MARSHFIELD WINS FIRST GOLF ROUND FROM EUGENE TEAM

(Associated Press Leased Wire.) EUGENE, Ore., June 21.—Marshfield won the first round of the low-country golf tournament between Eugene and that city, played yesterday on the local links, by the scores of 28 to 26. A number of Eugene's first string players were unable to play, being out of town. At the end of the first nine holes, or half way point in the match, in the morning, the two teams were at a dead heat, with tenall, but the visitors came through a little stronger in the second nine and won the match. Eugene will play the return game at Marshfield, Sunday and Labor day, September 4th. The local clubmen plan to make a two-day trip over the weekend holidays.

C. K. CRANSTON NAMED SUPREME COURT CLERK

(Associated Press Leased Wire.) SALEM, Ore., June 21.—Arthur S. Benson, clerk of the state supreme court, has appointed C. K. Cranston of Pendleton as deputy clerk for the eastern Oregon sessions which meet at Pendleton twice a year.

RUSSIAN INDUSTRY LEANS TO CAPITALIST STANDARDS

(Associated Press Leased Wire.) NEW YORK, June 21.—Soviet Russia is "working hard to reconstruct and develop industry, agriculture and commerce" along largely capitalist lines, says a report of the Foreign Policy Association. "The Soviet authorities have frequently been obliged to scrap their Communist theories when the latter clashed too harshly with economic realities and have made big concessions to capitalistic

ABOUT LOST ALL FAITH SHE HAD IN MEDICINE

But That Was Before Portland Woman Took Karnak and Was Restored to Such Splendid Health—Now She and Her Husband Both Praise This Remarkable Preparation. "My stomach just seemed to stay upset, and indigestion, gas, flatulency and nervousness kept me feeling miserable all the time. And I tried so many different medicines without any results that I just about lost faith in all of them. "But we read what so many Portland people had to say about Karnak that my husband got this medicine for me, and it has simply built me up like a different person. It has quieted my nervous system, has put my stomach in order so that I haven't a trace of indigestion, gas or flatulency now. My husband is taking the medicine now and praises it just like I do. I tell you, it's just the grandest medicine made." Karnak is sold in Roseburg by Nathan Fullerton, the Rexall store, and by all other leading druggists in Roseburg and every other town.

Mary "Colds" Caused by Poor Ventilation

To find better preventive methods, doctors in recent years have been studying the common cold more carefully than ever, and two authorities have summarized the supposed causes of this affliction under five headings; chills and drafts, conditions of the weather, irritation of the membrane on the breathing apparatus, infection and bad ventilation. The last is regarded as the commonest of all the causes, as warm stagnant air produces congestion in the mucous membrane which becomes covered with a thick secretion and affords a weak spot for germs to attack. In cool air, this membrane remains taut and well moistened. Then, in a poorly ventilated room, cold currents of air are likely to strike the feet, while the head is exposed to the warm, polluted upper atmosphere. This is just the reverse of what is considered the ideal condition for health, "cool breezes blowing around the head, the radiant heat of the sun, and a warm ground to stand on." Exposure alone will not cause colds in healthy individuals, the doctors declare. Arctic explorers, fishermen, and others who remain out of doors for long hours in stormy, cold weather, often seem immune from these disorders. Irritation of the mucous membrane of the respiratory passages by dusts and chemicals is also a common cause of colds.—Popular Mechanics Magazine.

Parts of Old London That Have Been Moved

It is frequently pointed out that Temple bar is at Theobald's park, and that the front of old Merce's hall, designed by Sir Christopher Wren, is now the front of Swanage town hall, but there are bits of London which have gone much farther afield and are not so well known. In the cathedral of Ghent, in Belgium, are elaborate copper candlesticks that once belonged to Old St. Paul's. It may be asked how they escaped the great fire. The fact is they had been sold by Cromwell about sixteen years earlier. Still farther afield has gone the old rose window of the south transept of Westminster abbey, also the work of Wren. It was removed about twenty-five years ago to make room for a new window in memory of the late duke of Westminster, and was given to the cathedral in Cape Town. In the garden of the White Bear Inn near Addiscombe, Croydon, stands the figure of a real-looking white bear made of wood. This used to be a prominent object where the electric signs now blaze at Piccadilly Circus. Until sixty years ago the White Bear Coaching Inn stood on the site now occupied by the Criterion restaurant, and this huge wooden bear was its sign.—London Tit-Bits.

