The Mop and the Broom

In every spare moment Skaggs men will be found diligently wielding these instruments of cleanliness and sanitation—waging an incessant warfare against the slightest suggestion of dirt and contamination.

For cleanliness is a paramount principle with us—something to be rigidly maintained regardless of the amount of time and labor involved. This principle is your protection—your guarantee that every item you buy in Skaggs Stores is as clean and wholesome as though it were raised in your own garden or prepared in your own kitchen.

SHIFTING OF SAND BASES WASHINGTON CLAIM TO ISLAND

Oregon Opposed by Senator Dill, Who Declares His State Entitled to Money Also

(Associated Press Leased Wire.)
PORTLAND, Ore., July 23.—En route to the mouth of the Columbia river in quest of evidence to refute claims of Oregon to an island there, United States Senator C. C. Dill of Washington has arrived here from Spokane.

Of the history of the disputed territory which is known as Sand Island, Senator Dill said: "When Oregon became a state in 1859, the southern boundary of the Washington territory was declared to be a channel north of Sand Island which is in the Columbia river. In 1861, Oregon ceded the island to the United States for military purposes. But the United States never used it for military operations and now Senator Stanford of Oregon wants it turned back to that state.

"In the meantime the eddies of the Columbia have been working a change which contounds the whole boundary situation. The sand of the island has been gradually shifted to the north side of the river and I understand that a man can wade from the Washington shore to the island. In 1908 the United States supreme court held that the boundary should remain as it was in 1859 as long as there was a channel north of the island. But now, it appears, the channel has disappeared. So if that is correct, Washington should have the island and \$355,000 collected by the United States for fishing rights."

ANSWERS TO MOTHERS

God could not be everywhere; therefore He made mothers.—Job 1:6
Variation in Temperatures.
According to Holt, the rectal temperature of babies may normally vary from 98 to 99.5 degrees, so a baby should not be thought to have a fever unless the temperature is above 100. The heat regulation mechanism may become unbalanced very easily in a child, and sometimes the cause of a slight fever cannot be found. Sometimes apparently minor causes will cause quite high fevers.

Fever is merely a symptom, and it is usually due to the reaction of the body to some sort of an infection, although it may occur in conditions without an infection. It is undoubtedly Nature's means of combatting the original trouble, and it is only when the fever gets too high and causes symptoms in itself, that remedies for it should be thought of.

Naturally, as fever is a symptom, the treatment consists of treating the cause rather than the fever itself. Drugs are seldom used to reduce the fever, especially of babies. The scientific application of water—hydrotherapy—is the remedy most in use, but the application even of water should be supervised by the physician.

Water to drink is an important part of the treatment of most fevers. An infant is thought to require about three ounces of fluid to each pound of body weight during 24 hours. A baby weighing 15 pounds, then, should have at least 45 ounces or over a quart and one-half of fluid during the day. This would include its fluid in milk and other liquids being taken. During most fevers much more water than usually is beneficial.

Eczema.
Mrs. A.—Eczema is most often due to some systemic disturbance from the food. Sometimes excess

HONOR SYSTEM FAILS WITH PHILIPPINE CONVICTS
MANILLA, P. I. July 23.—(A. P.)—A policy of confining the worst Moro criminals from Mindanao and Sulu in Bilbil prison in Manila instead of at the San Ramon (Punishment) Colony at Zamboanga, has been inaugurated. A dozen of the most desperate convicts have been brought here.

MRS. J. S. MOORE OF DAYS CREEK DIES FROM STROKE
Mrs. J. S. Moore of Days Creek died yesterday evening at Mercy Hospital. Mrs. Moore had been in poor health since four years ago, when she suffered a slight stroke. She was brought to the hospital yesterday for medical treatment and shortly after her arrival suffered another stroke which proved fatal.

She was born in Page County, Iowa, October 8, 1860, and remained a resident of that state until she reached the age of 19. Twenty-one years ago she and her husband moved to Oregon and have since made their home in the Days Creek vicinity.

She leaves her husband and seven children, Arthur E. Moore, Ethel Hutchinson, Wilma Louise, R. A. Verdon, Howard and Althia Moore, all residents of the south-city part of Douglas county.

The funeral will be held on Sunday afternoon at 2 o'clock at the M. E. church in Canyonville, with interment in the Canyonville cemetery.

PROHIBITION AGENT NOT INTOXICATED, BUT DOPED, HE PROVES

(Associated Press Leased Wire.)
PORTLAND, Ore., July 23.—Complete exoneration was accorded Raymond E. Amy, state prohibition agent, when he appeared in municipal court late yesterday in answer to charges of intoxication.

He had been picked up in a stupor condition.

Before Municipal Judge Fred W. Stadter, Amy explained he had met a reputed bootlegger and, seeking sufficient evidence against him to make an arrest, had, perhaps, taken a drink. The liquor was apparently doped, he said, for he lost consciousness.

Stadter dismissed the case against him.

NATRON CUTOFF IS LABELED CASCADE LINE BY S. P. R. R.

(Associated Press Leased Wire.)
SAN FRANCISCO, July 23.—The Southern Pacific company announced today that its new line running between Wood, Calif., and Klamath Falls, Ore., which is being completed at a cost of \$25,000,000, will be officially known as the Cascade line. During construction the line has been known as the Natron cut-off.

