

UNITED STATES TIRES ARE GOOD TIRES

### Answering Some Questions About the Most Advanced Method of Tire Building

Steps in Building a United States Tire by the Flat Band Method

Some facts about the United States Rubber Company's "Flat Band Method" which ensures uniform stretch and tension of every cord in the tire

- Q—What is the "Flat Band Method" of building a tire?
 

A—The tire is built in the form of a flat band upon a drum. The plies of latex-treated web cord are laid and fitted by hand, one above the other. The opposite edges of the band are turned around and securely anchored to "heads" consisting of rings of many strands of piano wire imbedded in hard rubber. The flat band carcass is then brought into shape on a special machine.
- Q—Does this differ from the usual method of building tires?
 

A—Yes. Before the United States Rubber Company developed the Flat Band Method, the usual practice was to use a solid, metal ring-shaped form on which the cord fabric was laid and pressed into place by a rotating wheel coming in contact with the surface of the rubberized fabric.
- Q—What does Flat Band building add to the service of United States Tires?
 

A—It makes the tire uniformly strong throughout. It eliminates the fault often found in the old-style construction, of some cords being too taut while others were loose. In Flat Band building, all the cords are under even tension, and flexibility is uniform. There are no weak spots to develop trouble.
- Q—What Company developed the Flat Band Method?
 

A—The Flat Band Method was developed by the United States Rubber Company and is patented and owned by this Company.

United States Rubber Company

## WANTED! WOMEN FOR CANNERY WORK LONG SEASON

Frank J. Norton Co.  
Sutherlin, Oregon.

## REGISTRATION BOOKS ARE OPEN UNTIL OCT. 2ND

Voters Urged to Attend to Matter of Qualification at Once.

WILL AVOID DELAY

Prompt Registration Will Serve to Avoid Inconvenience on Day of Election

Voters who have not yet qualified to vote at the coming general election should attend to the matter of their registration at once. The registration books are now open and will continue open until October 2 when they will be closed and the poll books made up for the election to be held on November 2.

Any person who has become of voting age and has not registered, or any person newly arrived in the community or any person whose residence has been changed from one voting precinct to another, or any person who has not voted at an election for two years, must register at the county clerk's office or with one of the registrars appointed by the county clerk, before October 2.

The Oregon laws provide that where a person exercises his voting privilege his registration automatically continues. If, however, he allows two years to pass without casting a vote then his name must be removed from the list of active voters and he cannot again cast a ballot until he has registered or in some way in the proper form of affidavit. Many people have allowed their registration to lapse, and should immediately take steps to again become qualified as voters.

All young people, who have become 21 years of age and have not yet registered should do so at once. If a person will be 21 years of age before the general election, but after the time the books close they may register now, a notation being made on the card regarding the time they will be eligible to vote.

A change of residence, which moves a person from one voting precinct to another also demands a change in registration, so that the person may become a voter in the precinct into which they have moved. Persons who have recently moved into the city should also arrange the matter of their registration at once.

Persons who have not registered must, if they desire to vote, be sworn in on Blank A, an affidavit attesting their qualifications signed by regularly registered voters. This occasion an inconvenience which may easily be avoided by registration now.

## RIDDLE LOCALS

Mrs. A. F. Becker and son returned home Monday evening after being away a month visiting her mother at Independence. She also spent part of the time at Newport.

A large number of pupils came to school Monday morning to register. But a good many are not going to attend until after the harvest is over.

Mr. P. H. Harrison and Mr. E. L. Hogan drove up from Medford Monday and spent a short time in town. They are interested in the Azalia orchard.

Mr. and Mrs. Mulholland left here Wednesday for Los Angeles. They are driving down, and will spend part of the time visiting Mrs. Mulholland's father's home in Los Angeles and part of the time at one of the beaches.

Mr. Everett and Mr. Rockhill, two of the prune growers who quit picking prunes, have again resumed picking.

The Weatherford baby was quite ill Tuesday.