Oldest College Fraternity

Phi Beta Kappa is the oldest Greek letter college fraternity in the United States. It was founded December 5, 1776, at William and Mary college, and had established chapters at Yale, Harvard and Dartmouth before 1800. It was originally secret and social in character, but gradually this was dropped and the fraternity became what it is today—an honorary society, membership in which is conferred at graduation, or shortly before, upon those students who stand high in scholarship throughout their college course. To be chosen is a high scholastic honor. Women as well as men may belong. The Greek letters, Phi Beta Kappa, stand for "Philosophia Beta Khermetes," meaning "philosophy the guide of life." The emblem is a small gold watch key.

Had Little Use for Bath

In "Lord Grenfell's Memoirs" there occurs this story, told to Lord Grenfell by a surgeon that had practiced in South Africa, regarding the simple manners and customs of the Boers: "A medical friend of his nearly lost his practice with a Boer family for prescribing abortions for an elderly Dutch woman. Her husband strongly remonstrated, saying: 'Young man, you are a stranger in this country and recommend new customs contrary to our usage. I have been married to my wroth for thirty-five years, during which time water has been used, I touched her body. You are ignorant, sir, of our mode of life, and do not understand our wants! Begone!'

Early Locomotives

The first successful locomotive made in America, the "Best Friend," was built at West Point foundry, Cold Springs, N. Y., and given its first trial about ninety-five years ago, says the Chicago Journal. During the previous year Peter Cooper, the American Philanthropist, had constructed a locomotive at his iron works near Baltimore. This was called the "Tom Thumb," and was tried on the Baltimore & Ohio railroad, but was too small for any practical use. A locomotive was imported from England in 1829, and served as a model for the American builders, although it was itself a failure.

Dresses on Exhibition

The dresses worn by wives of Presidents of the United States from Martha Washington to and including both Mrs. Wilson, are preserved at exhibition at Smithsonian Institution, Washington. The women say the gown of Dolley Madison is the prettiest, the most artistic, made of heavily brocaded white silk, embroidered in bouquets of flowers in natural colors, sweeping floor length, tiny waist, puffed sleeves, richly trimmed. It surpasses all the others. Anyway that is what a Kansas woman tells Evelyn Herbert, says Capper's Weekly.

DEATH AWAITS ANY CHINESE HARMING ALIEN VISITORS

(Associated Press Leased Wire.) PEKING, June 21.—The British consul at Chengtu reports that on June 8, an American woman, Miss Manley, was dragged from the rickshaw in which she was riding by an untrained Chinese who tried to strangle her. Miss Manley was slightly injured. She was rescued by bystanders who handed over her assailant to the police. As a consequence of representations of the consuls, the authorities at Chengtu issued a proclamation saying that any Chinese found molesting foreigners would be immediately shot.

Let's welcome Summer with a new outfit—fine car—new tires—bright household—and plans for a Fourth of July Tour

Summer is here—officially. This—the 21st—her birthday. Let's celebrate—for she's the gayest and kindest of seasons.

Let's spruce up, doll up, paint up, clean up—let's abandon the old togs, the old ways and the old conservatism—let's step out and buy!

New clothes put new color in life's picture, new pep in the step. A new rug—new porch furniture—animates the cheer of the home. New tires, a new battery and clean cylinders revitalize the good old car. A new trunk—a new suitcase—brings vacation days closer.

Let's link arms and step out!

Retail values were never greater—or fairer. Never has there been so much offered for the money—in style, in variety and in utility. That applies on all desirable and usable things—all commodities—all articles, whether for adornment of person or home.

As a newspaper with interests of all at heart, we believe it our duty to point out these things. People far more interested in their own thoughts, their own pleasures, their own cares frequently overlook the trend of values. Values are like the tide—they advance and recede. The time to buy is when the dollar buys most... and that time is NOW!

Buying now means saving money. There is no other practical viewpoint.

So, like all prudent, thrifty citizens, let's buy NOW!

Three Glorious Days are Coming!

Holidays! July 3-4-5. Spend them touring... behind the steering wheel... unwinding mile after mile of beautiful scenery... with a pause at quaint, cool inns for fresh country-cooked foods. Get the car in shape—and pick out the long, long trail. If tires or accessories are needed, buy them now.
