.

White velvet may be seen, too, in a straightline gown beautifully embroidered in silver and featuring a long court train falling directly from the shoulders. Silver girde and veil capped to fit the head by a crown of diamonds are fitting accompaniments to this type of gown. Orchids and lilacs of the valley are carried with stunning results.

Sweet simplicity may be found in the wedding gown of white crepe satin entirely untrammelled and relying upon its beauty of lines and cut for its distinction. A veil of beautiful old lace or tulle may be effectively caught at the head by a diadem of pearls—and the roses, in true June bride fashion may be becomingly carried in a shower bouquet.

Silver lace in the very sumptuous type of gown may also grace the month of June and here line that are simple are appropriate followed.

Bride-maids should in every detail follow the bride in the type of gown that is worn, differing a course in fabric and color.

In the wedding scene, "Men of Steel," May Allison wears an elegant bridal gown which features pearl trimming on the dress itself as well as the headpiece which fastens the long veil of net and old lace. A tiny bouquet of lilacs of the valley in shower effect is a harmonious detail of the bride's appearance.

For the bride's father to purchase are invitations to the wedding, flowers for the bridesmaid, gifts for the bride's attendants, decoration of the church, conveyance to the church, music at the ceremony, the bride's gift to the groom and the wedding reception.
