first became associated with the law firm of ex-Senator Chamberlain in Portland.

She became his secretary when Mr. Chamberlain was elected governor and her assistance to him was so valuable that she went along to Washington upon his election to the United States senate.

At Salem the present Mrs. Chamberlain, then secretary to the state executive, served as governor a few days while Governor Chamberlain was out of the state. She received considerable attention from the state press at that time.

At Washington Mrs. Shelton served as secretary to Senator Chamberlain and held responsible position with leading senate committees under the direction of the senator.

**QUESTION ABOUT DODGE GEARSHIFT WELL ANSWERED**

Why is the gearshift of a Dodge Brothers car different?

This question, one that has been asked time and again by many persons, is answered by a display of a cut-down transmission in the window of J. O. Newland & Son, local dealers.

The answer is that the transmission countershaft gears are idle when engaged in high speed, an exclusive feature patented by Dodge Brothers. Several advantages come from the transmission being idle in the speed in which nearly all traveling is done.

The advantages are direct drive in high speed, less wear on the gears, silence in running and ease in shifting the three speeds forward.

Keep your eye on Sutherland. Something is going to happen.

**North State Blazes.**

PORTLAND, Ore., July 12.—One of the worst forest fires of the season in Oregon was today on burning crews of men west of Deer Island, Ore., on the workings of the Deer Island Logging company. The fire swept away the main camp of the logging company on Caravan Creek last night.

A new fire, covering 200 or 300 acres was reported by the Silver Falls Timber company near Silver Falls, Oregon. Up to the time the report was sent last night the fire had been confined to slashings.

Fire in the Clear Creek and Beaver Creek Logging companies' areas, in Columbia county, were feared in late yesterday.

Additional fire fighters were sent out last night by the local supervisor of the U. S. Forestry service to aid in combating the fire which increases the danger of Hood national forest near Mitchell Point. With the help of many tax-payers hoped to control this fire. A new fire, covering 200 or 300 acres was reported by the Silver Falls Timber company near Silver Falls, Oregon. important transactions, insofar as the state is concerned, will be done for many years. It doubtless will have an immediate effect throughout the country, although it will probably be a number of months before the money can be received, as a careful check of tax extensions by government officials will be necessary.

The amount of a lower tax rate will prove an attraction to investors and will doubtless serve to bring about development of many enterprises and industries now planned for this locality.

**Court House Contemplated.**

Naturally, plans for obtaining the greatest possible benefit from the proceeds of the money coming to the county have already been made. The county court proposes at present to use a sufficient amount of the money to construct a new court house building, which is vitally needed at present, and to devote the remainder to the tax rate of bonds issued for road purposes. By so doing almost a million dollars in road bonds a great tax burden can be lifted from the property owner of the county.

Although Douglas County is only one of 10 counties in the state, the amount actually due is nearly one million and a half dollars.

The amount was estimated by an organization in the county which is to be organized to represent the tax payers. It is estimated that the tax rate will be approximately 1.5 percent on the value of the property. The tax rate will be approximately 1.5 percent on the value of the property.

**2 DETECTIVE AND 2 PRISONERS SHOT DOWN IN AN AUTO**

(Associated Press Leased Wire.) NEW YORK, July 12.—Two detectives were shot down today south of Madison Square today by gunmen in an automobile who had been trailing them on their way to police headquarters from Harlem.

Whether the gunmen had intended to shoot only the detectives and so free the prisoners, or whether they had aimed at the prisoners to prevent "smoking" and had merely shot the detectives for good measure, early police investigation failed to reveal.

The shooting occurred at 21st street and Fourth avenue.

The detectives were Thomas Hamill and Henry Hoffman and their prisoners were Peter Bianco and Dominick Bianco. All were taken to Bellevue hospital in a serious condition.

Southern Oregon Situation.

Forests in southern Oregon suffered from lightning, but most of the blazes were small. Twenty-four fires were reported in Jackson county but were reported in good shape. In the Umpqua Forest, 48 fires were started by lightning.

A fire near Butte Falls, Ore., which threatened Crater National forest, was controlled last night after burning 200 acres of blown down timber.

SALEM, Ore., July 12.—A serious forest fire broke out about 70 miles southwest of Silver Falls this morning, according to word reaching here. The flames were 9 o'clock this morning, at which reported to be under control by time all communication between Silver Falls and the immediate vicinity of the fire was cut off.

The flames started near Camp 11 of the Silver Falls Timber company. Two bridges on the opposite side of the camp from Silver Falls were burned out. An unverified report indicates that one man was seriously injured by a falling cable while fighting the flames.

**Fire Timber Menaced.**

LONGVIEW, Wash., July 12.—Two hundred men were today fighting a stubborn blaze in a logged-off area five miles east of Orlander, Wash., which started from sparks from a donkey engine.

A crew of 24 men is fighting a forest fire six miles east of Moxton in Lewis county, which started near the Vanhook mill Thursday.

The blaze reached the top of a mountain east of Moxton, and threatens one of the finest fir bodies in the state.