Mr. Abner Logsdon left Monday for a hunting trip. He will join Prof. Horning of O. A. C., who is up Cow Creek canyon, near Becks.

Mr. and Mrs. Harry Frotant of Portland, who have been visiting Mrs. O. L. Willis, left Wednesday for their home.

Mrs. Moline left Tuesday for Los Angeles, where she will visit her son for an indefinite period. Mrs. Addie Nichols accompanied Mrs. Moline as far as Sisson, where she will visit Mrs. Charles Gosch.

The social club of O. E. S. met at the home of Mrs. Hart on Wednesday. The October meeting will be held at Mrs. Bogyne's.

Mr. and Mrs. Marvin Ball expect to move to town after the harvest. They will occupy the house lately vacated by Mrs. Viola Nichols. The house is to be newly papered and painted. They have also rented the McClane barn.

Mr. and Mrs. Mulholland were surprised with a very nice gift of a suitcase from their friends and congregation. They were guests of Mr. and Mrs. Horton on the highway at the time, and a number of friends went out to bid them farewell and present them with this gift.

Mrs. Mary Riddle is still suffering from her lame hip. Her daughter,

Mrs. Stoffer and Mrs. Crosby are visiting her. They are planning on leaving for California the last of the week if Mrs. Riddle's condition is better.

Mr. and Mrs. Vernon Magill of Myrtle Point, stopped over night at the Pfaff home. They are just returning from their wedding trip through California and Oregon.

The young people of Riddle gave them a chivario Thursday night.

Mr. Ivan Myers of San Diego, California, is a visitor at A. Swart's home.

Miss Cane, our genial telephone operator, has been having some new telephones installed. One in Mr. Berry the principal's home, and one in the offices now occupied by Dr. Oftedal.

Mr. A. F. Buckingham of Kansas City, Mo., is visiting her brother and family. Mr. Buckingham is an interior decorator.

Mr. and Mrs. Ed Stuller and daughter, Mrs. Brumbach of Shasta City, and Mr. and Mrs. Gary left Sunday for Ashland.

Mr. Charles H. Wallace of Ashland, spent Monday in Riddle.

Mr. Richard Durant of Salem and Mr. Robert Wisner of Dayville, civil engineers, were in this vicinity last week inspecting the irrigation ditches.

Dr. H. Oftedal spent Saturday in Eugene. His son Chase, is going to attend the University of Oregon this year.

Mr. Jewel Collins of Portland, formerly of Riddle, is visiting at the home of Mr. John Cornutt.

Mr. E. D. Holmes, a nurseryman of Lafayette, Ore., Mr. Nathan Unger and Mr. Joseph S. Svatos of McMinnville, went up in the hills near Peck.

Mr. Aspy has returned from Boise, Idaho, where he has been on account of the serious illness of his son, Clarence, who is in the veterans' hospital there. Clarence's condition seemed very slightly improved.

The Rebekah lodge has a big meeting on Sept. 15. The occasion being the visit of the president of the Rebekah assembly. They had a large attendance and served refreshments.

Mr. Ed Miller the station agent, is going on a two weeks' vacation to Portland. Mrs. Miller and Kathryn will accompany him.

Mr. Glen Lowry of Eugene, was in town Friday.

The Thimble Club will meet on Thursday at Mrs. H. Oftedal's.

Mr. Abner Logsdon and Miss Rosamund, and Lillian Logsdon were in Roseburg Saturday.

Mr. Phil Sowersby left Sunday morning for Corvallis where he will attend O. A. C.

Mr. and Mrs. George Neuner and children were dinner guests at the home of Mrs. Ralph Knight of Days Creek Sunday.

A great many of the prune growers are through with their prunes. The children who have been picking prunes, are expected back in school Monday.

Mr. Abner Logsdon is leaving Thursday for O. A. C. and Miss Rosamund Logsdon is leaving on the same day for Monmouth where she will attend the normal.

Mr. B. H. Manning of Spokane, Wash., has reopened the Riddle printing office.