A celebration will be held at Eugene, Oregon, on August 19 and 20 to recognize the completion of the line. It is planned by the company to have a special train run over the cut-off on that day, but regular service will not be started until early in September.

DESECTERS ARE HELD.

Lloyd Sowers and Parrow B. Starnard, desecrators, from the U. S. Navy, are being held in Seattle, according to word received by Chief of Police Ketch. The boys are to be turned over to civil authorities, as they are said to have confessed to the theft of 1000 and foodstuffs from a truck engaged in interstate traffic. The truck was robbed near Roseburg according to the message. Chief Ketch states that no reports of the theft were ever received by the police.

NAVY RECRUITING OFFICERS TO BE IN ROSEBURG SOON

J. N. Cochrane and L. C. Thornton, navy recruiting officers will be in Roseburg on Saturday and Sunday seeking young men for the navy. Young men between the ages of 17 and 25 years, who are physically qualified and can furnish the required references as to character, will be accepted. The navy furnishes opportunity, the recruiting officers state, to young men desiring to learn a trade. As the recruits may be detailed to one of the many trade schools maintained by the department at San Diego. Men enlisting now will also have an opportunity, they say, to join the cruise of the Pacific fleet, through Panama and up the east coast for man-o-war before Boston affording an opportunity to visit the exposition at Philadelphia. The recruiting officers will be located at the camp grounds.

OPEN GRANGE MEETING

Melrose grange will hold an open meeting Monday evening, July 26, to which everyone is cordially invited. The occasion is because of the fact that many farmers and business men in Douglas county want to hear W. W. Bond, master of the Idaho state grange and who is also chaplain of the national grange. Another prominent speaker for the evening is George A. Palmer, master of the Oregon state grange.

These two gentlemen have been making a tour of Oregon, visiting and speaking at various places and pomona grange meetings.

MOVIE NOTES

ANTLERS THEATRE
"That's My Baby" Heads Week's Bill at Antlers

Speed in the keynote of "That's My Baby," starring Douglas MacLean, which appears at the Antlers Sunday. There isn't a dull moment in the entire production; in fact, the complications pile up so thick and fast that the laughs come in bunches. Besides the baby, who sticks to him like glue despite all his heroic and screamingly funny efforts to get rid of it, MacLean has many other trials to contend with. As luck would have it, the girl's father is an old business rival of his. In trying to win him over, MacLean only succeeds in antagonizing him all the more.

The fun reaches a high pitch of hilarity when MacLean presents the old man with a headache powder which proves to be potent! The life and death chase that follows brings the picture to an hysterical climax that brings laughs and thrills at a rate of speed guaranteed to leave the audience breathless with surprise and excitement.

In addition to the picture, there will be a very novel production presentation, featuring the Misses Elvyn May Wilson, Evelyn Quinn, Maxine Moore and little Shirley Jean Vincent.

LIBERTY THEATRE

"Star of Volga Boatman" in New Picture Sunday

Ever hear of motion picture players appearing before the camera without make-up? Not often, of course.

In "Hitting 'Steel Preferred'" a splendid Metropolitan picture coming to the Liberty theatre next week, William Boyd, who played the lead in the "Volga Boatman," Walter Long, Charlie Murray and William V. Mong, appear without a bit of studio or theatrical make-up. The reason was that while the picture was being filmed in the big steel mills at Pittsburgh and McKeesport, Pa., the soot, grime and dust of the mill make make-up impractical.

Vera Reynolds appears opposite Boyd in this fine story of the gigantic industry, its men and their lives. Hobart Bosworth, Helen Sullivan, Nigel Barrie and Ben Turpin are also in the cast. James Hogue directed. It marks the first time a motion picture company invaded the steel mills anywhere.

Having sold my business at Dixonville, we desire that all accounts be taken care of at once, as we must leave to take care of another business.

JOHN HATFIELD.

PAVING TO START ON ROAD AT GLENDALE

In an interview with C. A. Catching, contracting partner of Catching & McGuire, he stated that the concrete for the paving of the road leading to the Pacific highway was on the way and paving would start on this coming Monday, says the Glendale News. Work has been slow on account of the hard digging they have encountered, some of which is pure bed rock but they have everything to an established grade and are ready to surface.

Mr. Catching stated that they had tried to cooperate with the public and had tried to keep the road open so that motorists could use the road, but have found it necessary to close it both ways on account of some who would maliciously drive over and tear down their forms which had been laid. This has cost the contractors many dollars but now the public will have to suffer for their mistakes. Mr. Catching stated that he regretted having to take these steps as it worked a hardship on the lumber truck drivers who have been very courteous and considerate, but unless they employ a gate keeper they could not keep others out who are not so considerate.

Studebaker builds no yearly models.

COMPLETES THIRTY-DAY FAST FOR INDIGESTION

(Associated Press Leased Wire.)
E. A. GRANDE, Ore., July 23.—Leonard Olson, of Lodi, Ore., has just completed a 30-day fast in an effort to cure indigestion, according to word received for the Enterprise this morning. Olson, who is 39 years of age, broke his monthly fast by drinking half a glass of orange juice and followed this up the next day with more orange juice and some milk. He is not yet ready to begin eating meats and vegetables.

Olson declares that he suffered no ill effects during the prolonged period without food, and says that he believes he has cured his ailment, at least temporarily. He lost 35 pounds during the month.
