Charley Paddock

Charley Paddock says a champion must have all three start-stride-finish

These same essentials in perfect co-ordination—quick start, the full stride of power, and force sustained to the very end [finish]—are necessary to good gasoline. Associated through its distinctive range of boiling points insures this kind of a performance: no sputter when you step on the starter, no miss when you give her the gas, and always a smooth supply of adequate power from start to finish. That's why Associated is Champion. Associated is always associated with "more miles to the gallon."

Finish Charley Paddock breaking the tape with his famous "lamp finish" that has brought him 37 out of a possible 40 world's sprint records and an unequalled mark of 9.5 seconds for 100 yards, made May 15, 1915.