Miss Alta Moore of Roseburg, spent the week end with her parents. She has been working for Riddle.

Mr. Charles Moore of Missouri Bottom had the misfortune to have his dryer burn Friday night. It was only partly insured.

Mrs. Blanche Taylor and some friends of Roseburg were guests of Mr. and Mrs. Lee Keller Sunday.

Miss Edna Buckingham and Mr. Earl Harper were in Roseburg Saturday, guests of the latter's mother.

Miss Jennie Beck, who has been under Dr. Seely's care in Roseburg, is home again.

Mr. and Mrs. J. W. Allen of Eugene, have been visiting Mrs. Allen's parents, Mr. and Mrs. A. G. Moore. They were accompanied back to Eugene by Mrs. C. H. Herzig and son, who have been visiting Mr. and Mrs. Moore all summer. Mrs. Herzig is a daughter of the Moores.

Mr. and Mrs. Lewis Rindard of Sacramento, California, have been visiting the latter's mother, Mrs. William. They went on to Baker to visit Mr. Rindard's sister and will stop here on their return trip.

Mr. Owen R. Moore and Mr. Carmack of Portland, owners of the National Ice Co., visited at the A. G. Moore home over Sunday.

Mrs. James Bean of Portland, is visiting her sister, Mrs. Noah Cornutt. Mr. Bean came down later to go hunting.

Mr. Roy Gurney of Medford, is visiting his aunt Mrs. Noah Cornutt.

Mr. Henry Siebert is putting in new fixtures in the Everett building that is to be occupied by the Elder Hardware Co.

Mr. Baker, the Baptist minister, will preach in Glendale Sunday, Sept. 26, and in Riddle Sunday Oct. 3.

Mrs. Bower is leaving Monday for Alluras, California.

Mr. and Mrs. John Hamlin drove to Myrtle Point Sunday. Mrs. Hamlin remained to visit her sister. Mr. Hamlin returned Sunday night.

Mrs. Carl Fisher returned home after being confined to the hospital for a short time.

Mr. and Mrs. G. E. Nichols of Manhattan Beach, visited relatives in Riddle and vicinity.

Mr. and Mrs. Harvey Brown and children of Roseburg, were guests of Mr. and Mrs. Ben Nichols Sunday.

Mr. and Mrs. Lester Crow of Marshfield were guests of H. A. Crow and family Sunday.

### Load Everything Evil on Dragon's Shoulders

They still blame it on the dragon in China when anything goes wrong.

What the ideas of a people 65 per cent illiterate do not change rapidly is amply illustrated in Thomas Steep's book, "Chinese Fantastica." Now, as in centuries gone by, the dragon dictates the daily conduct of millions of Chinese.

Angered, the dragon manifests its displeasure in floods, draughts, earthquakes, eclipses and typhoons.

When Canton was wrecked by a typhoon the havoc was attributed to the whisking of the tail of an angry dragon. During a solar eclipse the people of island villages, supposing the darkness to be caused by a dragon having swallowed the sun, rush to the streets and with drums, gongs, horns and whistles create noise until the dragon, frightened, disgorges his prey.

What does a dragon look like? It is equipped to work any kind of destruction. It has teeth, claws, feet, wings and tail. Its scales number eighty-one, or nine times nine, the extreme odd or lucky number. It possesses all the luck that humans covet. Its voice is as the booming of a gong. Its breath is fire, fog or rain. It renders itself visible or invisible. It swells to the dimensions of heaven or shrinks to the size of a silk worm.

It likes to sleep within the earth and mightily hates to be disturbed. Hence the aversion of the Chinese to the digging of mines, the construction of railroads, changing of water-courses, or anything else that will disturb the slumbers of the dragon.

It likes to sleep within the earth and mightily hates to be disturbed. Hence the aversion of the Chinese to the digging of mines, the construction of railroads, changing of water-courses, or anything else that will disturb the slumbers of the dragon.
